

### Sophomore Tug of Warriors Showing Veteran Ability

The Sophomore tug of war team has signed a total of 35 men, most of whom were on the rope at all of the three practices last week. Many of the candidates were on the team which lost last year and are anxious to be on a winning twenty in their second attempt. Practically all of the Soph heavies have the fundamentals down pat by this time and when in action the '25 line already gives the Senior coaching staff reason for satisfaction.

Last year the team averaged 152 pounds. Even after discounting for the huskiness added to their appearance by the old army duds most of them have donned, the athletes seem quite a bit heavier this fall. The Soph tug of warriors are under the guidance of Art Davenport, Tom Rounds and Freddie Kinch, all '23.

The candidates are as follows: J. C. Dunbar, Stolte, G. J. Gross, J. DeKay, C. A. Ross, E. N. Wendell, R. W. Lewis, E. K. Patten, G. L. Witham, H. A. Springer, M. H. King, F. D. Klein, E. L. Lynch, G. C. Kaine, G. A. Drew, M. A. Baldwin, G. G. Davidson, J. Manuele, C. W. Caldwell, H. Casin, M. Schacat, S. Zerkovsky, H. F. West, K. O. Lawless, V. B. Bennett, W. Filene, G. Blonsky, H. E. Wehlmiller, M. Levine, E. G. Pennocle, S. P. Perry, J. W. Roper, A. C. Brown, W. J. Rhodes.

### ARMY ORDNANCE SOCIETY NOMINATES NEW OFFICERS

The Army Ordnance Association began its activities of the year with the nominations of officers last week. A. K. Whitaker '23, was nominated for president, and J. M. Keck '23, won the nomination for temporary treasurer. As these were the only nominations it is the equivalent of the election. The executive committee will be appointed by the president very soon and a first and second vice-president will be chosen by the officers next week.

As soon as the organization is completed plans will be drawn up for the coming year. The first event will be a smoker.

### MANY MEN JOIN NAVAL ARCHITECTURAL SOCIETY

The membership drive conducted recently by the Naval Architectural Society has been very successful, according to the Society heads. Thirty-three members have been enrolled, which is a large part of the Upper Classmen in Naval Architecture. Owing to the fact that Treasurer Francisca Parra has been detained in Spain, it is not possible yet to announce definite plans for the future. However, Chairman T. H. Boyd '23, states that the Society will probably hold its first smoker near the end of this month.

### CATHOLIC CLUB WILL GIVE INFORMAL DANCE

The Catholic Club announces that it will give an informal dance on Nov. 17. For the benefit of its members, who now number more than a hundred, a formal dance is being planned. No definite date has yet been arranged, however.

At a meeting of the officers of the club, it has been decided that a Super-Dance will be given once a month and, an active year is being planned.

### DR. ROWE WILL ADDRESS CHORAL SOCIETY TODAY

At five o'clock today the Choral Society will have its first meeting this year. Dr. A. W. Rowe of the Advisory Council on Athletics will speak. The society is fortunate in having the services of Mr. Townsend, well known choral leader, to assist in the activities of the society. The meeting today will be held in room 5-330 and will be open to candidates as well as to the old members.

### NEW PIPE LINES NEARING COMPLETION

Weather permitting, the pipe lines being constructed from the power house to the new experimental laboratory will be completed by the end of next week. The tunnel will contain a three-inch high pressure main and a four-inch main. The foundation slab has been cast wide enough to form a ledge on the outside of the tunnel and this will contain the high tension conduits.

### IMPORTANT OPERATION HELD IN RUNKLE HALL

The other night a certain member of Runkle hall had his misplaced eyebrow sadly mutilated by certain other designing members of the hall. A plot was laid to catch the owner of the moustache as he was returning from the theatre. As he entered his room he was waylaid and the operation then took place, but not very successfully as he was unwilling. After it was all over they shook hands over it and called it a great joke, even the patient.

### Gym Team Candidates to Get Early Start

The gym team has issued a call for candidates. Freshmen may substitute gym team work for physical training. No previous experience is necessary. All freshmen intending to try for the team should sign up with Coach Kanaly before 12 o'clock November 1st.

There is also a competition open to freshmen and Sophomores for the position of assistant manager of the gym team. Two Sophomores and several freshmen are needed. Those interested should sign up on the notice on the main bulletin board, or see Manager Lehrer in the M. I. T. A. A. office, third floor, Walker Memorial.

Candidates for the varsity gym team are to put their names on the bulletin board also. The season opens immediately after Field Day.

### BERT LOWE TO PLAY AT SEASON'S FIRST DANCE

#### Tickets for Dorm Dance Go On Sale Today

The dorms will open the dancing season in Walker Friday evening, when, at 8 o'clock, Bert Lowe with his best eight piece orchestra, starts the music for the season's first Dorm dance. The tickets, which cost \$2, go on sale today, and can be secured only from members of the committee. The members of the committee are: E. H. Miller '23, chairman, M. L. Ifeldt '24, H. M. Tracy '24, and R. T. Lassiter '24.

The function will be held in the main hall of Walker, and about 175 couples can be accommodated. Refreshments will be served from tables in the main hall, and the committee promises several novel features.

All last year, at more or less regular intervals the dorms held dances in Walker Memorial, and there was always a great demand for the tickets. According to custom, the party will run from 8 to 12 o'clock.

### WIRELESS TRANSMITTER CALLS DORMS TO ARMS

Over in the dormitories there is an argument taking place with regard to wireless outfits. There are fifteen men who are interested in five or six receiving sets and there is one man who has a sending set. The hours that this set operates are in no way restricted and it interferes with the other receiving sets.

Accordingly a petition has been gotten up by several of the men owning receiving sets to restrict the hours that the sending set may operate. The originators of this petition plan to present it to the dormitory committee in the near future.

### MANY LOST ARTICLES SILL UNCALLED FOR

Once more the Lost and Found Department wishes to urge students who have lost anything to call at the office and see if it has not been turned in there. At present there is a large collection of books, hats, raincoats, fountain pens, and many other articles. The limited amount of space in the office makes it impossible to retain any article more than a month.

Lawyer Is One Hundred Years Old  
Senator Cornelius Cole, a member of the class of '47 of Wesleyan University, celebrated his one hundredth birthday in September. Nevertheless, he journeyed to Middletown, Conn., last June, from Los Angeles, and had the degree of Doctor of Laws conferred on him. In spite of his age he is an active lawyer, and has a case scheduled in the Los Angeles Court this month.

### ED MOLL AND LEW PHILLIPS WARMING UP

Captain Ed Moll of the boxing team, and Lew Phillips former amateur light weight champion of Australia, getting in shape for the interesting bout they staged at the smoker Friday night.

### HEXALPHA TO HOLD BIG BANQUET ON WEDNESDAY

Hexalpha will start the coming season with a banquet held at Lynn Wednesday the eighteenth. Complete plans have not been formulated for the organization this year; all the members at present are honorary, there being no general members. The officers this year are H. E. Koch '22, president, A. H. Kidder '22, secretary and Dee Andes Yount '23, corresponding secretary.

### COAL SHORTAGE WILL NOT AFFECT INSTITUTE

In spite of the coal shortage, Major A. S. Smith, Superintendent of Buildings and Power, states that the Institute will have a sufficient amount of fuel this winter. The Institute already has 2400 tons with which to start off the season. 11,000 tons are consumed annually, but despite such an enormous consumption, the school will experience no difficulty in filling its bins. It would take two months of the most bitter winter weather to burn the coal on hand, and by that time Major Smith promises plenty more to keep the students warm.

### Chinese Soccer Team Defeats Andover, 1-0

The Chinese soccer team, on which nine Technology men play, defeated Andover Academy at Andover Saturday afternoon, by a score of 1 to 0, in a very exciting match. The contest, an hour in length, was divided into two halves and it was not until 10 minutes of the second half had elapsed that the scoreless tie was broken.

After some clever passing on the part of the forward line, Captain Liu, who comes from Harvard gave the ball a shot which eluded the Andover goal and sent the Chinese into the lead. The play throughout the game was fast for so early in the season and combined with the close score held the interest of the crowd for every minute of the hour. H. Y. Tsui, half back, who played on the Institute varsity last fall, was in the center of many of the plays and so was Arthur Sun, who is at present a candidate for the Technology eleven.

The Chinese lined up as follows: Goal—C. W. Chien; full backs—Lee, K. H. Oon; half backs—C. Tseng, H. Y. Tsui, Arthur Sun; outside left—N. E. Chu; inside left—S. Y. Liu; center—Captain Liu; inside right—P. K. Liang; outside right—F. Lin.

### BIG SMOKER LAST FRIDAY EVENING A GREAT SUCCESS

(Continued from Page 1)

Show, the new popular hit, "Nobody Lied," and the old time "Three Brass Balls." They were encored several times.

#### Dean Talbot Gives Address

Following the music, K. C. Kingsley '23, gave a general speech regarding coming out for activities. Before the started his address, however, he announced that the Technique Lucky number was 1061. This refers to the handbills that were given out by Technique Friday morning. The man who got that number wins a free copy of Technique. Then in his speech, he outlined the advantages of going out for some athletics. He proved definitely that all men at the Institute have plenty of time. He gave a number of "Intangible Advantages," and showed that all of Technology's big alumni were men who have been out for some activity while they were at the Institute. Then he demonstrated that it is really the duty of all students to take part in some activity.

The next speech was by Dean H. P. Talbot '85. He opened by explaining that Technology is facing a new era with the election of Dr. S. W. Stratton as the new president. He then gave an outline of the four integral parts of the Institute as a whole, namely: the Corporation, which is the supreme power of Technology; the Faculty, whose duty is caring for the educational side and keeping up the "tone" of the Institute; the Alumni, which constitutes the great and inspiring body of past students, and who are a help to all; and last, but not least, the Student Body, which is the raison d'etre of the Institute. He then gave a very brief outline of the student government, which is more complete here than in any other educational institution in the country. He explained some of the traditions of Technology, requested the students to make free use of the medical department, and closed with the words, "President Stratton is not coming to a perfect institution. There is room for improvement in all of its parts. However, let's stand behind him, and make his presidency the greatest of all the great presidencies that the Institute has had."

#### Contests Held in Gymnasium

H. J. Carlson '32, President of the Alumni Association, then made the formal presentation of the freedom of Walker Memorial, as symbolized by the presentation of the key to the building, to the freshman class. This is a time honored custom. R. P. Shaw '23, President of the Senior Class, received it in the name of the freshmen.

Following the presentation of the key, a Harold Lloyd Comedy, "I Do" was shown. This was very well received. Then the smoker closed with the singing of the Stein Song.

Activities Hold Booth in Trophy Room  
During the course of the eating, from 5:45 to 7:45 o'clock, a series of

athletic events was run off in the Gymnasium. No seats were provided but the crowd was packed around the ring five and six deep, while every available window sill and piece of gymnasium apparatus was occupied. The contestants were as follows: Boxing: Kuhn vs. Gross; Captain Moll vs. Phillips; and Sayre vs. Schultz. Wrestling: Pike vs. Thomas; Hazeltine vs. Weatherley; and Richards vs. Smith. Fencing: Webb vs. Ferreyro. During these events, Charlie Roche's Orchestra furnished music, playing between each round.

All through the smoker, the six big non-athletic activities ran a booth in the Trophy Room. The General Manager of each was present, ready to give information regarding their activity. The Radio Society also ran a booth from which they sent messages by radio for anyone desiring it. Their service was free of charge.

### TIREX (ALL RUBBER) PORTABLE CORD

A large proportion of portable tool troubles are cord failures. TIREX wears longer than other cords and keeps the tools in operation. It always comes back from one job ready for the next and stays in service, without repairs, more than four times as long as fibrous covered cords.
