ENTIRE WALKER BUILDING GIVEN OVER TO ALL TECHNOLOGY SMOKER TONIGHT

Athletic Events, Talks, Movies and Dinner Feature Annual Gathering of Institute Students

ENTERTAINMENT ENDS FIRST "HELLO DAY"

Tonight, in Walker Memorial, department of the Institute, will open the annual student activities week. It is the night before "Hello Day," the opening event of the year's social and athletic activities. There will be music, dancing, and a variety of refreshments provided by the Institute's Social Committee.

DR. SAMUEL W. STRATTON CHOSEN NEW PRESIDENT OF TECHNOLOGY

Assumes Duties of Office January 1—Is Now Director of U.S. Bureau of Standards

Has Been Prominent in Science and Research for 30 Years—Genius at Organization—Credited with Many Inventions

HEARTILY APPROVES INSTITUTE ACTIVITIES

A president for Technology was elected Wednesday afternoon when, at a meeting of the Corporation, Dr. Samuel W. Stratton was chosen to fill the place held in the past by such men as Rogers, Walker, and Macalister. Dr. Stratton will come to the Institute January 1 as the third president under the management of the Bureau of Standards in Washington. With the beginning of the new year we may look forward to the results of the administration of the Institute, which have been in the hands of the Administrative Committee of the Faculty and the Corporation.

SMOKER MEAL HOURS

Meals will be served to the classes at the following hours:

Breakfast at 5:45 a.m.
Lunch at 12:00 noon
Dinner at 5:45 o'clock

SMOKER TONIGHT

For those who desire to learn something of the undergraduate activities, a program of talks is scheduled by the Athletic Committee to be presented to the faculty, students, and the public.

SMOKELESS TONIGHT

The Council has decided to have the Tech smokeless for the next two weeks. This is in order to encourage cooperation among the students in order to gain their support of the idea and to est connect, if possible, the support of the rest of the school.

MERITS OF HONOR SYSTEM DISCUSSED

Student Council Men Tell Advantages of Meeting of Course IV

The system was begun in 1920, and worked successfully last year. As a result of this, the system is now being offered to Course IV students, but as far as it has spread among the students, it has been excellent. The system is offered to students in different colored tickets have been assigned and different colored tickets have been assigned to the students in closer touch with each other, the purpose being to bring them into closer contact with each other. The rules of the common room, the dormitory, and the social clubs have been established, and the students have been instructed that they must follow them. The system has been successful in increasing the sense of community among the students.

SAMUEL W. STRATTON FOUNDED ASPECTS OF SCIENCE

There is a fine spirit back of "Hello Day." Why not celebrate the day by beginning potential reminiscences and brightening up our old men?
