

## OPPORTUNITY OFFERED LITERARY ENTHUSIASTS

Student Contributions Sought  
for Literary Supplement  
of THE TECH

FIRST ISSUE THIS FALL

For the first time in a number of years an opportunity is being offered Institute men, talented and interested in good writing to place articles of their own originality before the student body. This is being done by the proposed addition of a new supplement to THE TECH.

Plans for a Literary Supplement to THE TECH are now assuming definite shape. It has long been a subject of controversy, certain of the students and professors having emphasized the need of some such supplement similar to those put out by other colleges, and others having pointed out the dangers of trying the experiment in a technical school. However, with the co-operation of the English department copy is being collected and arranged for the first issue.

### Little Censorship of Articles

The apportionment of the material will be determined by experiment. The Managing Board of THE TECH wishes it to be understood, however, that the supplement will be in no way the work of the staff of the paper. It is hoped to include spontaneous contributions from the student body at large, ranging from short stories to articles on world wide problems, from book reviews to poems. Little censorship will be used on the articles printed, and in each case the name of the author will appear above the contribution. The only limitations are that the quality of the writing be maintained at a high level in all cases.

### Student Contributions Desired

The date for the first issue has not been definitely decided upon, but it will in all probability be in the first week of December. This means that contributors must begin immediately on their articles. Men interested in the proposed supplement should leave their names in the Managing Board office of THE TECH or see the Editor-in-Chief in person. They will then be given any additional information that they desire, especially in regard to the length of their articles and the general make-up of the supplement.

## CAMP TECHNOLOGY MEN TO HOLD BIG REUNION

Prof. Hosmer and Others Will  
Attend Affair—Big Time  
Promised

The men who attended the summer camp, Camp Technology, are going to hold a reunion in the form of a banquet on Friday, October 27. This banquet will be either held at the Hotel Lenox or north hall in Walker Memorial. The committee, in charge consists of C. W. Moore '24, E. Hosback '21, J. E. Jagger '24, and J. H. Leon '24. The committee promises a good time to all summer camp men who attend.

The committee expects Professor G. L. Hosmer '97, and Professor Robins to be present. Many of the assistant instructors and professors will attend.

## CANDIDATES FOR T. C. A. PUBLICITY DEPT. WANTED

Candidates for the publicity department of the Technology Christian Association are wanted. The position of assistant director is vacant and anyone who comes out and works conscientiously has a chance of securing it. A candidate will be appointed for this job as soon as possible without his having to wait until the end of the second term. The T. C. A. asks all men interested to come to room 25 Walker today or Tuesday from 2 to 3 o'clock or on Friday from 12 to 1 o'clock.

R. H. Frazier '23, president of T. C. A. is representing M. I. T. at the executive committee meeting of the New England Field Council. This committee was chosen here last April 28-30 at the meeting of the Officers of College Christian Associations of New England. The other colleges represented in this meeting are Yale, Worcester Poly Tech, Wesleyan, University of Vermont, and Springfield Y. M. C. A. College.

## "When Good Fellows Get Together"

## T. C. A. BENEFIT DANCE SCHEDULED FOR OCT. 28

Given by Walker Committee  
and Musical Clubs—Specialty  
Acts Meet Tuesday

The first tea dance of the year is to be a benefit dance given by the Walker Memorial Committee and the Combined Musical Clubs. It is to be held in Walker on Saturday, October 28, from 3:30 to 6:30 o'clock.

All the proceeds from the dance are to go to the Technology Christian Association. The Jazz Band of the Musical Clubs is to furnish the music for the dancers.

As the Harvard-Dartmouth football game occurs the same afternoon, those in charge are endeavoring to make the necessary arrangements to have the score reports announced during the dance.

The Fall concert of the Clubs will be given in Walker, December 1, and will be followed by a dance. The purpose of this Concert is to give the undergraduates an opportunity to hear the Clubs before they go on their Winter Trip, and not, states the management, to finance the trip.

The management of the Clubs will hold a meeting for all candidates for the specialty acts which are part of the program of the Fall Concert, tomorrow in room 10-250 at 5 o'clock. Any act using from one to four men is eligible and if retained will be used on all three trips of the Musical Clubs schedule.

The fine system recently devised by the Clubs provides for the payment of a \$10 deposit by each member from which the various fines for lateness and absence from rehearsals and concerts are to be taken.

## SIGNAL BATTALION HOLDS BANQUET AND SMOKER

The Signal Battalion plans several big events for the year. At a meeting of the Battalion, shortly after the opening of the college year, committees were appointed for a banquet and smoker. The places and dates have not been definitely set.

The banquet will be in honor of Captain L. L. Clayton, who is leaving the Institute soon. Captain Clayton has been very active in the interest of the Battalion and has been made an honorary officer of it.

The smoker will come sometime after the banquet. Its purpose is to get all the members together once more and to give the new members a chance to get acquainted.

## PROFESSOR BUNKER WILL GIVE FRESHMAN LECTURES

Freshman personal hygiene lectures will be delivered this year by Professor J. W. M. Bunker of the Department of Biology at the Institute. There will be two of these lectures, the dates of which will be announced later. The Medical Department regards it as very important that all freshmen attend.

On account of the increased enrollment this year, doctors are in attendance at the clinic twice daily. Dr. B. E. Sibley is present from 8:30 until 9:30 o'clock and will take care of cases requiring medical attention. Dr. Croke will attend to the surgical work from 4 to 5 o'clock daily.

## A CORRECTION

THE TECH, in its issue of Friday, October 13, issued on its first page a statement from Technology's new President, Dr. Samuel Wesley Stratton, relative to undergraduate activities. This statement was an excerpt from an article which will appear in the November number of The Technology Review. This article is fully protected by copyright, and re-publication rights, whether in whole or in part, are fully reserved by The Review.

THE TECH had obtained permission to use this excerpt from the article, but due to an error, the courtesy of The Review was not acknowledged. THE TECH regrets extremely that proper credit was not given The Technology Review for permission to reprint this extract from the interview with Dr. Stratton.

## 1061 IS LUCKY NUMBER IN TECHNIQUE CONTEST

Sophs Can Obtain Information  
on Photo Competition  
at Five Today

Every one who has not already done so should look at the smoker handbill he received Friday morning and find out what the number printed at the top is. The holder of handbill number 1061 is the lucky man, as that is the winning number. It is necessary, however to have the winning handbill to receive the free copy of Technique. The holder of the lucky number may obtain his Technique by calling at the Technique office, on the third floor of Walker Memorial any day at 5 o'clock and presenting the handbill.

Sophomores interested in the Technique 1924 Photographic Competition can receive full information about the contest by coming to the Technique office at 5 o'clock today. Those unable to come at this time should leave their name and address at the office any time during the day.

## CIVIL ENGINEERS TO GIVE FIRST SMOKER

Membership Campaign Is Very  
Successful

The M. I. T. Student Chapter of the American Society of Civil Engineers will hold its first monthly smoker of the year in north hall, Walker Memorial, at 7:30 o'clock on Wednesday evening. Professor W. K. Hatt, Director of the National Advisory Board on Highway Research under the direction of the National Research Council will speak on "Acute Problems in Highway Engineering and Transportation."

Professor Hatt has been invited by Yale University to speak there on his way back to Washington, D. C. The Society has been very successful in its campaign for members. Of last year's membership, 80 per cent have been re-enrolled and the campaign just started the latter part of last week.

## LENGTH OF LECTURES ON RADIO INCREASED

Send Messages Free of Charges  
for All Who Desire at  
Smoker Friday

As previously announced, the first of the Radio Club Lectures were given last Friday afternoon between the hours of 12 and 2 o'clock in room 10-275.

Such keen interest has been displayed that the lecture periods have been increased to one hour apiece, and occur every Friday, from 12 to 1 o'clock and from 1 to 2 o'clock. The lectures were originally intended as a preparation for Governmental Commercial Licenses, but as they cover many points that have not yet appeared in print, they are of interest to everyone.

### Membership Drive Closes Today

A feature of the All Technology Smoker on the evening of Friday last was the Radio Club Booth, where many of the students took advantage of the Club's offer to send radiograms free of charge. The most efficient operators were put on duty in order to handle the large traffic. Unidentified aerial disturbances have recently been causing difficult communication with New England so no messages were sent to that section of the country. The most important radiograms were sent first and should have been delivered by Saturday morning.

The Radio Club Membership Drive closes some time today. There are many students who have shown interest in the organization but have not signed up yet. The membership at present consists of about one hundred men, and it is hoped to increase this to two hundred.

## CORPORATION XV WILL CONTINUE ITS DRIVE

No Definite Time is Set For  
Membership Campaign  
Termination

Although the majority of the professional societies close their membership drives this week, Corporation XV will continue theirs indefinitely. The officials of the Corporation are going to interview each eligible man personally in attempt to enroll 90 per cent of the prospects.

All men who are in Course XV and have completed one year at Technology are eligible to apply for admission. These will be divided into sections of about 20 men each, to which will be assigned an existing member who will attempt to see each man separately and solicit his membership. They intend to make this a record breaking enrollment campaign.

This society is incorporated under the laws of the State of Massachusetts and is assessed for ten thousand dollars. Those who join become stockholders in the corporation, paying a yearly assessment of \$1.50.

Corporation XV plans to give the Engineering Administration students a practical knowledge of some of the problems with which they will come in contact in later life.

## BIG SMOKER LAST FRIDAY EVENING A GREAT SUCCESS

President-Elect Stratton Not  
Able to Be Present Because  
of Previous Engagement

FREEDOM OF WALKER  
GIVEN TO FRESHMEN

New System of Activity Talks  
Tends to Shorten Time  
of Speaking

Last Friday evening, Walker Memorial was the scene of the first big social gathering of the college year. A large percentage of the student body took advantage of the occasion to meet their fellows in a purely social way.

At about 7:45 o'clock, a rush for seats in the main hall started. A few minutes later, a flashlight picture was taken of the whole assembly. Then H. I. Beadle '23, acting as Master of Ceremonies, introduced Dr. A. W. Rowe '01, chairman of the Athletic Advisory Council.

### Show Movies of Crew

Dr. Rowe opened his address by presenting the Technique cup to J. W. Poole '23. This is the first year of the history of the Technique Cup. The man who wins the greater number of points for Technology in outside track meets has his name engraved on the cup, and he is presented with a miniature replica of the cup. Poole gave a short speech of acceptance, in which he stated that he did not in the least begrudge the time that he spent in athletics, and urged all new men to go out, whether they are any good or not. Then Dr. Rowe explained the position of athletics at the Institute, emphasizing the fact that we are the only college in America in which the student body has complete control over their activities. He closed with the statement, "Never mind whether you win or lose. Play the game cleanly. If you win, to you the glory, if you lose, be a good loser."

This address was followed by movies of the Technique Rush of two years ago, and the Field Day of the same year. Some special pictures of the crew were shown, that were taken with the Ultra Rapid Camera, and when shown at the ordinary speed, form an analysis of the form of the men. After the pictures, E. H. Schmitz '23, gave some vocal selections, accompanied on the saxophone by W. C. Groce '23. These were very well received. Among his numbers were "Freedom" from last year's Tech (Continued on Page 4)

## CO-OPERATIVE DIVIDENDS ARE BEING PAID TODAY

Representatives Will Cash Divi-  
dend Checks at Store

Dividends of the Technology Branch of the Harvard Co-operative Society will be paid today at its store on Massachusetts Ave. All men who were members last year are entitled to dividends. Last year's membership was the largest in the history of Technology Branch and it hopes to equal this record during the next three terms.

The dividends will be issued in the form of checks upon presentation of last year's membership card and may be cashed at the store. A representative from the Society will be at the store from 10 to 3 o'clock today, tomorrow, and Wednesday, to cash the checks. The dividends are ten per cent of the total amount purchased at the store last year and in some cases will amount to a considerable sum.
