THE WORLD'S AFFAIRS

FOREIGN
Feb. 1. The occupied region of Germany and Austria, together with the neutralized area of the Rhine, was returned to the French today. Hereafter all trade of all kinds must be permitted in this area. This action is intended to ensure that the Rhine shall be a free river for all purposes. This action is consistent with the principles laid down in the Locarno Pact.

Religious and France have prepared the way for this action by making it known beforehand that they are prepared to accept the principle of free navigation for the Rhine. The Rhine is a symbol of freedom in Europe and its restoration is a step forward in the cause of peace.

The Rhine River has played a significant role in European history. It is one of the longest rivers in Europe and has been the site of many battles. Its restoration signifies a new era of cooperation and friendship among European nations.
