

CARDINAL AND GRAY GYMNASTS DEFEAT HARVARD AND PENN

Triangular Opener Captured by Institute Team, 29-14-12

The Technology gymnasts easily outrated Harvard and University of Pennsylvania to a 29 to 14 to 12 victory, Friday night, in Walker gym, in the season's three-cornered opener.

The Pennsylvania team was handicapped by the absence of three of its members, being left without any entries in the horse or the tumbling events.

Engineers Win on Horse The horse event was a complete run away for the Institute team, its three men getting first, second, and third places.

ROGERS MEN GIVE "FETE CHARETTE" AT HARVARD

Members of Course IV will give a "Fete Charette" in conjunction with the Harvard University School of Architecture at Hemenway Gymnasium, Harvard, on Thursday.

An actual pageant involving the whole personnel of both schools will be given as well as several special features and vaudeville.

STEEL COMPANY OFFERS NEW EMPLOYMENT PLAN

Of special interest to students in the Metallurgical department at the Institute is the recent announcement made by the Bethlehem Steel Company concerning a "probationary observation circuit" for college graduates applying for positions with them in June.

SHOW PHOTOGRAPHS TAKEN AT ROGERS

Six Musical Numbers Being Rehearsed—Costumes Ready

The pictures of the cast, chorus, and ballet were taken yesterday at the Rogers Building. The orchestra was photographed last week and the management picture will be taken after the final cuts have been made.

The costumes for the men were ready for the pictures, and when the music is finished, all of the various parts of the show will be ready for assembly.

DELEGATES FROM T.E.N. LEAVE FOR CONVENTION

Engineering College Magazines Associated Holds Third Annual Meeting

F. G. Harmon '23, General Manager of the Tech Engineering News, and W. F. Donovan, Jr., '24, Advertising Manager, have left for the University of Illinois, where they will represent T. E. N. at the third annual convention of the Engineering College Magazines Associated.

Problems of advertising and circulation were taken up at this convention, and regulations formed concerning present and prospective members of the organization.

The Engineering College Magazines Associated is a group of 18 technical school magazines founded by R. A. St. Laurent '21, who was then General Manager of THE TECH and T. E. N.

CORP. XV TO HEAR TALK ON NEW WAGE SYSTEM

A new system of paying employees in a way designed to relieve one of the engineer's greatest problems, the problem of capital and labor, will be discussed at the Corporation XV smoker tomorrow evening in the Faculty dining room at Walker at 7:45 o'clock.

TOURAINO ORCHESTRA AT NEXT DORM DANCE

The Touraine Orchestra will furnish the music for the next Dormitory Dance which will be held in Walker on Friday evening, March 2.

ALL COURSE VIA A MEN MEET THIS AFTERNOON

To Discuss Course Co-operation and Fellowship

Course VI-A is holding a meeting this afternoon in room 10-200 at 5 o'clock for the purpose of discussing ways and means for furthering a closer co-operation and a spirit of fellowship among its members.

It is probable that plans for a smoker or "get-together" in the near future will be made. Also, Dean Talbot has consented to speak on the subject of social spirit as applied to this course.

As many of the men feel that something should be done in this respect, it is hoped that every member of the course, from all classes, will attend this meeting.

GREEKS REMEET IN BIG CHARIOT RACE

Phi Betas and Theta Deltas Rechallenge to Race at Circus

ALL ACTIVITIES PERFORM

"Great minds run in the same channels." Representatives of the two fraternities that held the thrilling, blood-curdling, awe-inspiring chariot race at the circus last year were hastening toward each other armed with challenges, when, rounding a corner of the building, they met.

All the activities, professional societies, and fraternities will present features for the entertainment of the student body of the Institute when the Tech Circus presents its big two ring attraction in Walker, March 1.

HARVARD MILE RELAY RACES TO SEVEN YARD WIN OVER ENGINEERS

Crimson Quartet Victorious in K. C. Event, Getting Revenge for Setback at B. A. A.

After a neck and neck race for more than three quarters of the contest, Harvard's mile relay pulled away from the Technology team and the crimson anchor, Billie Burke, had seven yards to spare when he dashed across the finish line at the K. of C. Games, Saturday night.

This result upset the happenings at the B. A. A. games, where Technology defeated the university four after Burke had skidded on the final turn.

Ray Holden grabbed the stick from Tench and set out after Vin Chapin. The Engineer ran a top notch race coming up even with the university runner and in a final spurt jumped in ahead of him.

Burke ran a perfect race against Glen Bateman catching the Technology man and leading him to the tape. The time was 3 minutes 14 seconds.

STYLUS HEARS WINWARD PRESCOTT AT MEETING

At a dinner meeting of the members of Stylus held last Tuesday night in the Louis Cafe, Winward Prescott, instructor in the English and History department and an honorary member of Stylus, talked on the journalistic policy of THE TECH and how it could be improved.

RADIO STATION WORKS CHICAGO WITH 5 WATTS

H. W. Lamson Speaks at Meeting of M.I.T. Radio Society Next Wednesday

About 8:20 o'clock Tuesday evening the M. I. T. Radio Society's station was in communication with radio 9UU, in Chicago, using the low power CW set, with a radiation of only half an ampere.

The low power CW set, which accomplished this transmission, uses one Western Electric VT-2, with 600 volts direct current on its plate. Its radiation is 0.5 amperes, which represents an output of a little less than five watts.

Institute Graduate To Speak H. W. Lamson '15, of the General Radio Company, will be at the meeting next Wednesday to describe a new marine detector which is being developed for use in the navy.

Two comedies have been obtained for the meeting, and Mr. Lamson's lecture will be illustrated with slides. Since the device which is the subject of the lecture is being developed for the navy, the Radio Society extends a special invitation to naval men to attend the meeting.

SOPHS HILARIOUS AT GLASS SMOKER

Addresses by Dean Talbot and Prof. Rogers Draw Applause

REFRESHMENTS SERVED

"I wish it were part of the requirements for matriculation that each student should realize the heritage which has come down to him from the men who have made the Institute what it is," said Dean H. P. Talbot '85, in a talk on Technology traditions to 500 Sophomores gathered at their first class get-together in Walker Memorial last Friday evening.

Perhaps the most novel feature of the smoker was the program, which was headed "Time Table—M. I. T. Railroad" and which revealed that the smoker was to be run off in the approved smoking car manner.

Professor R. E. Rogers was introduced and advanced to the platform fingering one of the cigarette holders which were distributed as favors. He remarked that he had always stoutly maintained he would hate to be found dead at a dog fight with one of the things, but that he now knew what they are good for.

Doctor Stratton was called to Cleveland upon Institute business and was unable to speak. Miss Priscilla Clark spoke for a few minutes upon the Good-Will Drive and what was being done to send Technology's candidate, Miss Marjorie Pierce '22, to France.

BROWN FIVE LEAVES TECHNOLOGY TEAM 14 POINTS BEHIND

Bruin Players Step Out to 34-20 Win Over Engineers

Brown University handed the Technology basketballers their second home defeat of the year when it rang up 34 points to the Engineer's 20, Saturday night in the New Gym. The teamwork of the Institute passers was somewhat frayed at the edges, while the Brown Bears showed improved form, particularly in the second half, due to the return of Mitchell and Bacon to the lineup.

Mike Miller broke the ice with a double decker a few moments after the opening whistle. Captain Joslyn of Brown tossed a foul and his team took the lead when Wagenknecht scored from the floor. Mike knotted the count on a free throw but the Bruins again went to the fore on Dugan's perfect shot.

Engineers Miss Shots The Institute dribblers had loads of shots during the remainder of the half but were unable to put the ball through the basket. Mitchell thrilled the crowd with an underhand toss from the middle of the floor, following it with an easy sleeper which raised the Providence representatives' tally to nine.

Coach West substituted Skinner at center and Davidson for Miller at forward, in the second half. The game speeded up noticeably and the stands showed their appreciation by again rendering Technology's two cheers. At this juncture Cub Hubbard collided with the end wall and turned his ankle.

Miller Returns to Game With the second period half gone Technology took a time out. Mitchell (Continued on Page 4.)

SCHOLARSHIP OFFERED TO MINING STUDENTS

The Woman's Auxiliary of the American Institute of Mining and Metallurgical Engineers are offering their third scholarship in this branch of engineering. This scholarship has a value of \$500 per annum, beginning September, 1923, and is open to any American citizen seeking a degree in mining, metallurgy or both. It is renewable yearly until graduation.

CALENDAR

- Monday, February 19 5:00—Course VI-A men meet in room 10-200. 6:00—Musical Clubs dinner, north hall, Walker. Tuesday, February 20 7:15—Menorah Society meeting, north hall, Walker. 7:45—Corporation XV smoker, Faculty dining room, Walker. 8:00—Math Club meeting, west lounge, Walker. Wednesday, February 21 8:00—Latin American Club dance, north hall, Walker. Friday, February 23 8:00—Cosmopolitan Club dance, main hall, Walker. Saturday, February 24 8:30—New York City Club dance, north hall, Walker. Monday, February 26 7:45—M. I. T. Signal Battalion smoker, room 5-330. Tuesday, February 27 8:00—Moving pictures by Starrett Co., room 5-330. 7:30—Chemical Society smoker, north hall, Walker. Wednesday, February 28 6:00—Catholic Club dinner, north hall, Walker. Thursday, March 1 5:00—Tech Circus, Walker. Friday, March 2 8:00—Dorm dance, main hall, Walker.
