

COACH KANALY PICKS TEN HARRIERS WHO WILL RACE CORNELL

CHOICE MADE AFTER FIRST 4 MILE BARRIER STUDDED TRIAL EVER RUN BY ENGINEER TEAM

After the four mile race for time on Tech Field Saturday afternoon, Coach Frank Kanaly picked the following ten men, who will wear the Cardinal and Gray at Ithaca next Saturday—Captain Bob Hendrie, Frank Bemis, Ernest Gardiner, Gubby Holt, Bill Keplinger, Roger Parkinson, Leo Poore, C. E. Roche, Bud Robertson and Elmer Sanborn. It is impossible to say whether the time was good or not since this is the first trial which Institute cross country men have had at a distance of four miles and over nine barriers.

Though the coach does not possess comparative times it is his impression that the Engineer hill and dalers will be up to the standard set by last fall's combination. A great deal, of course, depends on the work done by the men on the squad, but Mr. Kanaly believes that the material is there.

Bob Hendrie, who has been troubled by a stiff leg during the last week, is again in tip top shape, his only loss being that of several day's practice. Elmer Sanborn has been suffering from a cold in the head and so hasn't been putting in the regular amount of work, but he also is all set to dig into the final week of preparation before the Cornell race. The only one of the Technology hospital list who isn't ready for action is MacIntyre, who was kicked in the ribs by a horse, and has not rounded into shape yet.

The ten man team picked after Saturday's run will stand only for the opening contest at Ithaca. Many more trials are on the Engineer cross country program for this fall and the men who show the goods in them will be the men who race for Technology in the subsequent contests.

A slight increase in the number of freshmen out for cross country was noted at the trials, but the demand is still far ahead of the supply. Cross country is far and away the Institute's biggest fall sport and is one of the sports in which a Technology letter is universally recognized. Not the least of the attractions is that here cross country is handled by a man of exceptional ability and a man from whom every candidate, whether successful at cross country or not, can gain something. The opportunity merits the consideration of every freshman.

Among the first year men who have shown ability are Davidson, a former half miler, Symonds of New Rochelle who has a 2-10 half to his credit, and Lord. The freshman relay role includes Copley, a transfer from Colgate, and Erlanger, who came here from Andover.

Five of the men chosen to run at Ithaca were on the varsity squad last fall, while the other five were freshmen a year ago. Captain Bob Hendrie scored regularly for the team last season and so did Elmer Sanborn, who was captain in 1921. Poore, Holt and Robertson were the other varsity runners. Roache, Bemis, Parkinson, Gardiner and Keplinger are the five newcomers in the varsity ranks.

The team will leave for Ithaca Thursday night, the party including the ten athletes, Coach Kanaly, Doc Johnson, trainer, and Manager George Swartz.

The coach when asked what he thought of the new barriers, answered that they were "a good thing." He said that the idea was borrowed from the English idea of cross country, in which the course includes water jumps, fences and similar obstructions. The Van Courtland park officials plan to use artificial barriers in place of natural difficulties like these.

Harvard Football Team Troubled by Bowdoin Warriors

With Captain Buell and George Owen down at New Haven the Harvard football team had its difficulties with Bowdoin Saturday afternoon, and certainly lacked the customary Fisher snap in finally winning, 15-0.

It was not until late in the first half that the crimson stepped out in front, Karl Pfaffman, the lanky boy who called the plays in the absence of Charley Buell, kicking a field goal which barely got over the bar. Roscoe Pitts' 40 yard dash on Harvard's well known end-around play put the ball on the Bowdoin 16 yard, where the plucky Maine outfit stopped the University for three downs, only to have Pfaffman make three points.

In the second half Harvard presented a more impressive showing, scoring two touchdowns after really brilliant open field advances by Vin Chapin and Rouillard. Catching a Bowdoin punt early in the third period Chapin evaded the Bowdoin ends, dashing back to the 23 yard line before he was dropped. From this point to the zero mark, the Crimson relied on line plunges by Chapin and Gherke, who smashed through the Down East eleven for steady gains, and after a one yard penalty on Bowdoin, Gherke scored.

Rouillard, who had just gone in, got away for a thrilling run on the first play of the fourth quarter, and for a minute seemed to have a clear field to the goal. He was nailed on the 15 yard line, however, but aided by Lee's luck in scooping up a fumble Harvard soon added another touchdown.

The line-up:

HARVARD		BOWDOIN	
Fitts, le	le, C. Hildreth	Eastman, it	it, Mason
Grew, lg	lg, Townsend	Kernan, c	c, Parson
C. Hubbard, rg	rg, Tucker	Dunker, rt	rt, Tootle
Hartler, re	re, Gibbons	Pfaffman, qb	qb, Smith
Coburn, lhb	lhb, Meacham	Gehrke, rhb	rhb, Morrill
Chapin, fb	fb, Phillips		

SCORE BY PERIODS

Harvard	3	0	6	6-15
Bowdoin	0	0	0	0-0

PHYSICAL EXAMINATION COMPULSORY FOR FROSH

The Medical Department will commence the physical examination of all freshmen and transfers the last of this month. Appointments will be mailed to the students, and these appointments must be kept regardless of conflicts. Cuts incurred in keeping appointments are excused. If, because of sickness, or for any other good reason, appointments cannot be kept, students are requested to notify the clinic as far in advance of their appointment as possible.

24 FRESHMEN PUT THROUGH SCRAPPY FOOTBALL SESSION

First Year Warriors Stage Encouraging Practice on Tech Field Saturday

The spirit shown at the Technology Smoker was partially successful in bringing out more freshman candidates for the football team. Twenty-four freshman candidates went through a hard two hours practice Saturday at Tech Field and although the showing was better than in former practice, great improvement must be shown if the first year men are to capture the football game from the Sophs on November 3.

Two teams were picked and every man was given a chance to show his real ability. The scrimmage proved that the teams were woefully weak in working together, and that hard signal practice is needed. The individual men were willing to get into the work and give their hardest but team work was lacking. The yearlings have some big and husky men who managed to tear holes in the opposite line. Most of the plays tried were straight line plunges although one or two forward passes were engaged in. Comparatively speaking the practice was better than previous workouts, but a beginning has only been made in forming a winning team. Practice will be held every day at 4 o'clock and at least twice as many men must report so as to enable the coach to have good scrimmages and plenty of material to chose the Field Day team from.

Those of the freshman class who do not play football will be given an opportunity to help the team with regard to something that is essential in having strenuous practices. The A. A. provides jerseys and stockings for Field Day but makes no provision for equipment before that time, so that the majority of the football men are without adequate material. At least \$100 are needed to properly equip the team. The section leaders of the freshman class will make known to their respective sections the need of getting good football togs for their team and will be authorized to take any money that members of his section may wish to give to help out the team. Since the entrance class has such a large enrollment, and this will give everybody a chance to show his interest in the team, it ought not to be difficult to raise the required amount.

The freshman team has already scheduled two games beside the one on Field Day. They play Tufts seconds on October 21, and the Brown seconds October 28.

M. I. T. A. A. WANTS MORE PUBLICITY CANDIDATES

A last call is being made by the M. I. T. A. A. for candidates for the Publicity Department. The work is very interesting and takes very little time. It will afford valuable experience in advertising. To the first capable ten men will go the positions.

The work of the department is concerned with all the Institute athletic teams. Schedules of all home meets are kept, and the contests are accordingly advertised. The purpose of the department is to make more widely known the abilities of the teams and their respective athletes.

All students who are interested are requested to see A. P. Kellog '24, in the M. I. T. A. A. office any afternoon at 5 o'clock.

Sophs Play Tufts '26 in Scoreless Opening Game

Technology's Sophomore football team and the Tufts freshman eleven battled to a scoreless draw in the Tufts Oval Saturday afternoon. For three quarters the Engineers kept the frosh on the defensive, on several occasions getting within twenty yards of the goal line, but for some reason they lacked the final drive necessary to score. Tufts after doing more taking than giving for the greater part of the battle, brought forth a dangerous forward pass attack in the last minutes of play, but they also came to a halt on the twenty yard mark.

Last year practically the same Cardinal and Gray eleven booted its way to a 3 to 0 win over a different Tufts frosh, but they were not outweighed then as they were Saturday and they had had two weeks more practice. There was plenty of beef in the opposing line this fall, several of the freshmen totting well over 200 pounds. Technology had little trouble getting within striking distance of the goal, but certainly weakened when it got there. Several times after smoothly coming down the field to the danger point for Tufts the Sophomore backs fumbled or missed the holes or in one way or another brought the offensive to a fruitless conclusion.

While the attack was not brilliant the Soph eleven was altogether impregnable on the defense, time and again, forcing the Medford quarter to call for a punt. It was only in the belated aerial drive that Tufts really got substantial ground gains and that was stopped before the crowd had more than started its cheering. It is quite likely that the rather feeble attacks of both teams may be layed to a lack of practice. After just a week's work it is certain that much could not be expected from the Soph warriors in the line of concerted plays. The Tufts outfit never played together before and so although it has had

considerably more than a week's drill showed that a great deal can be done in developing its team work.

Both combinations possessed good kickers and little ground was gained by either in the exchange of punts. Phil Carrier sent the pigskin for 40 or 50 yards at a crack but since the Tufts quarter connected for just as long shots, the Engineers couldn't rely on gains in this department.

Tom Price, half back, did some of the best line plunging for the '26 eleven. His drives through the inside of left tackle always netted three or four yards and usually well over that. A big part in the success of this play was taken by Shepard and Palmer the guard and tackle who opened a way for Price.

Johnston handled the team very smoothly, and that is far from an easy job when signal drill has been run off only two afternoons. Ed also carried the ball well himself making three pretty runs around end. Phil Carrier, in addition to holding his own at punting, registered several five and ten yard trips around end.

The Sophomores have an open date this Saturday and will play Lowell Textile on October 28. The freshman team at the Institute meets this same Tufts outfit on Saturday.

TYPED REPORTS AND THESES ALWAYS SCORE WITH THE "PROF"

They save your time and that's important. They save his time and that's important too. Typewritten papers are preferred—always. Your penmanship may be O. K. but the "Prof." would rather have plain type. And lots of students now give him what they know he wants. It will pay you to keep up with the procession.

IN COLLEGE AND OUT OF COLLEGE you need a Remington Portable Typewriter.

The personal writing machine is the busy man's friend for life. No matter how much typing he "dictates" at his office, he usually has a portable machine at home for much of his personal writing. And the members of his family use it as much as he does. Don't forget that skill in typing is a fine and useful accomplishment. It will save many of your precious hours, not only in college but as long as you live.

Buy a Remington Portable and keep it always with you. This intimate, little companion will save your time and lighten the burden of your writing tasks.
