Columbia, S. C.

TIME EXTENDED ON T. C. A. TEA DANCE

Extension to Enable People to Attend Both Game and Dance

RUNS UNTIL 7 O'CLOCK

At the request of several, the Technology Christian Association Benefit Dance is to run from 3 to 7 o'clock instead of from 3 to 6 o'clock as was previously announced. K. C. Kingsley '23, of the Walker Memorial Committee, and C. A. Brantingham '23, of the Combined Musical Clubs, have granted this time extension in order that those who wish to see the Harvard-Dartmouth football game and go to the dance may do so.

For the benefit of those who are at the dance during the progress of the game it has been arranged to receive and announce the results while the dancers sway to the music of the Musical Clubs' 13 piece Jazz band.

Mrs. R. P. Bigelow, Mrs. H. S. Ford, Mrs. R. G. Hudson, Mrs. E. F. Langley, Mrs. H. G. Pearson, Mrs. J. W. Rollins, and Mrs. H. P. Talbot are the patronesses for the dance.

The tickets are \$1.50 and are obtainable at the Co-operative Store, Walker dining room, Walker cigar stand, T. C. A. office, from members of the Walker Memorial Committee, T. C. A. Cabinet, and the managers of the Musical Clubs.

GEN. EDWARDS DINES WITH FEDERAL STUDENTS

Warns Veterans of Dangers of Pacifism—Entreats Its Opposition

General Clarence R. Edwards, commander of the First Corps Area, and former commander of the Yankee Division overseas, was the guest of honor at the dinner of the Federal Students Club last Wednesday night. The dinner occurred in the Faculty dining hall, Walker Memorial.

He spoke of the menace of the pacifist movement in this country and urged all ex-service men to do their utmost to combat it. He said that not one of the American soldiers would have lost his life in the recent war if the United States had been prepared. For, if we had been ready, Germany would not have dared to antagonize us as she did. He gave Switzerland as an example of the value of preparedness, stating that if either the Allies or Germany had dared to go through Switzerland, the war would have been over in a very short time.

Other speakers of the evening were: Dean H. P. Talbot, Colonel E. F. Miller, Major E. W. Putney, Professor J. A. Howard, and Mrs. H. S. Richardson and Mr. F. T. A. McLeod of the United States Veterans' Bureau. A three piece orchestra further added to the enjoyment of the evening, and the members of the club joined in singing the songs that were popular in the billets of France four years ago.

SMOKERS AND MOVIES FOR CORPORATION XV

Schedule Series of Moving Pictures Each Week

Beginning a week from today, a series of motion pictures will be shown by Corporation XV. The committee expects to have one of the series shown each week during the remainder of the term. Each will show the work of some large industrial concern as it is today.

The next Corporation smoker is scheduled to be held on November 7. There were about fifty members at the first smoker held last Tuesday and much discussion took place after Mr. Johnson had finished speaking. Mr. Johnson emphasized the importance of having several prominent men to be able to consult for advice on important matters.

CHEMICAL SOCIETY HAS SMOKER TONIGHT

State Director of Food and Drugs to Speak

Tonight in the main hall of Walker the Chemical Engineering Society will hear Mr. H. C. Lythgoe of the state chemical department at a smoker. The affair is scheduled to start promptly at 7:45 o'clock.

Mr. Lythgoe is the director of the Food and Drugs division of the Massachusetts State Chemical Department and has not yet announced the subject of his talk. Following the smoker a short meeting will be held to elect a new president in place of J. J. McFarlin '23, who has not returned to the Institute this fall.

T. E. N. HAS ELECTED NEW PUBLICITY MANAGER

T. B. Drew '23 Chosen to Fill Vacancy at Last Board Meeting

At the last managing board meeting of the Tech Engineering News, T. B. Drew '23, was elected to the position of Publicity Manager. At the same meeting R. A. Ford '24, was chosen to fill the position of news and statistics editor which the promotion of T. B. Drew made vacant.

Drew has been connected with the magazine since its inception, and it is he who has been the prime mover in the special publicity stunts. The perpetual motion machine affair which attracted such wide attention was his latest creative effort.

He becomes the head of a department in which personnel has been depleted through graduations and other causes leaving him the opportunity of building up his own staff. There are eight vacancies in this department and the manager would like to have fifteen or sixteen men enter into the competitions.

General Manager F. G. Harmon '23, says that the next issue will appear the latter part of the coming week and that it will contain a number of articles of interest to the undergraduate students.

SECOND MEETING HFID BY FRESHMAN LEADERS

Section Representatives Will Cooperate with T. C. A. in Fund Drive

Representatives of the freshman class held their second official meeting Wednesday, in room 10-275. The fact that Field Day is fast approaching seemed to produce increased interest on the part of the first year men in regard to class affairs. Most of the time of the meeting was taken up in the discussion of the plans necessary to follow in order to complete a canvass of the freshman class for the Technology Christian Association drive for funds which is being carried on this week.

Every section leader will make a personal canvass of his section, and it is expected that there will be intense rivalry between the sections as a poster will be placed in the lobby with the respective sections and their amounts up to date. A representative of the T. C. A. spoke and emphasized the fact that the Christian Association must continue to give the services it has been giving, and it is especially necessary that the incoming men realize what a factor their support will mean in this drive.

The following is a list of the section leaders that have been elected (by sections): 2, Carlton Colt; 5, Kenneth Lord; 6, K. S. Shepard; 7, G. W. Smith; 8, W. H. Schueg; 9, G. W. Smiley; 10, K. H. Hemmenway; 11, C. N. Dingley; 12, A. W. Meloan; 13, James F. Carey; 15, E. M. Manning; 16, G. D. Cummings; 17, Morris D. Davidson; 18, B. V. Howe; 19, Kenneth Hill; 20, C. H. Barry; 21, K. French; 22, G. C. Gillett; 23, R. W. Head; 24, F. L. Ray, and Course IV, C. G. Rawson.

FREE LOWELL LECTURE ON ASTRONOMY TONIGHT

Every Tuesday and Friday until November 17, there will be free lectures on astronomy at Huntington Hall, 491 Boylston street, at 8 o'clock. Doors will be opened at 7:30 o'clock, but will be closed at 8 o'clock and throughout the lecture.

Tickets may be secured free of charge by applying by mail to the Curator of the Lowell Institute, 491 Boylston street, Boston. Enclose one stamped addressed envelope for each ticket.

Professor Harlow Shapley of Harvard will speak each night.

FIRST SUPPER MEETING HELD BY CATHOLIC CLUB

Club Chaplain and Last Year's President Speak

Supper was served to about 100 men at the Catholic Club meeting last Wednesday evening. G. A. Rowan '23, President of the club, acted as toastmaster and introduced as speakers: Rev. Father O'Connor, chaplain of the club; J. E. Sullivan '22; and Mr. MacMurray, of the Corps of Engineers, City of Boston, who spoke on the St. Vincent de Paul Society. Mr. Sullivan delivered a report on the Conference of New England Province of Catholic Clubs held this summer at Cliff Haven, N. Y.

Entertainment was provided by E. D. Lucy '24, and E. D. Murphy '25, aided by professional entertainers. Plans were discussed for a dance to be held on Nov. 17th, and also for the Federation dance to be held Nov. 25 at Whitney Hall, Brookline.

"For the chemist it is of the very first importance to be able to discriminate between slight variations of hue or shade, to recognize minute differences in the macroscopic and microscopic structure of precipitates, to recognize trifling changes in bodies, and to recall them; he should have a delicate sense of touch and of smell"—Dr. R. E. Rose.

The present American Chemical Industry is the result of the labors of chemists trained along these lines.

Its future development rests with those who develop within themselves these same qualities.
