GIVE SERVICES AS INDUSTRIAL WORKERS

Many Technology Men will Aid Foreigners and Americans

VOLUNTEERS WILL DINE

Immediately following several class talks on college social work by Mr. F. H. Rindge, Jr., secretary of the Industrial Service Movement, 63 men, representing Technology, signed up for that work which is intended for the betterment of social conditions. The addresses, which took place on December 11, were arranged by the Technology Christian Association.

Mr. Rindge, who is a graduate of Columbia, and who has recently returned from Europe where he has made intensive studies of the social conditions in that continent, has succeeded in enlisting the interests of many fraternity men also.

Work Benefits Students

This sort of work, Mr. Rindge pointed out, will place the men among the lower classes for their mutual advantage. It will give them experience as leaders, which will prove very valuable when they become practicing engineers. It will place them among the factory workers, the foreigners, and will even bring them in contact with men of business. The work includes industrial lectures by labor leaders and group discussions of industrial problems.

Observation trips are to be taken (Continued on Page 4)

7 CONCERTS SCHEDULED FOR MUSICAL CLUBS WINTER TRIP

ATLANTIC CITY IS CLUBS' FIRST STOP

Radio Broadcasts Made From Schenectady and Buffalo

41 MEN WILL MAKE TRIP

On the evening of December 26 at six o'clock, those members of the Combined Musical Clubs who are to make the annual winter trip will meet at the Chalfonte Haddon Hall Hotel, where the first concert of the 1922-23 trip will be staged. The schedule includes concerts at Atlantic City, Philadelphia, Schenectady, Buffalo, Utica, and, very likely, Pittsfield and Holyoke.

The concert at the Chalfonte Haddon, which is the opening concert of the trip, will start at 8 o'clock, and will be given under the management of the Crescendo Club of Atlantic City. This club is a musical organization which is working earnestly to bring to Atlantic City musical talent from other parts of the country. At the end of the concert program the Musical Clubs' Jazz Band will provide music for those persons in the audience who may desire to dance.

Philadelphia the Next Stop

Throughout their stay in Atlantic City the Musical Clubs will be the guests of the Chalfonte Haddon Hotel. The Musical Clubs feel greatly obliged to the management of the hotel, and desire to thank that management for the hearty co-operation and interest which it has shown. The Clubs will proceed the next morning in a special car to Philadelphia, where the second concert of the trip will be given.

The concert in Philadelphia, which is to be given under the auspices of the Philadelphia Technology Club, will take place on Wednesday evening, Dec. 27, at the New Century Club

WALKER DINING ROOMS OPEN FOR SCIENTISTS

For the convenience of the scientists and others attending the convention of the American Association for the Advancement of Science here next week, A. W. Bridges, manager of the Walker Memorial Dining Rooms, has determined to keep the grill room and the cafeteria open throughout the week.

The main cafeteria will be open for lunch from 10.30 to 2.30 o'clock and for supper from 5.00 to 7.00 o'clock. The grill room will serve lunch from 11.30 to 2.00 o'clock, and supper from 5.00 to 7.00 o'clock daily.

The Walker Memorial Dining Room is one of the finest college cafeterias in the country, serving an extensive variety of high quality food at moderate prices.

AMERICAN COLLEGES AID IN RESTORING LOUVAIN

Belgium Receives Library as War Memorial

New York City, Dec. 18—Hunter College, with a pledge of \$2,500, is the first institution of higher education in the United States to announce a contribution to the campaign for completion of the \$1,000,000 fund for restoration of Louvain Library.

New York State College, Albany, also has made a pledge to the fund: \$1,000 for one of the fifty bells which will form the carillon in the tower of the restored library.

Renewal of the campaign for America's war memorial in Belgium was begun in New York State December 3. Since that date, both the College of the City of New York and New York University have been making (Continued on Page 4)

SCIENCE CONVENTION OPENS TUESDAY EVENING IN WALKER

DR. STRATTON TAUGHT PHYSICS IN CHICAGO

Has Been Prominent in Many Societies for Progress in Science

Dr. S. W. Stratton, President-elect of Technology, was born in Litchfield, Illinois, on the eighteenth of July, 1861. After passing his childhood there and also going through the elementary school he went to the University of Illinois from which he graduated in 1884 with the degree of B. S. in Mechanical Engineering. After graduation from the University he remained there until 1892, during which time he became professor of physics and electrical engineering.

In 1892 he went to the University of Chicago, where he occupied successively the positions of assistant professor, associate professor and professor of physics. He remained there until 1901 when he was called to the newly organized Bureau of Standards.

During his time at the Bureau of Standards he built that institution from one building with three or four employees to an institution consisting of a dozen buildings with a staff of about one thousand highly trained technical men and with some of the most delicate apparatus known to the world of science. Through this institution Dr. Stratton has rendered the United States of America a great and everlasting service that cannot be too highly valued.

Is Member of Clubs

Because of these wonderful accomplishments many honors have been awarded him. He received the degree of Doctor of Engineering from the University of Illinois in 1903 and also the degree of Doctor of Science from the Western University of Pennsylvania somewhat later.

He has also been awarded the degree of Doctor of Science by the University of Cambridge in 1908 and again in 1919 by Yale. Besides these honors many others have been awarded him.

Outside of his official duties as Director of the Bureau of Standards he has been very active in the National Academy of Sciences, the National Research Council, the American Philosophical Society, the American Institute of Electrical Engineers and many other prominent societies for the advancement of science.

In his social life in Washington he is a member of the Cosmos Club, the Chevy Chase Club and the Army and Navy Club, three of the most select clubs in Washington. Dr. Stratton is also an honorary member of Sigma Xi and of Tau Beta Pi.

CATHOLIC CLUB TO HOLD SECOND INFORMAL DANCE

Morey Pearl's Orchestra Will Furnish Music

As one of the results of the Communion Breakfast and meeting held at the Cathedral, Sunday, December 10, an informal dance will be held in the main hall of Walker Memorial, Friday, January 19. The music is to be furnished by Morey Pearl's Orchestra.

The tickets may be obtained from the committee in charge, E. J. Hanley '24, chairman, or the officers of the club, G. A. Rowen '23, president, subscription \$2 per couple. The matrons have not as yet been chosen.

This dance is to take the place of the monthly supper meeting which the club holds for the benefit of its members, hence the next meeting will not take place until some time in February. At the Communion Breakfast held in the Cathedral, 15 new members were added to the club.

Professors of Harvard, Technology and Other Institutions Are Represented on Committee

MANY TALKS ARE OPEN TO PUBLIC

On next Tuesday Technology's buildings will be the principal scene of the biggest recorded convention of scientific men when the American Association for the Advancement of Science holds its seventy-sixth meeting. Some 3000 men and women from all parts of the United States and Canada are expected to be in attendance. The Pratt Building of Naval Architecture is to serve as headquarters for the duration of the meeting. The museum in this building, which is directly opposite the Massachusetts Ave. entrance, is being prepared to serve as a registry for the scientific throng.

INITIAL GROUP OF OUTING MEN LEAVES

To Spend Vacation in Vicinity of Mt. Washington in New Hampshire

SECOND GROUP GOES TUES.

The first contingent of the Outing Club's party to the New Hampshire mountains entrained for Appalachia yesterday morning. Those of this first group are B. B. Zavoico '24, and H. V. Sachs '25, who will stay for the whole of the ten days, and D. W. McCready '24, who is staying from December 21 to 29.

The Club's second contingent will leave the day after Christmas under the management of G. W. Elkins '24, and they will remain until the first. The men of this group are T. E. Rounds '23, E. P. Thayer '24, and J. E. Russel '25.

To Climb Mt. Washington

The Ravine House in Appalachia is serving as the Club's headquarters for the duration of the outing. Daily skiing or snowshoeing trips are on the program for the daylight hours; while talks, reminiscences, and other innocent amusements about an open fire will while away the evening hours.

On December 28 an ascent of Mt. Washington will be attempted if the condition of the weather does not preclude its feasibility. This is to be a two-day trip on which the men are to carry provisions only, if there is assurance of finding blankets in a hut near the mountain top. An alternative is a trip to the Brown Co's paper mills in Berlin.

Instruction Given in Winter Sports

The main purpose of the trip is to provide for those who are unable to go home for the vacation an opportunity to spend the holidays out-of-doors, tramping over a portion of New England's mountain regions. As the trip is to be of ten days' duration, those who are new to the sports of skiing and snowshoeing have ample opportunity to become versed in the rudiments of these respective winter sports under the instruction of fellow members.

WANDERING GREEKS

Are asked to leave their names and the names of their fraternities and former colleges in the Information Office before January 15.

CALENDAR

Tuesday, December 26
8:00—Open Convention of Association of Science, Pratt Building of Naval Architecture.
Wednesday, December 27
7:30—Meeting of Technology Chinese Club with clubs from Boston University, Harvard, Tufts, and Radcliffe, at Phillips Brooks' House, Harvard.

CONVOCAATION TO HEAR DR. STRATTON IS ON JAN. 2
