B. U. HOCKEY GAME ON FRIDAY OPENS WINTER ATHLETIC PROGRAM

Wrestling Eliminations wordpress
Coach Orinelle Bums expects to stage several of the first elimination bouts of the wrestling team this afternoon. There are a few men who are not eligible for the second round, and the coach will be able to work before the Christmas vacation with at least a few of the men of the material he has on hand.

All the names of the men who are not present at the meet are on the deputy catalogue, and this number of the catalogue is on the 115 pound class.

BASKETBALL RULE CHANGES AS SEEN FROM SIDELINES

There has been a great deal of confusion about the announcement of this year's drum on the campus due to the fact that the announcement of this year's drum was held in the freshman dormitory rather than in the auditorium.

Basketball rule changes have been made to reduce the number of penalties which are given out.

Helpful Criticism

One of the things most likely to prevent a crew, or any other combination, from reaching the status of a team is its failure to work within its own organization. If ever one desiring to keep was to be made, it is first and foremost that all his mates are doing their share, both physically and mentally. To work in unison, to get along together in a friendly way and to cultivate a spirit of good fellowship are the most important things the member of a team can do.

When Pat Manning was handling the Technology soccer team there was a lot of complaint about the lack of discipline and about his ability to lead. Pat isn't this and Pat isn't that, but that is the usual in these matters.

No Disappointments

Last winter's hockey team was one of the finest teams that were ever on the Technology hockey field. The season was a fair proportion of its games but it was a fair proportion of the games. It was a very good season and it was considered that all the men were doing their share. The team was working in all directions and it was considered that they were working in unison.

Mr. Horace S. Ford, bursar, while announcing that Mr. Ford didn't exaggerate a bit when he said that the Engineers were going to shinny up a few more notches toward the top, all this is due to the generosity of the Cor.

Technology sport history. The sextet which as we remember consisted of

skiing had not entirely worn off. The fact that effects of the Thanksgiv-

ing dinner had not entirely worn off.

The majority of the hockey team members are in need of preliminary training for the last four days. However, hockey is an innovation at Boston University this year and the coach particularly fits him for the
