

**A SMILE WINS**  
(Continued from Page 2)

the fleecy white clothing of sheep. The "ads" I liked better. And the typography of "A Speculation" was chaste and lovely; the printer's taste seemed so impeccable. "Consolation" was prettily typed, too, and the girl was "easy to look at."

So we read, several pages together, that boy and I. He still smiled, smiled even when I remarked dismally and despondently that of course it was sad, but that could hardly be what he wanted me to say. He saw no reason why not; but he as young, I felt, and could know less than I of the crushing disdain of the artist for those who sit without the shades of Rogers.

Just then I turned another page—truly it is darkest before dawn, for there was Mr. Wiggs' tragic-comedy of Fancy versus Fact, "As Isn't, and As Is." And on the very next page—at one fell swoop, so to say—were three or four genuine chuckles; and on the next St. Peter's Polite Words and His reply to Her; and at the medical student's answer we laughed together, that smiling boy and I. It was somehow so Technological!

And then I had to run for a car. But I took the newest issue of Voo Doo with me, determined to try it all again when, having had dinner, I should feel in gayer mood and have forgotten the wildness of that smiling boy.

**MAY MAKE OFFICES IN WALKER GYMNASIUM**  
(Continued from Page 1.)

cerning M. I. T." reported that it had been decided that for this year it would be best to include a chapter on undergraduate activities in the General Information Bulletin. Bursar Ford has expressed himself as in favor of this. The Institute Committee voted to appoint a committee to prepare the material for the chapter.

**Intercollegiate Conference Up Again**  
Six colleges are planning to take part in the Eastern Intercollegiate Conference, and are to send representatives to a preliminary conference in New York tomorrow to determine if there are a sufficient number of problems to warrant the calling of the main conference the latter part of April. It was voted that the president of the Institute Committee and one other appointed by him should represent the Institute at this conference.

The Alumni Council has appointed a committee to consider the needs for offices, recreation rooms, etc., and to make recommendations for the conversion of the present Walker gym into two stories of rooms for student activities. The appointment of the heads of the activities and the professional societies as a student committee to work with the Alumni Council was approved by the Institute Committee.

It was voted to appoint a committee to recommend amendments in the constitution of the Institute Committee. Those absent from today's meeting were E. A. Adams '23, and T. B. Drew '23.

**TECH SHOW MAKES GOOD IMPRESSION ON FIRST TRIP**  
(Continued from page 1)

tute men, was largely made up of people who did not know our traditions and customs. Their appreciation of the performance was a real tribute to the work of the men and the quality of the production.

The Hartford papers in their reviews have emphasized the fact that there was a plot as well as good music. There was comment and amusement at the impersonations of the feminine but that can not be avoided and in all cases it was directed at the clever mannerisms rather than at their awkwardness.

**Said to Be Best of Shows**  
In New York the spectators were almost entirely connected with Technology in some manner. Here again there was unqualified approval of the work. Several members of former shows have expressed the opinion that this was the best thing that has been done in the way of a Tech Show.

Appreciation has been expressed in all quarters at the behaviour of the men while on the trip. It has been declared to be the quietest and most orderly trip that the show has ever made. The men seemed to feel the responsibility of their position and remained in possession of their faculties throughout.

The next performances are to be at the Opera House in Junior Week. Rehearsals will begin next week to keep the men in shape for these dates. The chorus and ballet will receive particular attention that they may improve on their team work.

**CLASS OF 1893 TO MEET ON THIRTIETH BIRTHDAY**

The Class of 1893 is holding its thirtieth reunion in Boston on June 8, 9, and 10. The plans include a luncheon, fancy dress dinner party, sports, and a special class dinner. The announcement says: "Bring your wife, if you have one. The more ladies the merrier." A thirty-year class book is being issued, for distribution at a future date.

**Notices and Announcements**

**OFFICIAL MILITARY SCIENCE.**

Men planning to attend the advanced R. O. T. C. camps this summer should present themselves at the Clinic next Saturday for the first typhoid inoculation.

**UNDERGRADUATE T. C. A.**

Bible Study Class meets today, Mt. Vernon Church (vestry) at 5:10 o'clock. Discussion led by M. H. Finley '24, "Evolution—Can We Reconcile Science and Religion?"

**COMBINED SOCIETIES**

Matt Brush '01, will address the Combined Professional Societies on next Wednesday evening, at 7:45 o'clock in the main hall of Walker Memorial.

**INTERCOLLEGIATES BALL.**

The Easter Intercollegiate Ball will be held in the Hotel Pennsylvania, New York City, April 3. Tickets will be sold at the door at \$4 per couple. Music by Ferncroft Orchestra.

**M. E. SOCIETY**

The Mechanical Engineering Society will hold an illustrated lecture on the manufacture of iron pipe, at 4 o'clock this afternoon in room 5-330.

**MUSICAL CLUBS**

All members of the Combined Musical Clubs are requested to be present at the Waltham Concert Saturday night, March 24. Car leaves Massachusetts Station at 6:45 o'clock. Change at Newton Corners for Waltham. There will be a meeting of the Combined Musical Clubs in room 10-250 Tuesday, March 27, at 5 o'clock.

**CHINESE STUDENTS**

The Chinese student soccer team will hold a meeting in the Faculty and Alumni room, Walker Memorial, tomorrow afternoon at 2 o'clock. Following the meeting the basketball team will journey to Lowell to play the Lowell Y. M. C. A.

**Yale Supports French Policy.**

Yale undergraduates decided by a three to one majority in a straw vote held by the Liberal Club that the French were justified in their occupation of the Ruhr district.

**HOW DO YOU BUY YOUR CLOTHES?**

Why buy ready made clothes at high prices when you can get a fine, all-wool, tailored-to-your-individual-measure suit or top coat for

**\$23.50**

guaranteed as to **STYLE, FIT, QUALITY** and **WORKMANSHIP**. The new Spring styles and fabrics are in.

Our direct selling plan may not, perhaps, be thoroughly understood by the public until they realize that through the medium of dealing directly from maker to wearer we eliminate unnecessary middlemen's profits and sell at a much lower price than could be obtained through any other channel.

If you cannot get in during the day an expert Nash tailoring representative will call at your home or office day or evening. A postal or phone call will bring him with samples.

One thousand suits a day are made for Nash patrons. Some of our C. O. D.s are unclaimed; maybe just what you want among them. It will pay you to look, at

**Teaching Engineering—a Real Man's Work**

"Why are you satisfied to spend your days here when you might be doing bigger and more remunerative work with us?" The speaker was the Vice President of a big corporation, and he was addressing a great chemist.

The man to whom he spoke looked from his study window out over a well-loved campus for several moments before he replied. Finally his answer came, "I guess it's because I am more interested in helping to make *men* than I would be in just making *things*."

This thing of building men is one of the most fascinating vocations known. The pleasure that grows out of watching men develop, out of seeing them make effective use of the fundamentals that have been so carefully given them to use—it is doubtful if there can be any pleasure much deeper or more satisfying.

The teacher honors himself in the usefulness of his students. And the teacher of engineering, especially. His laboratory and his materials are in the minds of men. He shows them the right and constructive use of the senses and the memory in securing and storing information. He trains the judgment and the will to analyze and to decide. Little by little he develops the will to do, the ability to turn decision into accomplishment, the quality that always marks the successful engineer, who is a man who gets things done.

Westinghouse, and every engineering business, must acknowledge a deep obligation to those teachers whose training and interest have been an inspiration and a sure foundation for the individual successes that are constantly being recorded. And nothing that men or events may do can deprive the teacher of his rightful share of such triumphs!
