

TECHNOLOGY CREW COACHES SWAP DUTIES OF INSTRUCTION

COACH HINKS PICKS ENGINEER VARSITY GYM TEAM LINEUP

Athletes Perfect Series for Opening Meet with Penn and Harvard

The newly picked Technology gym team was put through its stunts yesterday afternoon, and the snap showed by the athletes indicates that Coach Ed Hinks has selected an outfit that will give Pennsylvania and Harvard a real battle, in the opener a week from Friday.

All of the men have had at least a year's experience on the Technology squad. The list announced by the coach on Monday afternoon follows: Captain Bill Vicinus, Rollo Turner, Ray Brink, and Lew Littlefield, on the horse; Jack Liecty, Max King, Sukhe Sukhum, and Joe Terrell, on the high bar; Jack McCoy and Manuel Ruiz, on the parallels; Sam Caldwell, Hank MacMillan and George Anderson as tumblers; and Greg Shea and Jack McCoy on the rings.

Right now the men are chiefly concerned with perfecting their series of exercises, and many already have something stowed away in their bag of tricks, which it is hoped will capture the judges' eyes a week from Friday.

Coach Hinks, unexpectedly, was able to be present at the practice on Monday afternoon. It was expected that his recent illness might force him to stay away from the gym most of this week.

He immediately started putting the high bar men through their paces, giving them pointers on their new stunts and improving their old ones. He expects to have the team in good shape when first blood is drawn.

Any Sophomores who ought to be making up freshman physical training and have missed the classes are urged by the gym management to come out from behind their green eye shades and practice.

Varsity Wrestlers Get Vacation

There will not be a varsity wrestling meet on this Saturday, so that Captain Rock Hereford's men will have their first vacation in a month.

Dellenbaugh Now Handles Varsity

Coach A. W. Stevens Will Be in Charge of All Other Crews

DIFFERENCE IN STYLE REASON FOR CHANGE

New Combination Expected to Build Technology Oarsmen Into Winning Eight

A shift in the duties of Head Coach Arthur W. Stevens and Coach Dellenbaugh, both of crew, was arranged at at conference between the two mentors and Captain Greatwood. Hereafter Dellenbaugh will have charge of the varsity eight while the instruction of all the other crews, including the freshmen, will be under the direction of Stevens.

The chief reason for the shift was the difference in the styles of instruction of the two coaches. Stevens is particularly effective in perfecting the form of an eight. He can drill the oarsmen so that the moving shell is a beauty to watch.

Dellenbaugh's greatest point is to get speed out of the crew. He doesn't care how the work looks as long as the boat is going ahead. The varsity men want to win races, and not beauty prizes. They are ready for Dellenbaugh's more or less rough and ready instruction because they have had the fundamentals of form pounded into them.

Stewart Instructs New Men

On the other hand Coach Stewart's system is far superior to any other in the teaching of green oarsmen. If progress is to be made the candidates must be soundly drilled in the approved methods of rowing. They are in no condition to win races until the technique of oarsmanship has been made a part of their sub-conscious knowledge.

For these reasons it is believed that the new arrangements will be able to work wonders with the Technology crews. After two or three years under the able instruction of Arthur Stevens the oarsmen will be in a position to benefit by the driving work of Dellenbaugh.

Very rarely are these two sides of coaching found in one man and the management feels itself very lucky to have two instructors, who can cooperate perfectly and see that the Engineer crew candidates are built into winning eights.

Frosh Boxers Pummel Each Other Tomorrow

185 and 135 Varsity Fights Also Will Be Staged in New Gym

Elimination matches for the freshman boxing team are due to start in the New Gym ring at 4 o'clock tomorrow afternoon, according to the plans of Coach Nap Boutelier.

Little work has been done with the 1926 fighters up to date and the coach will get his first idea as to their talent in the bouts tomorrow. Every one of the candidates is expected to turn out and a fight will be arranged for him.

Several promising men have already been uncovered, including Curtis Washburn, 125 pounder, who is aggressive and quick hitter. He gave Wayne, a varsity candidate, a tough time yesterday.

Included in the bill of fare will be several varsity affairs. Bouts for the 125 and 135 pound varsity posts are planned.

From The Sports Desk

You can easily tell Marion is a new-comer to the Institute. She has an idea that a name is nothing but a few letters and a code can even change those. Not if they are like those here!

Who is this Gym Ring we hear so much about? Any relation to Tech Ring?

The wrestlers tripped on their first trip. The farmers raked in the basketball men. The boxers had a close shave with Colgate. Billie Burke fell for Art's sake. The swimmers ducked Amherst. And Harvard took a big long taste of Technology heels.

Varsity Basketball Players Work Hard Preparing for Holy Cross

The varsity basketballers are putting in every spare minute of time this week to prepare for the game with Holy Cross on the floor of the New Gym, Saturday evening. Coach West's men realize that some mighty hard work has to be done by the end of the week in order to be in tip-top condition for this contest. The season is now well over and the coach has had opportunity to see just what kind of basketball he can expect from Capt. Cook's men.

The two defeats of last week were rather of a surprise, at least the defeat at the hands of Amherst was unlooked for, as the Amherst five had not made an impressive showing this year. Both these games brought out the fact that the Technology passers were inclined to play an erratic game, at home the showing has been good in every contest, while away the playing, for the greater part of the time has been far from steady.

The coach will use this week to try to obtain the best working combination and to drill steadily on the offensive plays. The individual players all can handle the ball well, but with the limited time for practicing it is sometimes difficult to put the necessary time on team plays. Coach

West has been trying to get a five that works well together, hence he has been making changes in the line up with this in view. Stan Cook who always has a mighty good eye for the basket, was put on the forward position in the hopes that he can get more goals than from his defensive job.

A number of the men who have not been playing regular varsity positions have been putting up an especially good game in the practice sessions, and have been in the line ups of the recent contests. As a guard Ed Johnston has shown his ability to play the floor and keep down the opponents score, while Skinner has shown up well at the pivot position. In the Amherst game he came through with three goals from the floor.

The game Saturday evening will start at 8 o'clock, and there will be no preliminary as the freshmen will play away from home. A dance will be held after the game, as for the last home game, the music being furnished by the Jazz Band.

The freshman basketball squad plays the St. John's team away from home Saturday evening. Although they lost to Exeter last week, the men have been showing improved form in the last two contests and they can be expected to put up a hard fight Saturday.

Boxing Lineup Rearranged for U. of P. Contest

Capt. Ed Moll Moves Down to 145—Horgan Now 158 Pounder

Captain Ed Moll's boxing team is to undergo a wholesale revision, with several battlers stepping down a class in weight, before the Pennsylvania scrappers are encountered in the Philadelphia ring next Saturday. In the new battle order the Engineers look more formidable than they did in the Colgate opener. Coach Nap Boutelier thinks his men can make the fighting Quakers do their share of the quaking as well as the fighting.

One of the most important changes in the renovated array is the appearance of Eddie Moll in the 145 pound class instead of the 158. With this shift the scrappy captain returns to the division in which he boxed last winter.

Ed has been travelling at way below the 158 pound limit and for the Colgate meet he was weighed in at 152 pounds. In the lay off over Sunday Moll accumulated enough avoirdupois to dent the scale for 157 on Monday. Since then he has been working out with Rock Hereford, captain of the wrestlers, with the result that he has dwindled to 151. Little trouble is anticipated in bringing him down to the required 149 pounds.

The Engineer captain carries a terrific smack in both hands as he demonstrated in the Colgate match, which he made more of an exhibition than a fight. His hooks are deadly. In addition, to make up for a rather inadequate defense, Eddie is very hard to hurt. The wallops he took without being fazed last winter won him the sobriquet "Iron Man Moll."

With this store of boxing talent Moll was well able to take care of himself in the 158 pound class, and promises to be a terror to all opponents in the 145.

To fill the vacated 158 pound berth another Engineer will slip off a few pounds, the victim this time being Frank Horgan. The Irish brawler will experience very little difficulty in making the limit according to Nap Boutelier.

Frank was never up to the regular 175 class and he was only filling in for Joe Scholtz, and he'll be much better off bucking the lighter boxers. His style is a slam bang, wade in and hit 'em sort and if he is up against a man of his own weight this goes across much better.

Al Lindsay will answer the opening bell as usual, but in the 125 pound class things are still in the air. Red Wexler, Gordon Wayne, and Bill Norwood are all contestants. Wexler boxed against Colgate last week and may make the Philadelphia trip. Wayne had a stiff work out yesterday, going through a long drill with Ed Moll and then taking on Curt Washburn, a very promising freshman, for three hammer and tong rounds.

Lew Phillips may be kept out of the Penn match by a damaged wrist. If the expert decides to save his wing for further encounters Cohon will probably have the 135 pound call.

K. of C. Meet Next on Track Program

Mile Relay Will Probably Be Matched to Race Harvard

The next indoor meet for the track team will probably be the Knights of Columbus games which will be held on February 17. Some time ago a communication was received from the manager of these games, telling the manager of track that the Engineer mile relay would be matched with one of its own calibre.

Word was received today that a mile race with Harvard was desired by those in charge of the games. It has not been decided yet whether an Institute team will be at the meet but the settlement of this detail lies in the hands of the advisory committee who were to have decided the course which will be taken at their meeting last night.

It seems very probable that this race will go through all right for after the great race put up by these two teams at the B. A. A. games, another contest would be a great drawing card and would settle any doubt left as to which was the faster team that might have been left by the unfortunate fall of Billy Burke on the home stretch at the last meeting of the teams.

The University runners pu up a fine race when Captain Art Smith's team defeated them the first time and are aching to get revenge on their institute rivals. The intervening time between now and the seventeenth will also allow both teams time to polish off their passing and improve their running and a second race ought to provide a few thrills.

Intramural Sports

This evening the dormitories start on the second half of their athletic program when Holman meets Runkle in bowling and Nichols meets Atkinson. At present Holman is in the lead with Nichols running them a close second while Runkle and Atkinson bring up the rear in the order named.

Tomorrow the second half of the basketball series starts when Holman plays Nichols and Runkle faces Atkinson. At present Holman is leading, followed by Runkle, Nichols and Atkinson. The game that the dormitories are looking forward to is the Holman-Runkle contest, which is expected to be the fastest of the series.

Duelling Sword Finals to Be Started Today

Technology Fencers Plan Second Invasion of Newton Society

The final fencing eliminations for the epee candidates, Blake, Serano, and Stolte, will be a feature of Walker gym activity this afternoon and on Friday. Hair raising matches are expected since the competitors are nearly equal in skill, though the veteran Charley Blake has a slight edge.

Suburban elite will again be entertained by the Technology swordsmen, according to Gentleman Jack Cannon, manager of the team. The affair will be the second feature of the middle-Newton social season attended by the Engineer fencers.

The opening meet will be fought on February 17 at West Point, N. Y., against the Army team. Arrangements with Cornell for a match on the same trip are pending and have been so since October 4, due to the lackadaisicalness of the Ithacan management. Cannon's repeated telegrams have been unanswered.

The burden of making the benefit dance for boxing and fencing, to be held in Walker on Saturday afternoon a success will fall on the fencers since the boxing team will be on a trip to Philadelphia.

Swimmers Prepare for Green

The swimming team is working hard this week in preparation for the meet with Dartmouth Friday evening at Hanover. Time trials will be held tomorrow afternoon at the "Y" tank

Wanted: 50 Leaders

Babson Institute seeks fifty men who will apply themselves for one or two years to an intensive study of business principles. This will include daily discussions in small groups directed by men with years of business experience, and conferences with active factory and office executives. This practical background bridges the gap between university training and actual business practice. It fits you for an executive position.

Babson Institute, an educational institution endowed for the purpose of fitting men for executive responsibilities, invites you to send for the book, "Training and Business Leadership." Write today. No obligation.

Babson Institute

Wellesley Hills, (Suburb of) Mass.

STONE & WEBSTER

INCORPORATED

DESIGN steam power stations, hydro-electric developments, transmission lines, city and interurban railroads, gas and chemical plants, industrial plants, warehouses and buildings.

CONSTRUCT either from their own designs or from designs of other engineers or architects.

MANAGE public utility and industrial companies.

REPORT on going concerns, proposed extensions and new projects.

FINANCE industrial and public utility properties and conduct an investment banking business.

NEW YORK BOSTON CHICAGO

TRADE SIMCORE MARK

Simcore wires and cables are made in accordance with the Code rules of the National Board of Fire Underwriters. Every completed length is subjected to voltage tests that not only insure superior quality but are a measure of that quality.

SIMPLEX WIRE & CABLE CO.

201 Devonshire Street, Boston
Chicago San Francisco New York

LAW STUDENTS

THE BOSTON UNIVERSITY LAW SCHOOL

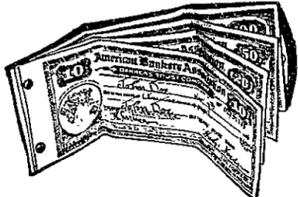

Trains students in principles of the law and the technique of the profession and prepares them for active practice wherever the English system of law prevails. Course for LL.B. requires three school years.

Beginning in the Autumn of 1923, one year in college will be required for admission. In 1925, the requirement will probably be two years in college.

Special Scholarships \$75 per year to college graduates.
