

**The First Ten Scorers**

- 1—R. E. Hendrie, Tech 'ogy 28:47 2-5
- 2—C. A. McKeeman, Maine 29:15 1-5
- 3—F. F. McGinley, Bates 29:15 2-5
- 4—F. H. Plaisted, Bowdoin 29:19 1-5
- 5—John Doherty, Tufts 29:23 2-5
- 6—H. W. Raymond, Maine 29:24 1-5
- 7—A. S. Hillman, Maine 29:24 2-5
- 8—E. Fasce, Williams 29:27 4-5
- 9—C. E. Ward, Bates 29:35 1-5
- 10—Joseph Doherty, Tufts 29:35 3-5

**THE TECH Encores Moral Conquest of Last Year**

Before an audience varying from 20 to 200 Technique and THE TECH staged their annual battle for football supremacy on the athletic field, and the result was another moral victory, for THE TECH. The actual score was Technique 19, THE TECH 0. The game was replete with fumbles, and in the number of men injured and knocked out almost resembled a real football game.

Runs of 30 or 40 yards were not uncommon, and affectionate arm-around-the-neck tackling of W. N. Webster '23, were features which never failed to bring applause. On both teams the lines were noticeably weak, and without exception the punts and forward passes had to be hurried or they were blocked by the charging foemen.

In the first half Technique scored two touchdowns and kicked goal once. The second half was played almost in darkness and netted Technique a third score. THE TECH Oliver-wreckers were unable to see the ball, and their opponents sniped by the goal line.

**Captain Bob Hendrie and a Game Team Mate**

The Institute cross country leader (left) had little trouble taking first place in the New England's run Saturday morning. Elmer Sanborn (right) ran the gamut race of a career that is noted for that quality, and kept fighting to the finish line in spite of a sickness that would have stopped most men in a minute.

**Coach Blacklock and Dr. A. W. Rowe Deliver First Hockey Instructions**

**50 Candidates to Be Given Track Work Before Going on Ice**

"Hockey is the only sport in which Technology teams are entirely dependent on outside accommodations, and the spirit in which Technology men are welcomed at the Boston Arena makes our relations there very pleasant, due particularly to Manager George Brown." Thus Dr. Allan W. Rowe '01, of the Advisory Council, characterized the cooperation which Institute players are to receive from the Arena officials this year, during his talk at the opening meeting of the hockey season Friday afternoon.

Prospects Are Good for a Fast Team  
Hockey prospects are good at the Institute this year, and with the return of several of last year's veterans, as well as the advent of a new coach, a good season is expected. A winning combination is easily possible this year, although as Dr. Rowe said, "The primary object of the game is the game itself, played hard and clean in an effort to win, and whether the team wins or not, the same spirit must always characterize Institute teams."

Manager B. J. Fletcher '24, opened the meeting, and welcomed about 50 candidates for the freshman and Varsity teams. He introduced to the men the newly chosen coach of Institute hockey, Mr. A. L. Blacklock, a graduate of Queen's University of Kingston. Mr. Blacklock spoke most sincerely to the men present, urging on them the necessity of much stricter training than has been observed previously, and stressed particularly the impossibility of playing 60 minutes of fast hockey without being in excellent physical condition. In accordance with his instructions, candidates for both teams are to get out on the track regularly in order to be in condition before the opening of the Arena about December 1. He also brought out the point that however many reasons there may be for a defeat, there is never an excuse for a defeat, and said that his every effort was to be directed toward turning out a winning team this winter. Mr. Blacklock has great confidence in the spirit and ability which he expects to find here, and is looking for the wholehearted support of the men. He is not coming here with the expectation of finding a team of stars; he is of the opinion that exceptional players are made by hard work, not by natural ability, and he fully realizes the difficulties in the path of strict training at the Institute.

**Veterans Attend Meeting**

Captain Herb Hayden backed up all that Mr. Blacklock and Dr. Rowe had said regarding training and practice, and asked for the support of all the men who are interested in the team. Among the veterans who attended the meeting were Jerry Dalton, who held down the pivot point all last winter, Denton Massey, who played two years ago, and Johnson and Blandy of last year's team. Dave Peene, captain of the 1925 frosh, was also on hand, and is expected to be a valuable man this year.

Dr. Rowe outlined the plan of the Advisory Council in the matter of maintaining a rink on the river in front of the boathouse, and the plan is expected to be a great boon to the teams, which heretofore have suffered considerably from lack of space and facilities. He also spoke of the interest the Council is taking in hockey

this year, and predicted the establishment of class teams in addition to the usual Varsity and freshman combinations, which, if carried out, will undoubtedly be a big help to Varsity teams in the future.

Among those who handed in cards at the meeting were the following: Varsity candidates, Jerry Dalton, Herb Hayden, E. E. Johnson, W. H. Blandy, Denton Massey, D. D. Peene, G. M. Balcom, E. L. Sweet, P. H. Scott, G. B. MacPherson, A. R. Miller, G. H. Fuller, P. C. Niles, J. B. Glancy, S. J. Griffin, E. A. Taylor, P. M. Hulme, J. A. Chickering, F. A. Barrett, J. D. Fitch, Henry Rau, P. M. Putnam, Homer Duggan, and W. S. Burnell.

Freshman candidates: J. E. Deignan, H. E. Waterman, R. W. Moir, C. S. Rickerson, S. S. Randall, J. L. Locke, L. C. Hopton, R. A. Freeman, J. J. Driscoll, M. C. Dow, J. J. Davis, H. A. Cotter, G. F. Brousseau, W. Ashbridge, P. C. Springer, and A. B. Wiesmer.

**SPRINGFIELD SHUTS TECHNOLOGY SOCCER ELEVEN OUT, 3 TO 0**

**Captain Macorra's Engineers Defeated in Final Game of Season**

After having scored one goal during the confusion following a conflict between umpire and linesman's rulings, the Springfield soccer team added two more points, while holding Technology scoreless in a clean, hard played battle at Springfield Saturday afternoon. The game was watched by a crowd of between three and four hundred, including many co-eds, and was the fairest contest and the best soccer, in which the Engineers have taken part this fall. It closed the Institute season.

Early in the first half, the ball was thought to have rolled outside the playing field, and after the linesman's shout the Cardinal and Gray players waited for the referee's whistle while Springfield scored a goal. Shortly afterward the opposing forwards brought the ball downfield in a very clever attack, with Grassey doing most of the work, and made their total two.

**Second Half Close**

Captain Macorra's team started the second half with a rush, though they failed to score. During this part of the contest the players seemed more evenly matched than at any other, the ball rarely getting far from midfield. Later in the half Arthur Sun, of the Technology eleven, accidentally kicked the sphere through his own posts for the third Springfield count.

Grassey was the main spring of the opposing combination, as he has been in every one of their contests this year, while Atahualpa played very well for the Institute. Roig received an injured knee, Kurzman hurt his ankle, and Deuvel, goal tend, got a very painful kick to the solar plexus. Captain Macorra stayed in for the whole contest in spite of his convalescing rib.

**Expect Good 1926 Five**

When the freshmen first turned out for basketball it seemed that material for a good team might be hard to find, but during the last week several additions to the squad have been made which considerably brighten '26 prospects. There are not many expert candidates for center.

**THE Christmas Bookstall Numbers OF THE Boston Evening Transcript**

containing a list and summary of the Books of 1922 will be published as follows  
 Nov. 22—Fiction  
 Nov. 29—History and Biography  
 Dec. 6—Poetry, Miscellaneous  
 The juvenile number was issued Nov. 15.

- These books are on sale in the Cafeteria from 12-2:00 o'clock, and the office of the Dining Service throughout the day?
- Breakfast is served from 8-11:00 o'clock? Luncheon is served from 11-2:30 o'clock? Dinner is served from 5-7:00 o'clock?
- ALSO, the Grill Room which is open to all TECH men serves Luncheon from 12-2:00 o'clock? Dinner from 5-7:00 o'clock?
- Cafeteria SPECIALS are obtainable in the Grill Room?

Cover charge of five cents to cover service.

**We Courteously Solicit the Patronage of All Tech Students**

A. W. BRIDGES, Manager.

"For the chemist it is of the very first importance to be able to discriminate between slight variations of hue or shade, to recognize minute differences in the macroscopic and microscopic structure of precipitates, to recognize trifling changes in bodies, and to recall them; he should have a delicate sense of touch and of smell"—Dr. R. E. Rose.

The present American Chemical Industry is the result of the labors of chemists trained along these lines.

Its future development rests with those who develop within themselves these same qualities.
