WELCOME GIVEN TO DR. STRATTON BY STUDENTS
(Continued on Page 2)

"The last ten years have shown a great change in the application of science to industrial work. A few years ago the ordinary manufacturer would not come near the university--he would avoid it. We are now seeing more men who know how to use the results of science. The case is engineering for many years. Technological problems are engineering very efficiently, but the past years of progress are in connection with the industries.

longer we are going to do that.

Immediately following the conclusion of this course, which will be offered during the summer term of the Institute, Professor T. D. Frye, who has been associated with the staff of the Institute since its organization, will be engaged in the teaching of English. This position has been held by Professor A. D. Doane, who will retire at the end of the term. We may well be proud of the fact that the Institute has been able to attract such an experienced teacher to this important position.
