

M. C. BRUSH '01, TO TALK IN MAIN HALL TONIGHT
(Continued from Page 1.)

student. He was easy to meet and was always singing. He had a very good tenor voice and used it quite a bit."

While he was in school he was not very well off and worked in the summer as purser on a lake steamer and there he made many acquaintances which were of great value to him later. His quick rise after leaving the Institute was quite unusual. He went West for a time where he advanced from a cleaner in a round-house to a position of considerable importance on the same road. From there he came East and did street railway work which eventually led him to the position of General Manager of the Boston Elevated Railway Co.

Spoke to Faculty

When the work at Hog Island was started he went there as Manager and since then he has been President of the American International Shipbuilding Corporation and Vice-President of the American International Corporation.

It is told of him that when he first became connected with the latter company he had charge of all their dealings in tea. At that time he said that he had never seen tea except in a cup and so he had to go down town and look around the wharfs to see what tea looked like that he might recognize the product he was dealing in.

He lectured to the members of the faculty about a year ago and at that time he said that he was looking for a man that could hold down a \$40,000 position and he had been looking for some time.

GET BODY FROM RIVER NEAR FRONT OF WALKER

Recovering from the Charles River the body of a drowned man, was the occasion of slight commotion at Technology pier, about 9 o'clock yesterday. The body was found close to the north bank a little below Walker, and gave evidence of having been in the water some time, as it was already beginning to decompose. The medical examiner believed the man to have been about forty-five years old, but was unable, at the time, to give any probable cause for his death.

DORMS REFUSE TO ELECT WITHOUT CONSTITUTION
(Continued on Page 4)

drawn up by them. The following passage from the constitution makes this statement:—"Let it be known that the Institute Committee of the Undergraduate Association by virtue of power vested in it does hereby organize a Committee from the Students residing in the Dormitories." That the Dormitory Committee is subordinate to the Institute Committee is made evident in various places as all elections, amendments, and cases of discipline are subjected to the final action of the Institute Committee.

Method of Elections Different

The next most important change is the different organization and its method of election which has been instituted. Quoting from Sections I and II of Article IV the organization is described as follows:—"This committee shall consist of one Senior from each hall of the Dormitories, one of whom shall be chairman and ex-officio a member of the Institute Committee. "There shall be a Dormitory Executive Committee of five men." Previous to this time there has been a committee in each hall consisting of a representative from each class and an Executive Committee consisting of the Senior members of the hall committees who were chairman of their respective halls.

House Rules Changed

Previous to this the elections have always taken place in the beginning of the year, but this has been changed as follows:

"During the week previous to May 1, at the instigation of the chairman of the Dormitory Committee a meeting of the resident Seniors shall be held in each hall of the Dormitories at which time three resident Juniors who have applied for Dormitory residence in that hall for the ensuing year shall be nominated for the office of chairman of the hall. On a certain day prior to May 1 designated by the chairman of the Dormitory Committee an election by written ballot, resident Seniors not voting, shall be held in each hall for the election of the chairman of the hall."

One of the other important changes is that the House Rules have been made a part of the Constitution and cannot be changed except by a two-thirds vote of the Dormitory Committee and ratification by the Institute Committee. One of the house rules has been changed to the following:—"Women shall not be permitted in the Dormitories until a suitable reception hall is provided and then only under regulations to be determined." The other house rules are practically the same as before.

WORKERS ORGANIZE FOR FAIR TREATMENT

Union Head Says Employers Want Only Skill and Energy —Not Humans

"The refusal of employers to consider their workmen as human beings causes laborers to organize," S. J. McBride told Professor C. W. Doten's class of Seniors in Industrial Relations Monday. Mr. McBride is president of Local 13, Boston Typographical Union and was presenting the case of the workers, showing why and how they have to organize.

He explained that under the factory system the worker must accept less than his fair share of the reward from production, pointing out that labor creates what value the finished product has. He told that modern industry has no responsibility for the worker and demonstrated that the work of the labor leader is to keep his men employed.

Next week W. H. Sayward, secretary of the Master Builder's Association of Boston, will present the case for the employers.

T. C. A. Elects Friday

The last meeting of the Technology Christian Association Cabinet will be held Friday at 5 o'clock in the front office to elect new officers.

The following nominations have been made and accepted:—for president, W. W. Quarles Jr. '24, A. W. Rhodes '24, and J. E. Jagger '24; for vice-president, Denton Massey '24, W. W. Quarles, Jr. '24, and A. W. Rhodes '24; for treasurer, W. H. Correale '24, and R. L. Holt '24.

The retiring cabinet is composed of R. H. Frazier '23, H. J. MacMillan '24, J. J. Parsons '24, W. M. Ross, Denton Massey '24, H. L. Hazen '24, W. H. Correale '24, A. W. Rhodes '24, C. M. Phelps '24, H. O. Tappan '23, R. L. Holt '24, A. S. Redway '23, J. E. Jagger '24, Bernard Gasser '23, R. E. Swift '24, C. H. Hubbard '23, D. H. Keck '24, H. W. Lewis '24, W. E. May '24, and B. M. Mossman '23.

48 COLLEGES WILL GO TO PENN CONFERENCE

Forty-eight universities and colleges east of the Mississippi will be represented at the second Intercollegiate Conference on Undergraduate Affairs which is to be held at the University of Pennsylvania April 26 to 28, at the same time as the Pennsylvania Relays. The first conference met here at Technology two years ago and was presided over by W. R. Barker '21.

FACULTY AND ALUMNI ARE FOR DORMS

(Continued from page 1)

agreed that the gymnasium should go out of Walker entirely." Plans for the extension of the gym facilities now available in the hangar were offered by Dr. Rowe, and charts illustrating the present conditions were exhibited. Included in the ultimate plans were the erection of the new gymnasium, containing a swimming pool, stands, and all possible facilities, which were planned to take the place of the temporary quarters of the hangar.

Have Only 1.2% Floor Space

While the Walker Memorial was designed with a view of housing all the student activities, a percentage calculation of floor space in the building indicates that the dining service occupies over 46 per cent, that other functions occupy space in proportion, while the publications are allotted but 1.2 per cent, and the remainder of the activities but one half of one per cent. Dr. Rowe's plan of removing the gym would increase the activity space to 20 times its present size, and would allow for the construction of over 25 offices of the third floor of Walker.

J. W. Rollins '78, chairman of the committee which has been considering the extension of the dormitory system, offered some very pertinent facts regarding the situation. It is very doubtful whether dormitories will ever be erected on the Institute property, due the lack of available space, but the committee has been active in investigating other sites, and reports that there are many choices available within half a mile of the buildings.

The financial question, which has proved to be a second bug-bear of the situation, was another subject of discussion. Figures from accurate sources agree that it will cost about \$2675 per man for the erection of suitable dormitory accommodations, or about \$400,000 per unit, each unit to house 150 men. The matter of raising the funds for the erection of three such units was considered in detail. Ways and means simmer down to two: the money must either be put up by the Corporation, from endowment or by the sale of bonds, or else must be solicited outside.

Mr. C. E. Morrow '12, who treated the financial side of the matter, was

Delinquent Student Pays Bursar \$5 Fine in Providence Train

H. S. Ford, Secretary of Bursars' Union, Back from Princeton

Bursar H. S. Ford feels in need of a body-guard, things having come to such a pass that people accost him in the railway train for the purpose of handing him five dollars. As he was returning Sunday from a weekend trip to Providence, he heard a voice over his shoulder, "Hello, Bursar Ford. Just the man I am looking for. I'm on my way up to Boston now to pay you five dollars." It was a belated student on his way back from the spring recess bemoaning the consequences of late registration.

Bursar Ford who is secretary of the Eastern Association of University and College Business Officers, went down to Princeton to confer with the Comptroller there, the president of the organization, in regard to a meeting of the body next May at the Carnegie Institute of Technology in Pittsburgh. He also stopped at Philadelphia to see President Frank Aydelotte of Swarthmore College. President Aydelotte was a professor in the Department of English Literature at the Institute a few years ago and is now chairman of the committee of Rhodes Scholarships. Swarthmore is an old, co-educational, Quaker college with a present enrollment of exactly 250 men and 250 women.

DR. S. W. STRATTON FAVORS CHANGING GYM
(Continued from Page 1)

There are only two things to be done: either move the athletics out of the building or move out the other activities. It seems to him that it will be best to move athletics, for the publications and other activities will lose if they are moved out. Also, it is highly desirable to have more lounges and a number of committee rooms so that the fellows won't always be being excluded and prevented from sitting down and smoking and conversing because of some meeting which is to be held.

G. F. Nesbitt '23

Activities need more space and it is a question of converting the gym or putting up a new activities building. As it is, ample space for activities may be obtained, there will be room for another lounge and the new gym over in the hangar will have a larger floor space than the old one.

of the opinion that the money could not be raised among the graduates. The possibility of making the dormitory fund the object of philanthropy of a few individuals was also discussed, but as Mr. Morrow said, "before such an idea can be effective, a definite plan must be put forward by the Corporation."

Carlson Optimistic

Contrasted with Mr. Morrow's pessimistic view of generosity of the alumni body in such a matter, was that expressed by President J. Carlson '91, of the Alumni Association, who drew prolonged applause by his declaration that he felt the alumni could be counted on to come through with the necessary support. Dr. Stratton was of the same opinion. He said, "I do not believe it will be difficult to raise the money after we have a definite objective in view. We must rely in team-work in this as in all other big affairs. I have already made several recommendations to the executive committee in line with those offered tonight, and I pledge my support in the supporting of the project."

Bursar H. S. Ford, who will of course hold the strings of the pocket-book for any of the proposed projects, was emphatic in his statements that dormitories constitute one of the most imminent needs of the Institute. His statement that "there is just one kick to be made against the present dormitories—and that is that there aren't half enough of them," entirely expressed the sentiment of the evening. The cost of the dormitories would, of course be large, but Mr. Ford's opinion was that an average cost of \$5 per week per student was the limit that should be charged, and he also stressed the importance of including in each room an outside telephone, which he considered a necessity under the present conditions.

While the matter of actually deciding on the location and erection of both dormitories and gymnasium is still high in the air, the work done by the committee in charge is to be highly commended. The work on the dormitory plans, under the direction of Mr. J. W. Rollins '78, who has been assisted on the committee by A. F. Bemis '93, and C. E. Morrow '12, has given a definite footing to start with, and only the decision of the executive committee is necessary to start the ball rolling.

Notices and Announcements

UNDERGRADUATE

SPRING CONCERT SIGNUPS
This is the last day to get a sign-up for the Spring Concert to be held at the Hotel Somerset on April 19. The signups can be purchased for \$3 in the main lobby from 12 to 1 o'clock. These are to be redeemed later for \$3.

CHEMICAL SOCIETY

A joint smoker will be held by the Technology and Boylston Chemical Societies in the main hall of Walker Memorial Friday evening. Dr. G. J. Esselton will talk on "Business Chemistry."

TECHNIQUE SIGNUPS

Technique signups must be redeemed some time this week in the main lobby between 9 and 2 o'clock. The redemption price is \$2.50. Books paid for now may be obtained immediately after the Technique Rush on April 19. Signups for books not redeemed this week will not be ready on April 19, but may be redeemed any time before May 1. Names in gold may be put on the books for fifty cents extra.

RADIO MEETING

J. C. Warner of the General Electric Company will address Greater Boston amateurs tomorrow evening in room 5-330 at 8 o'clock.

TECH SHOW TICKETS

Applications for tickets for the Boston performance of Tech Show will be received at the booth in the main lobby beginning at noon on Thursday, April 5.

TECH ENGINEERING NEWS

Competition for all departments of Tech Engineering News will commence the latter part of this week. All candidates see M. P. O'Brien '25, personnel manager, in room 27 Walker, between 4 and 5 o'clock today.

MATH CLUB

Professor C. L. Moore is to speak on "Dynamic Similarity" at the next meeting of the Math Club which is to take place in the West Lounge tomorrow evening at 8 o'clock. J. A. Buckler '24, will also give a brief talk on "The Theory of Probability and Method of Least Squares." Newcomers will be elected and a constitutional revision will be discussed.

JUNIOR PROM SIGNUPS

Signups for the Junior Prom will be redeemed next Monday and Tuesday between 2 and 3 o'clock in the Main Lobby. The redemption price is \$6 with chaperone tickets at \$5. Preliminary dance orders can be obtained at this time.

FINANCE COMMITTEE

There will be a meeting of the Executive Committee of the Finance Committee tomorrow at 5 o'clock in the Institute Committee office.

T. C. A.

The last meeting of the present cabinet will be held on Friday, March 30, at 5 o'clock in the front office of the T. C. A.

OUTING CLUB

The Outing Club is to meet next Saturday at 1:45 o'clock at the North Station Information Bureau. There will be two hours of riding through the Middlesex Reservation. Expense \$2.50.

NEW YORK CITY CLUB

There will be a meeting of the New York City Club next Saturday at 1 o'clock in the Faculty and Alumni room, Walker.

TECH SHOW REHEARSALS

Ballet: Tomorrow, North Hall, at 5 o'clock.
Cast: Saturday, March 31, at 3 o'clock.

SIGNAL BATTALION

Smoker in North Hall, Walker, at 7:30 o'clock next Friday evening. Technology Signal Battalion will en-

ertain sophomores of all electrical courses.

OFFICIAL

AMERICAN LITERATURE
Professor Rogers is offering an extra General Study, American Literature GS43, at the following hours: Tuesday at 12 o'clock, Wednesday at 1 o'clock, and Thursday at 12 o'clock in room 2-290.

SCHOLARSHIPS

Application for scholarship aid for the school year 1923-1924 must be left at room 3-103 on or before Saturday May 5. "Application for Scholarship" blanks may be obtained at room 10-100. Students are advised to read over carefully the qualifications for such aid.

COURSE XV

Seniors must turn in blue class cards for thesis or their registration therein will be cancelled.

COURSE VII

National Fishing Equipment Exposition held at the Army Base Pier, So. Boston, during the two weeks from March 26 to April 7. A party of students and instructors in Course VII will visit the Exposition next Saturday. The party will meet promptly at one o'clock in the Anatomical Laboratory, room 10-479. A limited number of tickets are available, through the generosity of the management, for any students in other courses who may wish to join the party.

DEPARTMENT OF BIOLOGY

A series of lectures on "Propagation of Food Fishes and Hatchery Operations" will be given in the Department of Biology. The hours which are scheduled, but which may be subject to some modification, are as follows: Monday, Wednesday and Friday 12 to 1 o'clock; Tuesday and Thursday 10 to 11 o'clock.
