

BASKETBALL TEAM RUNS AWAY FROM HOLY CROSS, 37-23

After Neck and Neck First
Half Engineers Step
Into Lead.

CAPT. STAN COOK TOSSES
IN FIVE FIELD GOALS

Foul Throwing for Both Sides
Exception—Mike Miller
Scores 17 Points

Exhibiting an effective attack which opened up in the second half and scored 24 points against their opponents 11, Capt. Cook's basketballers defeated the Holy Cross five Saturday evening on the home floor by a 37-23 score. Although the count was tied three times during the first half and Technology was leading by only one point at its close, 13-12, neither team got well under way before the second period. With only a minute to play before the whistle ending the first half blew, and Holy Cross leading by one point, Cub Hubbard came up to the floor and shot one of the prettiest goals of the game from the side line.

Stan and Mike Forward
The combination of Stan Cook and Mike Miller as forwards proved to be just the right thing, as the cardinal and gray captain caged five goals from the floor, leading all the scorers of both teams, while Mike managed to get two, although the Holy Cross guards had been warned to be on the watch for Coach West's chief point getter. Practically every man on Technology's team scored at least one goal, and in addition Storb, Skinner and Davidson who went in during the second half each caged a basket. The Engineers were superior to the visitors in all departments of the game, but their passing and team work showed up especially well, although there was period during the second half when nobody seemed to be able to put the ball through the basket from the floor immediately around the hoop. Holy Cross gave, at times, exhibitions of fast floor work but they were unable to score after getting the ball in their territory. Vorhees, the right forward, caged all the offensive shots, while the guards each got a goal.

Vorhees Misses 3 in 16 Tosses
The free throw shooting was the best seen on the local floor this year. Vorhees missed only three throws out of 16 attempts, which was largely responsible for keeping Holy Cross in the running at all. Mike Miller also put 13 fouls through the net and it was his shooting that kept Technol-

500 COUPLES IS LIMIT SET FOR JUNIOR PROM

Orchestra Announced Tomorrow—May Hold Baby Prom for Lowerclassmen

This year's Junior Prom will be limited to 500 couples in order to eliminate the crowded conditions that have existed at the two previous proms. The Juniors will be given a chance to reserve signups first by mail as notices will be sent to every Junior with a return postal attached. After the Juniors have obtained their signups, the remaining signups will be placed on sale which will be some time near the end of this term. The committee cannot at present give any definite price for the signup.

May Have Baby Prom
The committee has succeeded in reducing the fifteen orchestras which were first investigated down to four. These are Bert Lowe's and Morey Pearl's, of Boston; Ed. Wittstein's, of New Haven; and Zex Confrey's of New York. A definite decision as to which orchestra will play at the Prom will be made tomorrow.

It is probable that the Palm Room at the Copley will be used after midnight with a special novelty orchestra. If there is enough demands for signups, a Baby Prom for the underclassmen will be given and the affair at the Copley limited to Juniors and Seniors.

DISTRIBUTE SOPHOMORE SMOKER TICKETS TODAY

President Stratton and Dean Talbot to Speak

Tickets for the Sophomore smoker which will be held in Walker Memorial Friday evening, will be distributed free of charge in the main lobby from 12 to 2 o'clock all this week. All Sophomores who plan to attend must secure their tickets here because admission at the door will be by ticket only. The affair will be absolutely free, since the class allotment from the undergraduate dues will cover all expenses.

The speakers of the evening will be President Stratton, Dean H. P. Talbot '85, and Professor R. E. Rogers. The Musical Clubs will furnish entertainment. Several specialty acts are on the program. Favors in the form of long cigarette holders engraved with the words "Sophomore Smoker" have been provided.

\$200 PRIZE SONGS ARE DUE THURSDAY

Competition for Technology
Song Closes for
This Year

Songs to be entered in the \$200 prize Technology song competition are being called in to Professor H. G. Pearson's office, room 2-285, by Thursday of this week. The music of these songs need not be original according to the conditions of the contest, but it is obvious that the words should be new.

The songs are not, as is the general impression, to be Alma Mater songs as the committee on the prize songs has for its object the collection of new Technology songs. Before any of the offerings can displace the Stein Song, the students and alumni must give their approval.

Sing Them at Show in April
The best of this year's songs will be sung at Tech Show in April as was the song composed by A. E. Hatch '91, which won the prize last year. All alumni and undergraduates can enter the competition and the prize song will be chosen by the show audiences.

The Prize Song Committee is composed of the President of the Alumni Association, the general managers of Tech Show, THE TECH, and the Combined Musical Clubs. There are also a Senior and two Juniors appointed by the president of the Institute Committee. C. A. Brantingham '23, is chairman of the committee this year.

NUMERALS PRESENTED AT FRESHMAN SMOKER

Dr. Stratton, Dean H. P. Talbot,
Dr. A. W. Rowe, and H. E.
Lobdell Speak

Freshmen had an exceptional opportunity to become better acquainted Saturday evening, when they held their first smoker in the main hall of Walker. The program included informal talks, presentation of class numerals, specialty entertainments, and refreshments. A feature of the smoker was the distribution of clay pipes with the class numerals and a "T" painted on the bowl.

Shortly after 8 o'clock President M. M. Greer '26 opened the smoker with the introduction of the first speaker, President Stratton, who urged the men of the class to be democratic in all their relations with men of the Institute. Dr. Stratton was followed by Dean H. P. Talbot '85, who gave some amusing experiences he has had in teaching chemistry at Technology.

The subject of "Athletics" was discussed by Dr. A. W. Rowe '01. Dr. Rowe mentioned the great increase in activities at the Institute, and pointed out the responsibility of the freshmen for making Field Day next year a success. At the close of his talk Dr. Rowe presented class numerals to the following: Tug of War team; E. C. Van Blarcom, W. H. Latham, C. A. Jeffery, A. P. Libbey, R. V. Howe, R. S. Chidsey, A. S. Ford, S. L. Fardy, K. P. Morse, W. F. McCornack, C. F. Kirsch, W. E. Carter, A. F. Butler, P. M. Allen, M. F. Hall, A. F. Underwood, G. V. Steele, M. P. Woodson, J. F. O'Neil, C. R. Washburn, H. F. Howard, J. O. Crawford, L. C. (Continued on Page 2)

CONCERT PLEASSED SYMPHONY AUDIENCE

Program Said to Be Best Presented by Clubs This Season

LARGEST CROWD EVER

Before a larger audience than at any previous concert this season the Combined Musical Clubs gave their first Symphony Hall Concert last Friday evening. The program of fifteen numbers which was presented was held to be the best that the clubs have ever presented, and the many encores called for by the applause of the audience proved their appreciation.

A good many of the Faculty and students with their friends were to be seen among the audience, though perhaps more than half of the 900 present were not connected in any way with the Institute, except through friendship. The size of the hall made the audience seem rather small, though in reality it was one of the largest, if not the largest that the clubs have ever appeared before.

Quartet Did Not Sing
The numbers by Miss Moody, assisting the clubs in this appearance, pleased the audience so much that she sang encores after each of her three numbers. Encores after most all of the clubs were called for, especially after the appearance of the Glee and Banjo Clubs.

Although on the program, the Glee Club Quartet did not sing because of the illness of one of its members. However, the other specialty acts made their appearance and were accorded much applause. K. C. Kingsley '23, in spite of a threatened loss of voice, succeeded in mystifying the audience by exhibiting a most unusual control over matter, defying nature's most cherished laws.

Jazz Band Much Applauded
G. P. Rupert '25, with his xylophone solo, gave the audience a bit of contrast to the rest of the program and roused even the most critical to applause. The next to the last number on the program, popular selections by the Jazz Band, was also shown considerable appreciation.

The singing of the "Stein Song" by the entire Clubs, the last number on the program, made an appropriate ending for the concert.

PENNSYLVANIA BOXERS OUTPOINT TECHNOLOGY

Capt. Ed. Moll and Al. Lindsay
Win Their Bouts in Meet
at Philadelphia

Winning two bouts by decision and a third on a technical knock out, the University of Pennsylvania boxers defeated Technology in Philadelphia Saturday night. The 135 pound class was not contested, so the score stood 3-2.

Lew Phillips, the regular 135 pounder has a damaged fist, and Morry Cohen, who was to take his place developed a light case of influenza after going down to the Quaker city. The Penn authorities refused to accept the match on forfeit.

Al Lindsay won his 115 pound battle after an extra round had been called. Bill Norwood dropped the 125 fight on points. Ed Moll beat Davis in another extra round scrap, which featured the program, in the 145 division. Horgan was technically knocked out in the 158 pound class, and Scholtz lost the 175 on decision.

The team reports excellent treatment by the Penn management, and also by Al Addicks, former captain of boxing at Technology.

FIRST TEA DANCE OF TERM HELD SATURDAY

Last Saturday afternoon the first tea dance of the term opened in Walker at 3:30 o'clock. The dance lasted until 6:30, and was given for the benefit of the boxing and fencing teams. About 150 couples were present. The dance was conducted by the Walker Memorial Committee.

The following were the matrons: Mrs. E. A. King, Mrs. L. M. Passano, Mrs. R. P. Bigelow, Mrs. E. F. Langley, Mrs. H. P. Talbot, Mrs. R. G. Hudson, and Mrs. H. G. Pearson.

TICKET APPLICATIONS FOR NEW YORK READY

Show Posters on Exhibition in
Main Lobby

The applications for tickets for the New York performances of Tech Show 1923 are now available at the Information Office and at the Show office on the third floor of Walker. These applications will be sent to New York with a check and the tickets returned to any address desired. Tickets for Hartford may be obtained in the same manner.

The alumni and undergraduates will be given preference of the public in the allotment of seats. It is necessary to send the applications to New York as the alumni there are in charge of that part of the arrangements. Early application will be an advantage so that the tickets may be returned before exams.

The posters for distribution in New York are on exhibition in the main lobby today. There is a cut of these posters today in THE TECH. The coloring is very striking, consisting of red on a background of orange.

PLANS MATURE FOR SENIOR FUN FESTIVAL

Program for St. Valentine's
Day Entertainment
Announced

REFRESHMENTS FOR PARTY

"Bring your Valentine to the Senior Party" is the slogan advocated by the committee in charge of the Senior Vaudeville and Dance which will be held in main hall, Walker Memorial, Wednesday evening at 8 o'clock. Since the affair is to take place on Valentine Day, the spirit of St. Valentine will pervade the party.

From 8 until 10 o'clock there will be vaudeville entertainment, which will be followed by dancing lasting until 1 o'clock. A. W. Bridges, of the Walker Memorial Dining Service, has promised that refreshments consisting of ice cream and cake will be obtainable at a small cost in North Hall after the vaudeville while the main hall is being cleared for the dancing. Since the party is absolutely free, the committee has found that it will be impossible to provide refreshments.

Vaudeville Program
The program will contain the following acts:

Pathe News; Eccentricities with Wood—L. M. Littlefield '23; Prima Donna with New Songs—J. D. Cochran '23; Patter and a Five String Drum—J. L. Liecby '23; A New Presentation of an Old Plot—Course IV; Favorite of All Time—F. D. Gage '23; Who Knows What This Will Bring Forth? Humor with a Capital H—J. P. Keegan '23; Piano Selections—C. F. Lyman '23; Something to Close the Show—W. C. Groce '23, E. H. Schmitz '23, and C. A. Thomas '23; Harold Lloyd Comedy.

Four hundred and fifty tickets to the affair were distributed to Seniors at the booth in the main lobby three weeks ago. These tickets were free and each admits the Senior and a lady guest. Admission the night of the affair will be by ticket only.

Twenty-five ushers representing the dorms and the fraternities have been selected.

TWO COMPANIES TO SHOW PICTURES FOR CORP. XV

Plans Being Made for Society's
Spring Trip

Tuesday afternoon under the auspices of Corporation XV moving pictures on the "Story of Abrasives" will be shown in room 5-330 at 3 o'clock. These have been furnished by the Carborundum Co. Two weeks from Tuesday, February 27, pictures on the manufacture of tools will be shown by the Starrett Company. These also will be in room 5-330 at 3 o'clock.

Corporation XV is now sending men through the classes urging them to sign up for the Corporation's spring trip. This trip will leave Boston March 14 and stops will be made at Holyoke, Springfield, Hartford, Conn., and New York City, where the men will be banqueted by the N. Y. Tech Club. The trip will last four or five days.

CREW MEN ANSWER OPENING CALL AT MEETING TOMORROW

Coaches Stevens and Dellen-
baugh to Present Plans
for Indoor Work

ATTEMPT TO GET MORE
WEIGHTY CANDIDATES

New Equipment Makes Hand-
ling of Large Turnout
Possible

After a busy and successful time chasing new equipment, the next step of the crew management is to round up some big men to use the new outfits, so the first meeting for prospective oarsmen will be held tomorrow afternoon in room 5-330 at 5 o'clock. Both Coach Stevens and Coach Dellenbaugh will be there to give the men the dope on plans for an immediate start on the machines.

For a long time the biggest drawback that the Institute crews had to meet was lack of equipment and room, but now with the acquisition of the boat-house and a whole shipment of new equipment, this factor is no longer to be considered. The materials are there, a good schedule is fixed, and all that is left is that the necessary big fellows come out.

Three Varsity Men Back
Only three of the old varsity eight, Captain Greatwood, John Brill and Dick Eaton, are back again and eligible, while almost all of the second boat and the 150 pound eight will be on deck. However, since many of these oarsmen are light, this year's varsity will be made of new material for the most part.

With the present plans of getting on the machines right away and running on a three day a week schedule a green man should be able to take care of himself in a boat as soon as the river is ready and should have a chance at any of the crews.

There are to be three varsity boats, two 150 pound crews and two freshman crews, as well as the four class crews and a boat of ineligibles. The schedule includes races for all of these boats, and all the men not retained on any of the regular shells will be eligible for the class eights. The Boat-house Committee is making plans to take care of any man who wants to row or who is left over by forming fours or eights to row at odd times.

Plenty of Single Shells

There is a big bunch of single shells on the racks and by making arrangements with the committee any man can get some exercise and practice in them. A series of single scull races is being planned to take place when the class boats race for the Richards cup, late in the season. This year something new is promised in the shape of a gold medal for each member of the winning class crew, on which is to be a design of crossed oars and a copy of the big cup, with the owner's name engraved on it.

In all, there is room for more than 100 men this season, and it is expected that the undergraduates will come out and make things hum. Various advertising schemes will have been devised by the management, one of which is a single hung up in main hall, Walker, marked with the sign, "Come out and Try to Row This."

M. E. SOCIETY TO VISIT CHARLESTOWN NAVY YARD

The Charlestown Navy Yard is the destination of the Mechanical Engineering Society's next trip which occurs Friday, February 16. The members are requested to sign up on the Combined Professional Societies' bulletin board. The party will leave the information side of the lobby at 2 o'clock. F. S. Hungerford '24, is in charge of this trip.

CALENDAR

Tuesday, February 13
3:00—Corporation XV movies, room 5-330.
Wednesday, February 14
8:00—Senior Class dance, main hall, Walker.
Friday, February 16
7:30—Sophomore Smoker, main hall, Walker.
8:00—Technology - Harvard - Princeton Gym meet and dance, north hall, Walker.
Tuesday, February 27
3:00—Moving pictures by Starrett Co., room 5-330.
