

REQUEST MANAGERS TO STICK CLOSER TO A. A. RULES

Kanaly's Recommendations Will Influence Awards of Insignia

ATAHUALPA GETS 'T'

That managers must cooperate to a greater extent with Coach Kanaly in the matter of freshman transfers from one team to another, and that the rules of the A. A. governing such matters be more strictly adhered to by the managers was expressed as the sentiment of the meeting of the Advisory Council on Athletics last night.

Furthermore, it was moved that Coach Kanaly be requested to make a report each year as to his relationships with each manager, and this report will be influential in deciding whether the letters and numerals be awarded to these managers.

Other business of the meeting included the special award of a straight 'T' to G. Atahualpa '23, for especial athletic ability in soccer. This is the first award of a regular letter for the sport. His record of four years, starting with the freshman team, was reviewed. As a Sophomore he was captain and has stayed with the team the two succeeding years as star player and coach.

Approve Second Harvard Race

Coach Kanaly, in reporting on relay activities, stated that it would be inadvisable for the team to compete in the two-mile event in the coming K. of C. games, and probably in the later American Legion two-mile contest, due to sickness among the members of the team.

CHEMICAL SOCIETY TRIP POSTPONED TO FRIDAY

United Drug Co. Head Unable to Conduct Men Tomorrow

On account of the inability of Mr. N. C. Earl of the United Drug Co. to conduct the Chemical Society through his company's plant tomorrow afternoon the society has postponed the trip scheduled for that time until Friday afternoon. It will be necessary for those desiring to take the trip to sign up again in the lobby of Building 4. The men will leave the main lobby at 2 o'clock next Friday afternoon.

Besides its Boston plant the United Drug Company operates factories in Roxbury and St. Louis and has distributing stations in Chicago, San Francisco, and Liverpool. The company manufactures toilet articles, pharmaceutical and soda fountain supplies and candies as well as medicines and drugs. The trip will be limited to twenty men.

MECHANICAL ENGINEERS' JOINT SMOKER TOMORROW

At 8 o'clock tomorrow the joint smoker of the Mechanical Engineering Society with the Boston Section of the American Society of Mechanical Engineers will be held in room 5-330. The members and their guests will be addressed by President Stratton, and A. H. Ballard of the Ballard Oil Equipment Company of New York, who will speak on the subject "Fuel Oil." The Mechanical Engineering societies of Harvard, Tufts, and North Eastern Colleges have been invited to attend the meeting.

Members of the society who have not obtained their membership cards and certificates may still do so by applying in room 3-312 any day from 12 to 1 o'clock. There are also a few pins available.

250 WATT TUBE NOW IN USE BY RADIO SOCIETY

Modulating System Needed for Transmitter

Installation of the new 250 watt transmitting tube belonging to the M. I. T. Radio Society was completed about midnight Friday. The transmitter was immediately tuned, and is now in regular use, although further modifications of the set are to be undertaken later.

The tube is being operated under its rated capacity to safeguard its life. The plate voltage on full power is at present 200 volts, and at that voltage the space current is 200 milliamperes, which is 50 milliamperes below rating. The filament is also being run slightly under its rated voltage. In spite of these facts, however, a radiation of 8.5 amperes is obtained.

There is still a large amount of construction work needed at 1XM. A suitable system of modulating the output of the new transmitter is badly needed. The society intends to use a rotating motor-driven condenser, which would vary the emitted wave over about 2 meters. Its construction would entail the use of a lathe, consequently the radio society asks that any one who has access to a lathe and would be interested in this work should volunteer to do it. Help is also needed for the construction of a new parts cabinet, and for completing the wiring of the experimental table.

GOOD WILL VOTING BEGINS HERE TODAY

Miss Marjorie Pierce '22, of Course IV, Technology Candidate

BALLOTING BY GIFTS

Technology has a candidate entered in the National Good Will elections, which begin today, and are to continue to the end of the month. She is Miss Marjorie Pierce '22, who graduated from Course IV last year, and is now studying for a Master's Degree in Architecture. Until recently Good Will Delegates have been selected from industrial organizations, but now the activities of the American Committee for Devastated France have been extended to the New England colleges, and Technology is one of the first to nominate a candidate.

The voting is in the form of gifts to the American Committee for Devastated France. These may be of any size, and count for the designated candidate at the rate of 10 votes a dollar, or 10 cents a vote. A committee has been organized to carry on the campaign for Miss Pierce at the Institute and in Rogers.

Votes may be given to any of the committee, which is as follows: P. B. Brown '23, chairman, J. E. Burchard '23, Miss Ida B. Adelberg '23, C. J. Oberwarth '24, S. B. Waugh '25, Frederick Winsor, Jr., '25, and Miss M. E. Ritchey '26. Votes may be given to Miss Whipple, in room 8, Rogers.

Prof. Emerson Sponsors Miss Pierce

The activities of the American Committee for Devastated France, which began its work in 1917-18, include the restoration of agricultural wealth, reconstruction of community life, nursing service, and general medical care. The work is largely carried on by young women, and the purpose of the Good Will elections is to select the American delegates to go to France in the spring. The election is not a contest, since a candidate receiving more votes than are needed to elect her gives the extra ones to some other candidates. The number of delegates chosen to represent Boston will depend on the total number of votes cast for all candidates. If 100,000 votes are received, the candidate having the highest standing will be elected. If 180,000 votes are cast, the two highest candidates will be chosen, and each additional 60,000 votes will elect the next candidate in order.

Professor William Emerson, head of the Department of Architecture, who nominated Miss Pierce, highly recommends her, and is himself devoting much time to the campaign for her election. Since there are about 20 other candidates entered in the Boston election, with the possibility of the election of only one of them, Miss Pierce needs all the support the students, alumni, and Faculty of Technology can possibly give her.

FRIDAY'S CONCERT PLANNED AS BEST

Unusual Program for Club's First Appearance in Symphony Hall

TICKETS TODAY IN LOBBY

To draw together the Alumni, students and friends of the Institute to hear what they expect to be the best concert in their history, the Combined Musical Clubs are giving the Symphony Hall Concert Friday evening. This concert is also planned to give the friends of the clubs who do not care to dance a chance to hear the clubs without the additional cost of the dance afterwards. Tickets are to be on sale in the main lobby today, tomorrow and Friday, from 9 to 5 o'clock.

In order to carry out this plan of the best concert in the club's history, the program arranged has been carefully selected and contains numbers by each of the clubs and three specialty acts. In addition to these numbers there are to be two by Miss Marjorie Moody, a soprano.

Miss Moody sang in Symphony Hall January 7, taking the leading part in "Elijah," and so is not new to Boston concert-goers. The fact that she had a most successful season last summer as the soloist with Sousa's Band also vouches for her ability, and the management feels very fortunate in having been able to include her in the program.

Besides the stand in the main lobby, tickets may be obtained at Herrick's, at the Symphony Hall box office, and at the Musical Clubs' office, room 310, Walker Memorial. The seats are all reserved and range in price from 50 cents to \$2, contrary to previous announcement.

There are some additions to be made to the list of patrons and patronesses as previously announced. President Stratton, Mrs. Alvin T. Fuller, Mr. and Mrs. R. P. Bigelow, Mr. and Mrs. R. H. Richards, Mr. and Mrs. Walter B. Farmer, Mr. and Mrs. Frank B. Merrill, and Mr. and Mrs. Stephen Townsend have been added.

The program as arranged for the concert is as follows:

- 1. Take Me Back to Tech Words by Litchfield '85 Combined Clubs
2. Battleship Connecticut J. M. Fulton Banjo Club
3. Invictus Glee Club
4. Moonlight Fancies T. H. Rollison Mandolin Club
5. "Bell Song" from Lakme Delibes Miss Moody
6. A Little Harmony Glee Club Quartet
7. Rastus on Parade Arranged by Liecety Banjo Club
8. a. Sweet and Low Baruby
b. Image of the Rose Reichhardt
Miss Moody and Glee Club
INTERMISSION
9. Melody March Arranged by Liecety Banjo Club
10. Group of Songs Miss Moody
11. Serenade Mandolin Club
12. Nymphonic Solo G. P. Rupert, Jr.
13. a. Autumn Sea Gericks
Swing Along W. M. Cook
Glee Club
14. Mystery K. C. Kingsley
15. Popular Selections Miss Whipple
16. Stein Song Bullard '87 Combined Clubs

FIRST TEA DANCE OF TERM COMES SATURDAY

The first Saturday afternoon Tea Dance of the term will be held this week-end for the benefit of the Boxing and Fencing teams, under the auspices of the Walker Memorial Committee. Dancing will commence at 3:30 o'clock, and will continue till 6:30, with Morey Pearl's Chateau Orchestra furnishing appropriate music.

Tickets for the dance are priced at \$1.50, and may be obtained at the offices of the Walker Memorial Committee, from the members of the Calumet Club, and from members of the Boxing and Fencing teams.

The following matrons for the affair have signified their pleasure in attending: Mrs. E. A. King, Mrs. R. P. Bigelow, Mrs. L. M. Passano, Mrs. E. F. Langley, Mrs. H. G. Pearson, Mrs. H. P. Talbot, and Mrs. R. G. Hudson.

Preceding the tea dance, the choral society, under the direction of Mr. Stephen Townsend of Boston, will offer a program of vocal selections, including solos by well-known artists, in north hall from 2:30 to 3:30 o'clock. Students of the Institute and their friends are invited to attend the concert, which is open to the public without ticket.

TICKETS FOR FRESHMAN SMOKER ARE NOW READY

Can Be Secured Free at Booth in Main Lobby Today and Tomorrow

Tickets for the freshman smoker are ready and may be secured at the ticket booth in the main lobby today and tomorrow from 9 until 5 o'clock. Every man must get his own ticket if he desires to obtain any of the refreshments. President Stratton, Dr. A. W. Rowe '01, and H. E. Lobdell '17, will address the gathering, which will be held in the main hall of Walker next Saturday night at eight o'clock.

Dr. Stratton will make the first address, but he has not announced his subject. The other two speakers will present the subject of activities and its relation to freshmen. Dr. Rowe's address is to be on "Athletics," and Mr. Lobdell will talk on "Publications."

Another feature of the program will be an act by Scott and Bayrd, "the Ginger Boys," who furnish by themselves a practically complete minstrel show with their jokes, songs and impersonations. An unusual and interesting event of the evening will be the distribution of clay pipes with a capital T between the letters 2 and 6 painted on the bowl.

NEW CONSTITUTION MEETS DORM CRISIS

Combined Committee Works on Student and Faculty Cooperation

DORM COMMITTEE RESIGNS

The situation in the dormitories recently came to a head when the Student Dormitory Committee resigned because of pressure brought to bear by the students and because it felt that its relationship with the Faculty Dormitory Board was not clearly enough defined. The government of the dormitories is now in the hands of a committee pro-tem and a committee appointed by President S. W. Stratton, met for the first time last night to draw up a new constitution for the student government of the dormitories.

At last night's meeting of the President's committee, which was presided over by H. J. Carlson '22, President of the Alumni Association, a sub-committee consisting of Professor L. F. Hamilton, newly appointed chairman of the Faculty Dormitory Committee, R. P. Shaw '23, and C. C. Taylor '23, of the Institute Committee, and H. S. Ferguson '23, and A. K. Whitaker '23, of the dormitories, was appointed to actually draft the proposed constitution. The first meeting of this committee will take place on Saturday.

Discontent in the dormitories has been brewing for some time past. It was rumored amongst the students that their interests were being made subservient to the desires of the Faculty Dormitory Board, while the Student Directory Committee claimed that it was hindered by being unable to find out the extent of its powers.

The first manifestation of the dissatisfaction of the students came last week because of the appointments made to a committee to meet with President Stratton to consider the future status of student government in the dormitories. Petitions demanding the resignation and subsequent reelection of the Student Dormitory Committee were circulated with the avowed purpose of either getting a vote of confidence or electing new committee members.

Acting on these petitions, the Dormitory Committee, on Sunday, after a long session, featured by frank talking and frequent references to dormitory politics, voted unanimously to resign. At the same time it passed a resolution suggesting that "to insure closer cooperation and a more definite understanding," before a new committee be asked to take office, "the powers reserved by the Dormitory Board be published by it for the director of the Student Dormitory Committee."

On the following day the Dormitory Board took action to establish a temporary student governing committee to serve until it could take action on the resolution.

STORY OF FACTS ACCOMPLISHED IS FIRST NASH TALK

Importance of Subject Put Forth in Dr. Stratton's Opening Words

THIRD MEETING TODAY AT 4 O'CLOCK IN WALKER

Second Address Discussed the Golden Rule as a Principle

Dr. Stratton's words in introducing Mr. Arthur Nash to his audience Monday afternoon in Walker put clearly the importance of the subject on which the latter was to talk, and the story which Mr. Nash told gave an example of the success of the "Golden Rule" in industry which can not be disputed. Tomorrow Mr. Nash will continue with a history of the development of the "Golden Rule" in his shop, using specific illustrations.

First Talk Traces Development

Tracing briefly the development of The A. Nash Company from its formation to the present, Mr. Nash in his first talk gave the audience of 600 some idea of the magnitude of the change which his methods have brought about. From a business of \$130,000 dollars in 1919 to business at the rate of 7,000,000 a year for the first month of 1923 is the remarkable record of the organization.

Taking an active part in this great change himself, Mr. Nash was able to give history in a much more convincing manner than would otherwise have been possible. His story was not of an ideal to be reached but a history of facts accomplished.

Hold Discussion Meeting

Yesterday afternoon before an audience of about 650 undergraduates Mr. Nash gave the second of his talks, taking this time as his subject, the "Golden Rule" as a principle, and not as a method of success in business. He spoke of his adoption of it because of his belief that it was the only right standard though he believed it a principle impossible of business application.

Last evening a question and answer meeting was held in the Walker library for the further discussion of any questions that had come up in the course of Mr. Nash's first two talks. At the Faculty luncheon yesterday noon some 50 Faculty members were present to hear a short talk by Mr. Nash, followed by a half hour of discussion.

ATTENDANCE LARGE AT CATHOLIC CLUBS' DANCE

Thursday evening, many young people representing colleges from all over New England, gathered in the main ball room of the Copley Plaza at the Annual Formal Dance of the New England Province of the Federation of College Catholic Clubs. Morey Pearl's orchestra furnished the music for the dancing which lasted from 9 until 2 o'clock.

Matrons for the evening were Mrs. A. T. Fuller, wife of Lieutenant-Governor A. T. Fuller, Mrs. J. M. Curley, wife of Mayor J. M. Curley, Mrs. J. J. Phelan, Mrs. W. W. Taft, and Mrs. J. Brine. The committee in charge of the affair was: J. W. Sullivan '23, E. F. Dougherty, Tufts '24, Miss M. F. Sullivan, Massachusetts College of Pharmacy '23; Miss M. A. Brennan, Wellesley '23; and Miss A. W. Murphy, Simmons '23.

CALENDAR

- Wednesday, February 7
4:00-Arthur Nash talks, main hall, Walker.
Thursday, February 8
5:00-Talk on Course IX by Professor C. J. E. Moore, room 10-275.
8:00-Civil Engineering Society dance, north hall, Walker.
8:00-Mechanical Engineering Society Smoker, room 5-330.
Friday, February 9
8:00-Musical Clubs Concert, Symphony Hall, corner Huntington Avenue and Massachusetts Avenue.
Saturday, February 10
2:30-Concert by Technology Choral Society, north hall, Walker.
3:00-Walker Memorial Committee tea dance, main hall, Walker.
8:00-Freshman smoker, main hall, Walker.
