

# Technology Crews Work into Shape for Fall Races

By H. S. Davis, Sports Staff Photographer

Above—Coach Dellenbaugh of the freshman crews. Lower Left—Captain Dick Eaton of the 1924 oarsmen. Lower Right—Captain Dave Campbell, leader of the Sophomores.

Dave Campbell, captain, and Al Prentiss, stroke, of the first Soph crew, have been missing for several days due to physical disabilities, but both returned yesterday, bringing the crew back up to snuff again.

The 1925 Field Day crew is getting a mighty snappy manager in the recently elected Maxey Jarman.

The crew management is planning a clash between the two upper classes on the Charles next Wednesday. Both crews are getting mighty stiff workouts every day as a result.

The frosh first crew has been the favorite for the Field Day spin but the return of two of the Sophs' strong men may change opinions up boat-house way.

Spirit is not what the frosh crews lack, according to tales of a recent scrap one of them staged in mid-stream. Not satisfied with that they tried to bust up the boat on each other at the end of the eventful cruise.

The members of the Junior crew that went out the other evening into the furious gale on the Charles say that something has got to be done to protect the shells from the large cakes of ice which were seen cruising around. The boat was nearly smashed when several men slipped on the ice while taking it out.

The seatings of four of the crews now rowing are:

Senior—Evans, 1; Valentine, 2; Smith, 3; Brill, 4; Schult, 5; MacKinnon, 6; Sayre, 7; Lewis, 8.

Junior—Jagger, 1; Keaye, 2; Davis, 3; Prouty, 4; Eaton, 5; Taylor, 6; Murdoch, 7; Rousseau, 8; Reid, coxswain.

First Sophomore—Kullman, 1; Blair, 2; Buttler, 3; Seis, 4; Goble, 5; Harriman, 6; Campbell, 7; Prentiss, 8; Hooks, coxswain.

Second Sophomore—Fielding, 1; Bainbridge, 2; Mason, 3; Quinn, Cameron, 4; Lawria, 5; Hayward, 6; Halliburton, 7; Dunbar, 8; Watts, coxswain.

## Cross Country Schedule

- Oct. 27—Harvard-Dartmouth-Technology triangular run at Belmont.
- Nov. 4—Princeton at Princeton.
- Nov. 11—Fall Handicap Run at Franklin Park.
- Nov. 18—N. E. I. C. A. A. cross country championship at Franklin Park.
- Nov. 27—I. C. A. A. A. cross country championship at Van Courtlandt Park, N. Y.

(Continued from Page 1)

may be made there. Tickets for the benefit dance given for the Christian Association by the Musical Clubs and the Walker Committee have been sent to the Dartmouth Christian Association so that men here for the game may attend the dance also.

The Book Exchange is sending out cards this week to all men who have money waiting for them at the office as the result of the sale of their books. This money may be had upon application at the office, room 7, Walker. The total amount is about \$950, belonging to 250 men, an average of \$3.80 per man.

### DR. STRATTON INTENDS NO GREAT CHANGES

(Continued from Page 1)

to extend only to men, however, for he is unmarried.

The Technology students will not find the traditionally dreamy professor in Dr. Stratton, even if he is a student, for he is clearly a man of action.

The list of his professional clubs and committees reads like a history. He was a member of the Interdepartmental Board of the Council of Defence, the National Advisory Committee for Aeronautics, the United States representative on the International Committee of Weights and Measures, a member of the Interdepartmental Board of Ice Observation and Patrol, the American section of the Standardization Committee, the International Chamber of Commerce. His interest in Mechanics and Physics made him a valued member of the National Academy of Sciences, the National Research Council, the American Philosophical Society, the American Association for the Advancement of Sciences, the Washington Academy of Science, the American Institute of Electrical Engineers, the American Society of Mechanical Engineers, and the American Society for Testing Materials. He was made a chevalier of the Legion of Honor in 1909. He received the Elliot Cresson medal from the Franklin Institute, the Welfare medal of the National Academy of Sciences. He received honorary degrees from Cambridge in England in 1909, Yale in 1909, Doctor of Engineering and Doctor of Science from the University of Pittsburg in 1903.

About two months ago Dr. Stratton visited the Institute, not knowing at the time that he would soon become the leader here. He is already in quest of information regarding his new home. He recently asked if it was hard to get automobiles started here in winter.

### MATH CLUB ADOPTS NEW DESIGN FOR INSIGNIA

### Hears Dr. Franklin on "Curious Map Problems"

At the last meeting of the Math Club, on October 19, a design for an insignia of the club was suggested by Isaac Brimberg '24, and adopted. It had previously been felt that the club needed some such design, which could be used especially to decorate posters of the club. It consists essentially of two regular hexagons, the sides of one connecting midpoints of the sides of the other, and the name "M. I. T. Math Club" artistically arranged within. The letters and border are to be of cardinal and on a gray background.

It was likewise decided to have mathematical puzzles (not problems) brought to meetings, for discussion, and prizes awarded for the most ingenious.

At the same meeting Dr. Franklin of Harvard gave an interesting discussion of "That Curious Map Problems." He showed how it was possible to attack the problem from a mathematical point of view, but said that up to the present time no one has completely solved it.

### CHINESE CLUB WILL HOLD MEETING FRIDAY

#### Elect New Representatives for Students Alliance

The Chinese Club will hold a business meeting in room 10-267 on next Friday evening. The club, which now numbers 57 men, will choose representatives for the Chinese Student's Alliance of the United States, which

has its headquarters in New York. The Student's Alliance is making an attempt to enroll in its subsidiary organizations at least half of the 900 Chinese students in the eastern colleges. At this meeting members will also be encouraged to join the Cosmopolitan Club. A social with Chinese students at Harvard is being planned for this Christmas.

Members of the Chinese Student Information Bureau will be chosen at the meeting Friday. This committee furnishes local churches with speakers who endeavor to create here an understanding of China and her problems.

### E. C. JOHNSON SPEAKS BEFORE CORPORATION XV

Corporation XV held its first smoker last night at 8 o'clock in the main hall of Walker Memorial. Mr. E. C. Johnson gave an informal talk which pointed out the principles necessary for success in the business world. His talk was very interesting as well as practical for it contained hints which could be applied to many cases. One of his most important points was that the ablest executives are those who realize their own shortcomings and surrounds himself by those who are able to make up those deficiencies. Dr. Dewey opened the meeting and introduced the speaker.

### C. R. GOW SPEAKER AT M. E. SOCIETY SMOKER

#### Non-Members Invited to First Gathering of Year

At its first smoker of the season, Wednesday, November 1, at 8 o'clock in the main hall, Walker, the Mechanical Engineering Society plans to have an interesting program. The chief speaker for the evening will be Mr. C. R. Gow, President of the Associated Industries of Massachusetts.

The subject of Mr. Gow's talk has not as yet been announced, but it is thought by the management that it will concern his work with the Association.

Smokes and refreshments will be served and all interested, whether members or not, are invited to attend.

### "BOLD FACTS" AT MAJESTIC

"Bold Facts and Trim Figures" was the title under which a bevy of pretty girls in pleasing costumes, aided by several comedians, danced through 11 scenes of musical revue at the Majestic Theatre.

The revue included sketches varying between the dress of the Spanish grandee, and the undress of the tropical isle.

### "HEDDA GABLER" AT FINE ARTS THEATRE

Monday night, at the Fine Arts Theatre, "Hedda Gabler," Henrik Ibsen's most famous drama, was met most enthusiastically by an audience eager for the higher type of play.

Ibsen renowned for simplicity and realism, has instilled real life into the play. Indeed, he depicts human beings, human emotions and human destinies, upon a groundwork of certain of the social conditions and principles of the present day.

## No Lectures No Written Work

At Babson Institute they make a business of teaching business to college trained men who wish to fill positions of responsibility and and trust without spending years at routine work.

Standard office equipment throughout. No classes or lectures, but a business schedule of work from 8:30 to 5:00 o'clock, including daily conferences directed by men with years of business experience, and discussions with active factory and office executives at their plants. This removes the instruction from the hypothetical stage and helps the student to look at things in the same light as a man actually engaged in business.

Babson Institute, an educational institution endowed for the purpose of fitting men for executive responsibilities, invites you to send for the booklet, "Training for Business Leadership." Write today.

### PRACTICAL ROWING

AND  
Effects of Training

by A. W. STEVENS (Head Coach of Tech Crews) and E. A. DARLING, M. D.  
E. G. BLACKMORE, Collaborator with R. C. Lehmann and Clerk of the Parliament, Australia, for many years Chairman and Coach of the South Australian Rowing Association, writes from Melbourne:  
"I have enjoyed the book so much that my only regret is that there is not more of it. I feel that it has done a real service to Rowing by its excellent advice and the cautions it has prescribed."

A very useful contribution to the Art of Rowing. Many sound views and practical hints as to Rowing and Coaching.—The Field, London.

A timely little book. The minutest steps or precautions useful to a beginner are all carefully outlined.—Boston Herald.
