

### Freshman Skaters Go Down at Exeter Rink

#### Prep-School Ice Team Proves Too Fast to Stay With Yearling Sextet

The freshman hockey sextet was snowed under at Exeter on Wednesday afternoon, when the prep school combination won by a 9 to 2 score. For the first period, the game was a pretty even bet, with Locke of the freshman team caging the first tally almost from the initial face-off. Exeter came through with two more before the end of the period, and added three shots to one for the frosh in the second 15 minutes of play. Zubrinski netted the second goal for the yearling team early in the second period, after a good bit of passing by the forward line.

Wason and Zubrinski put up the best game for the frosh, while Johnny Deignan in the goal was responsible for keeping the score within reason at all.

#### Will Play Brookline

The next contest for the 1926 men will be with Brookline High on Feb. 17, and it is possible that games with Cambridge Latin, Rindge, and Malden High will be put on the schedule.

**TECHNOLOGY 1926** EXETER  
Locke, lw. .... rw. Pitman  
Randell, Zubrinski, rw. .... lw. Rayner  
Johnson, c. .... c. Hardy  
Waterman, Weismer, ld. .... rd. McPhail  
Wason, rd. .... ld. Zarakov  
Deignan, g. .... g. Brown  
Score—Exeter 9, Technology 1926 2.  
Goals by Pitman, Rayner 3, Hardy 2, Zarakov, Locke, Zubrinski. Time—3 15 min. periods. Referee—Robinson of Exeter.

### COURSE VI AND ALUMNI (Continued from Page 2)

small group, Mr. F. A. Pickernell was destined to become an important factor in the development of long distance telephony and Mr. R. H. Pierce became a widely known consulting engineer. Associated with them in class but seeking a Doctor's degree at Harvard—none were then provided for at Technology,—was Mr. Hammond V. Hayes, later Chief Engineer of the Bell Telephone Company of America. The next two classes were also small, but from them came such well known men as Professor Bartlett of the Mathematics department of Technology, Mr. W. C. Fish, long-time manager of the Lynn Works of the General Electric Company, Mr. W. S. Moody, Chief Engineer of the Transformer department of the General Electric Company, Professor G. W. Patterson of the University of Michigan, and G. F. Sever, long time Professor of Electrical Engineering at Columbia University.  
(To be continued in the next issue)

### NEW YORK CLUB PLANS FOR DANCE IN WALKER

Although no definite date is set, plans for a dance to take place in Walker Memorial under the auspices of the New York City Club are now under way. At the meeting of that club last Tuesday which was attended by 20 New Yorkers, a committee of four men was appointed to take charge of the dance affairs. It is intended that the dance come soon after the freshman smoker next week.

### SOCIAL MEETING HELD FOR STUDENTS' WIVES

Wives, mothers, and sisters of Technology students are cordially invited to the social meeting which will be held in the Emma Rogers Room next Monday at 3 o'clock. An entertainment program has been planned for the occasion, after which tea will be served.

All wives, mothers, and sisters of Institute men who are living temporarily in or near Boston are eligible for membership to the newly formed club, as well as those whose permanent homes are here.

### OUTING CLUB TO SKI ON FRANKLIN PARK HILLS

The Outing Club is arranging for a party to go skiing at Franklin Park tomorrow afternoon. Those desiring to go should meet at the Massachusetts Avenue subway station, upper level, at 2 o'clock. Non-members are welcome to go along. A sign-up list is posted on the bulletin board opposite the bursar's office.

### NEW JUNIOR EXECUTIVE COMMITTEEMAN ELECTED

Acceptance of the resignation of W. F. Rivers '24, a member of the Class Executive Committee who left the Institute at the end of last term, and the election of F. G. Hamner '24, to fill his place was the most important business transacted at a meeting which the Junior Class officers held recently.

The officers decided that the money accruing from the student tax would be saved to be used to give a Senior Picnic, which would be held at the end of the Senior year. The budget for this year was also approved.

The Junior Informal Dance Committee made its report for the dance given in Walker on last November 24.

## Basketball Men Go to Amherst for Two Contests Over Week End

The varsity basketball schedule calls for two games this week end, both contests being played away from home. Capt. Cook will lead the cardinal and gray passers against Amherst, this evening, and against Massachusetts Agricultural outfit tomorrow afternoon. Both games will test Coach West's men, as to their ability to win on a foreign floor and will force them to put up a good brand of basketball to win.

As Amherst has played three games this season and has lost all of them, a comparison of the records favor the Cambridge passers, while the Massachusetts Aggies will prove a hard team to beat on their home floor if they exhibit the same form that they did against Harvard, Wednesday, when they only lost by three points to the crimson team.

#### New Combination Is Good

No game was scheduled for this week, so Coach West spent all the sessions in perfecting a fast team combination. Capt. Cook has been shifted to a forward position and his guard position being played by Ed Johnson who has been putting up a great brand of basketball. With Miller as his running mate, the pair can be expected to make up a good scoring machine. It is always difficult to make changes in the line up so as to give the best results, and the work of the team in the following games

### TWO RELAYS FACE RIVALS IN B. A. A. MEET (Continued from Page 1)

Art's outfit has no mean job on its hands. Merrill is among the fastest quarter milers that has been at Harvard recently and will probably be remembered as the man who copped second place at the dual meet between the Engineers and the University last year. All the men mentioned above are also capable of turning in a fast quarter and will go the limit to win tomorrow.

#### Two Mile Team in Triangular Race

The two mile team which will run against Dartmouth and Syracuse in a triangular race tomorrow has not been picked as yet. Several of the leading half milers have been unable to take trials lately and Coach Kanaly has not been able to decide who will wear the cardinal and gray in this event. It is very probable that Elmer Sauborn will confine his efforts to this race and will struggle for team rather than individual glory.

Elmer made a great showing in the Wanamaker mile and a half in New York Wednesday, staying right with the flashy Joie Ray all through the first mile of the race. And with Joie running the mile in under 4:30, this is no mean feat.

Charlie Snow is the only other veteran of last year's team available and will doubtless be one of the Institute representatives when the race is called.

The new material for the half is promising but as yet has not had the opportunity to show its worth in intercollegiate competition. Charlie Boardman, Charlie Roche, Bill Keplinger and Fred Ashworth have been running in good time over the middle distance and are in a position to make somebody hustle to hold down a job on the two mile team.

#### Eddie Heap Entered in Dash

With the two mile team still in doubt the final Engineer entries are not known. The mile relay will be the same one that ran in New York, while Eddie Heap will be the only individual entry. Eddie will run up against a tough field in his event and a place will mean a lot to him. In spite of the uncertainty about the two mile team, the squad is all primed. The mile contest with Harvard will count most heavily, but Syracuse and Dartmouth will have hard fighting even though an emergency picked relay to battle.

The entries in the high jump at the Millrose games managed to break a record. With the same field competing at the B. A. A. games, it will be strange if the mark set up Wednesday is not at least equalled. Leroy Brown of Dartmouth and Dick Landon, formerly of Yale, did the heavy competing at New York, with Hal Osborne third. These three men furnish a thrilling exhibition when they get into action and provide plenty of excitement for the audience.

Two of the entries in the Hunter mile tomorrow night were among the record breakers at New York Wednesday. Joie Ray lowered his own record for the mile and a half, while Jimmy Connolly tacked up a new mark for the two-thirds of a mile. Joie and Jimmie are old rivals and always provide some keen competition whenever they get together.

The Arena will hardly be big enough to hold the crowd that is sure to turn out for the big show tomorrow night. About one thousand rush tickets have been sold and this number is the limit of this type of seat. As a result there will be no overcrowding but the big enclosure will have all its standing

will show how this new combination will work.

#### Amherst Fast At Home

Amherst's opening game was with Harvard and they lost by the count of 50-25, the second contest went to Trinity College by the score of 25-22, while the last contest went to Wesleyan 47-25. This game was on the home floor and was immediately preceding the Technology-Wesleyan one. As this was played on Amherst floor, it gives some indication of the quality of the team.

In the Harvard game Massachusetts Aggies played a fine game; they led until the latter part of the last period when the defense weakened and let the crimson passers obtain the advantage. The first half ended 9-6 in favor of the farmers. The fact that the game was played on Harvard's gym speaks well for the visitors playing and fight. Pike and Barrows, the Aggies right guard and forward, starred in this contest. In addition to their floor work each one caged three goals from the floor.

**Technology**—Cook, Capt., rf; Miller, lf; Coleman, c; Hubbard, ry; Johnston, lg.

**Amherst**—Mail, rf; Walker, le; Stewart, c; Warner, rf; Whitney, lf.

**Mass. Aggies**—Barrows, rf; Ferranti, lf; Marshman, c; Bike, rg; Hale, lg. The following men are going on the trip: Coleman, Cook, Davidson, Hubbard, Johnston, Miller, Sawyer, and Skinner.

### Gymnasts Make Little Progress Without Coach

The continued absence of Coach Ed Hinks of the Institute gymnasts has made progress on the new stunts rather slow for the members of the different squads, but they are putting all their time into brushing up the stunts at present on their lists.

The first meet is a triangular affair with the Penn and Harvard in Walker gym on February 16, so not much time is left but for finishing touches. The rings continue to be the brightest outlook for the team but if effort counts for anything there soon ought to be more competition in the field for the honors.

With the schedule as it has been arranged for this season the best of chances are offered for a mighty good record to be made and Captain Thompson and his team mates are set to make the most of them.

### TECHNOLOGY FACES AMHERST SWIMMERS (Continued from Page 1)

It would seem that Amherst has a strong threat in the dives, since in addition to Bristol, who trimmed the Technology entrants last winter, their lineup, boasts Ewer, who is even better. Paul Carver and Steve Miller will endeavor to win the judge's decisions for the Institute. Both are new. Bob Purinton and Mart Buerger having left.

Aze Ames and Bill Rowe will do the back stroking for the cardinal and gray. Neither have had a great deal of experience and may bump into more than they can handle in Stimson, a veteran, and Warner a new man.

Nip Marsh will do his second bit in the 100 yard journey, and will probably be accompanied by Ban Oxnard, last year's freshman captain. There is a possibility that Carroll Dunn will squeeze into this event in place of Oxnard. The coach says he will not decide until the entrants are called for the start. Parker and Evans, of Amherst, swam against the Engineers last winter.

The breast stroke is one of the Technology strongholds with both Captain Bill Stewart and Jerry Nauman entered. Bill and Jerry cleaned up in practically all of the meets last winter, even coming through in the stiff Navy battle. G. Shambean and Scott are newcomers on the Lord Jeff aquatic squad and they'll be travelling if they win the verdict.

Plunging prospects have improved for the Institute since Dietz has been added to the lineup. He was on his freshman team and has not done anything since. Now he's a Senior but he apparently has not lost any of his skill. The regular, Williams, will also be on the job. Stewart and P. Shambean are entered for Amherst.

In the grand windup, the relay race, which will probably decide the meet the teams are: Technology—Carroll Dunn, Eddie Taylor, Nip Marsh, and Panama Palmer; Amherst—Parker, Edson, Spear, and Barker.

The officials are: Referee—Larry Johnson; Times—Melligan, Holm, Ebersee; Judges—Dean and Church; Starter—Frank O'Hearn; Inspector—John McCasserty; Clerks of Course—Bob Purinton and Eddie Miller.

Somebody in Super's office qualifies as a regular sport. They left the hubbler just outside their office, running for three or four days.

Who said Technology doesn't have a training table? The registrar serves 15 courses year after year.

## The Value of a Good Record

A MAN'S RECORD gives him his place in the community. Men measure him by what he has been, by what he has done from day to day. Each day he builds for tomorrow. What he does today either adds or detracts from his record. To grow in good deeds he must do better today than he did yesterday, do better tomorrow than he does today. It is with newspapers as it is with men.

## The Boston Evening Transcript

is nearing its hundredth birthday. It is nearing it with the determination to be better at one hundred than it is today at ninety-two. A newspaper is really a succession of lives, a succession of issues that are born to live for a day. The part of it, the breath of life of it, that goes on so long as daily issue follows daily issue is its spirit, its reputation.

Modesty is as becoming in newspapers as it is in men. What the record of the TRANSCRIPT is, what it is as a readable newspaper, giving the news in such manner that it may respect itself and win the respect of decent, self-respecting people, what its record is as an advertising medium giving reputable advertisers opportunity to advertise where advertising assures profitable returns, its readers and advertisers know, and it has today more readers and more advertisers than it ever had before.
