

FIELD DAY MEN TO SIT IN BOX SEATS

The Show, Coming From New York, is Acclaimed a Good One

TICKET SALE THURSDAY

When all Technology foregather at the Shubert Theatre to see "The Rose of Stamboul," the heroes of the hour, the men on the Field Day teams, will be found viewing the show from the box seats. While in a specially re-

Marion Green and Tessa Kosta, Leads in "The Rose of Stamboul"

served section of seats in front of the orchestra, which the Tech Night Committee has arranged for their benefit, the Field Day Marshals will seek surcease from sorrow. And every remaining seat in the house is being reserved for occupancy by the rest of the students.

Four New Committee-men

The show is coming to Boston for the first time after quite a lengthy run in New York where the critics have spoken of it in favorable terms.

In view of the circumstances the Tech Night Committee expects a large attendance, and so, in order to handle the prospective heavy seat sale, it requested that the Institute Committee appoint four additional members.

There are now seven men in charge of the affair under the leadership of Chairman J. C. Nowell '23; G. F. Nesbitt, Jr. '23, E. S. Bates '24, and L. P. Marsh '24, the old members, and B. Oxnard '25, R. Harriman '25, E. D. Johnston '25, and J. E. Sutcliff '25, who are the recently appointed ones.

Seat Sale Begins Thursday

A color scheme in keeping with the occasion will be furnished by decorating the interior of the theatre with Technology pennants and banners in great number. Besides this, the committee has arranged for supplying the members of the audience with appropriately colored hats.

The ticket sales start on Thursday of this week. The first day of sale, tickets for the freshman section only will be disposed of. Sophomores may purchase their tickets on Friday, while the Juniors and Seniors may get theirs on Monday and Tuesday, respectively, of the following week. By adopting this method of sale it is hoped to avoid the rush and confusion attendant upon attempting to sell to all four sections at the same time.

SHOW WILL CONTINUE FROSH COMPETITIONS

The Tech Show announces that it will continue all of the competitions for freshmen, with the exception of that for the stage department. The tryouts for the Show Orchestra will be held Wednesday at 5 o'clock in the north hall of Walker Memorial.

OFFICIAL NOTICE

Identification photographs are required of ALL students and must be taken without delay. Purchase two tickets (15c each) from the cashier's office, room 10-180, and present these and your own face at room 8-201 any day between 2 and 5 o'clock, except Saturday or Sunday... This is all that is required.

M. E. SOCIETY TO TAKE FIRST OF TRIPS TODAY

Are to Inspect Commonwealth Refrigeration Plant of Boston

The first of the trips planned by the Mechanical Engineering Society in conjunction with the course of instruction, is to take place today and tomorrow, when members of the society, the number being limited to twenty each day, will inspect the Commonwealth Cold Storage plant in South Boston.

The men who signed up for this trip will meet on the Information Room side of the lobby promptly at 1:15. While not being limited to them, the trip was designed particularly for Seniors taking work in refrigeration.

Another trip has been planned for the members of the society to the Lynn plant of the General Electric Company. This trip will be taken on Monday, October 30 and will be of especial advantage to those men who are taking foundry at the Institute as they will have an opportunity to see castings being poured and to see one of the two new electric furnaces which have just been installed at the General Electric plant.

Notices will be posted announcing the trip, and all members wishing to go should sign up before Wednesday, October 25, as the General Electric Company must know at that date how many men to expect at their plant.

More Members Are Wanted

The society wants to announce that its membership drive has been very unsatisfactory. Up to a couple of days ago there were only about 250 men joining, and the society would like to get at least 350 to join. In order to accomplish this a man to man canvass will be conducted in the near future.

TELLS DEVELOPMENTS OF AERIAL MAPPING

Capt. A. W. Stevens, Parachute Record Holder, Describes Photography

SHOWS GLIDING PICTURES

Captain A. W. Stevens, of the United States Air Service, speaking to a large number of men in room 5-330 at 4 o'clock last Friday afternoon, told of the work that the Air Service was doing in the development and use of aerial photography and the service it was rendered in map-making. He described how areas inaccessible to ordinary methods of survey are correctly located and mapped in considerable detail by the advanced methods now in use by flyers.

Motion pictures were exhibited of the work of the Army planes in the bombing tests on the four German ships two summers ago off Hampton Roads, which showed graphically how helpless naval craft are under bombing operations by aircraft, and which demonstrated the remarkable accuracy with which aerial missiles can be projected at a floating target.

Show Parachute Jumps

The pictures of the bombing operations included views of the various types of aircraft being used in that kind of work, light bombing planes of the DeHaviland type, and giant Martin Bombers, capable of carrying one ton bombs, being the types used in the tests, and pictures of navy NC planes, the first type of plane to fly across the Atlantic. Most of the pictures shown were taken by a motion picture operator in the C-2, the army dirigible which was destroyed last week, which hovered near the bombed ships.

Another reel gave a description of the various methods of parachute jumping, explaining with actual photographs of jumps, the difference between a "lift off," in which the parachute in opening pulls the aviator clear of the plane, and a regular "jump," the type used in such an emergency as a burning plane, in which the chute is opened only when the aviator is well clear of the plane. This is the method that Captain Stevens says he used in making his record drop of over five miles last March.

View Movies of Glider Meet

Movies of some of the flights in the early German glider flights were shown, and Professor E. P. Warner '17, who attended the glider contests (Continued on Page 4)

TECHNOLOGY RUNNERS UPSET CORNELL TITLE HOLDERS IN THRILLING RACE AT ITHACA

FROSH FIELD DAY BAND REQUIRES MORE PIECES

Although calls have been repeatedly issued for freshman band, very few men have turned out. G. H. Cowan '24, who is organizing the band, states that less than half the necessary men have answered the call. He says that the band is one of the most important factors in helping the freshman teams to Field Day victory, and that all men who can play any kind of band instrument ought to show some spirit and come out for the band.

All candidates are requested to report at room 2-390 at 5 o'clock on Tuesday and at 4 o'clock on Thursday.

T. C. A. CAMPAIGNERS MEET TO FORM PLANS

Six Units Formed of Men Who Are to Take Part in Financial Drive

Meetings for the various units of the Technology Christian Association Financial Campaign which have been arranged to canvass the student body in the coming drive will be held today, tomorrow and Wednesday in the Association office at 5 o'clock. The one today is for the Fraternity Unit, the one tomorrow for the Silver Bay, Free Lance and Freshman Section Leader Units, and that on Wednesday for the Cabinet. These units have been formed to facilitate the work of carrying on the campaign and cover fields which necessarily overlap, insuring a complete canvass.

The method to be used in covering the Dormitories is unusual, being arranged in a form of competition. A certain number of men have been assigned to cover each dormitory and the results of each day's canvass will be posted that night under the following heads: total men in dormitory, number of subscriptions, percentage of men subscribing, total subscription, and the average subscription per man. The winning dormitory will be selected by reference to the third and fifth heads listed above.

Atkinson will be covered by F. R. Hassler '23, and E. J. Thimme '22; Holman by R. E. Johnson '24, and E. W. Brugmann '24; Nichols by H. W. Dexter '23, and R. H. Fraser '23, chairman of the Dormitory Unit; Runkle by W. H. Correale '24, H. L. Hazen '24, J. E. Jagger '24, and H. J. MacMillan '24, vice chairman of the Unit.

CORPORATION XV HOLDS FIRST SMOKER TUESDAY

Mr. E. C. Johnson to Be Speaker of Evening in Walker Memorial

Corporation XV will hold its first Smoker of the season tomorrow evening in Walker Memorial. The main hall has been decided upon as being the best place in which to hold the meeting which will start at 8 o'clock. The committee invites all members of Corporation XV to attend. The main speaker of the evening will be Mr. E. C. Johnson, who is president of the Boston Executive's Club, and of the H. A. Johnson Co. He is also a member of the Advisory Committee of Boston University, and it was largely through his efforts that the Boston Sales Manager's Club was formed.

This meeting will give all new members an opportunity to become acquainted with the type of meetings which the society is planning to hold throughout the year. The officers are making up the year's program, with the purpose in mind of securing men who are prominent in the business world to address the meetings.

Hendrie Leads First Ithacan by 44 Seconds

The order at the finish of the Technology-Cornell cross country race at Ithaca, Saturday, was—

1—Hendrie,	T	20:47 1-5
2—Sanborn,	T	21:14 1-5
3—Morrison,	C	21:31
4—Smith,	C	21:35
5—Bemis,	T	21:42
6—Glick,	C	21:45
7—Keplinger,	T	21:45 1-5
8—Bonsal,	C	21:54 2-5
9—Williams,	C	21:57
10—Poor,	T	21:59 2-5
11—Parkinson,	T	22:00
12—Bullen,	C	22:03
13—Burnham,	C	22:05
14—Vandervort,	C	22:10
15—Holt,	T	22:15
16—Emerson,	C	22:15 1-5
17—Robertson,	T	22:15 3-5
18—Rauch,	C	22:43
19—Bernart,	C	22:43 1-5
20—Marchand,	C	22:47 2-5
21—Gardiner,	T	22:59
22—Roche,	T	23:26

INFORMAL SNAP-SHOTS WANTED BY TECHNIQUE

Photographs of Professors and Students Desired By Year Book

Technique is now issuing its annual call for pictures of the Faculty and of the students for the Informal Section of the book. These pictures will consist as usual of all sorts of snapshots of men in novel costumes, of Dorm and activity groups and the like. The summer camps, both the Civil Engineering and the R. O. T. C., will be included in this list. Informal pictures of the professors, in unaccustomed garb or employment, will form a portion of this section also.

Pictures Sent to Photo Editor

All data connected with the pictures should be turned in at the same time, but care should be taken that no data is printed on the front of the photograph, in particular on glossy prints. On the back, the owner's name and address, with the title of the picture, should be printed in a legible manner; but if the group consists of more than three, a group name or nickname should be given instead of the separate individual names. As far as possible only one type of subject should appear in each picture.

Sophomore Competition Open

Pictures should be brought or sent to the Technique office, Walker Memorial, marked "For the Photographic Editor." If a request is made at the time of sending, the photographs will be returned after the publication of Technique.

The photographic competition, leading to positions on the Junior Board of Technique, is still open. From the members of the Junior Board, the recommendations will be laid before the electoral committee for election of the 1925 Photographic Editor. This is open for Sophomores, while experience and a knowledge of the work can be given all freshmen desiring to try out for the 1926 volume.

MORE T. C. A. PUBLICITY CANDIDATES WANTED

The Technology Christian Association publicity department calls for at least four or five more candidates. The position of assistant director is open now for any new man who comes out and works earnestly.

The candidates must show ability in cartoon making and general poster work. Appointments to the office of assistant director will be made within a week instead of waiting till the end of the term as in the past. As the Technology Christian Association drive begins next week competitions will start at once.

Candidates may report at room 25, Walker Memorial, on any Tuesday from 2 to 3 o'clock or Friday 12 to 1 o'clock or may leave appointments with the secretary of the front office.

CAPTAIN HENDRIE LEADS ENGINEERS TO 51-55 VICTORY

Coach Kanaly's Team Shows Great Power Downing Moakley's Champs

FIRST TWO PLACES GO TO CARDINAL AND GRAY

New Course Prevents Comparison of Times with Red Records

Technology's cross country team defeated the Cornell University runners at Ithaca, by a score of 51 to 55, in a four mile race Saturday afternoon. Only once before has a visiting team beaten the Red barriers over their own course in a dual meet. Captain Robert E. Hendrie, of the Institute, won first place and he crossed the line almost 44 seconds ahead of the first of Coach Moakley's entrants.

The captain and Elmer Sanborn, leader of the Cardinal and Gray last fall, set out together and rapidly opened the distance between themselves and the other contestants. At the half mile mark Bob and Elmer were running even with a big gap between them and the nearest Cornell speedster, Morrison. It was not until the final stages of the battle that Hendrie stepped out in front of Sanborn and the way that he was going then made him far and away the most outstanding runner in the chase. He flashed into the stadium with four miles behind him, covered in 20 minutes 47 1-5 seconds.

Elmer Sanborn Not Pushed for Second

Though he couldn't hang to the flying Bob, Sanborn was not even pushed by the Red hill and dalers, crossing the line 27 seconds after his captain. Morrison, who had held his position in the van of the Cornell contingent, entered the stadium just as Elmer counted as second and was clocked for 21 minutes and 31 seconds. Smith had been gaining on Morrison and was four seconds behind him at the end of the trail, scoring four for the Ithacans. Bemis ran a very pretty race, showing considerable improvement over the good showing that he made last year as a freshman, and though Smith led him by eight seconds, won the battle with Glick for fifth place. Frank had two seconds on the University athlete. Bill Keplinger came within an ace, which in this case means two-fifths of a second, of forcing Glick down to sixth position. Bill put up a mighty plucky fight right to the finish.

The scorers and timers had a nine second rest after this rush, the next runner to finish his trick being Bonsal, who came through in 21 minutes 54 2-5 seconds. Ithacan dopsters had been counting heavily on Bonsal, who took the trip to England with the team two years ago, but he found the pace too swift. Captain Kirby was unable to run for Cornell and it was (Continued on Page 4)

CALENDAR

- Monday, October 23
 - 7:30—Choral Society rehearsal, room 5-330.
- Tuesday, October 24
 - 6:00—Walker Club meeting, north hall, Walker.
