LAW STUDENTS
THE BOSTON
UNIVERSITY LAW
SCHOOL

Trains students in principles of the law and the technique of the profession and prepares them for active practice wherever the English system of law prevails. Course for LL.B. requires three school years.

Beginning in the Autumn of 1923, one year in college will be required for admission. In 1925, the requirement will probably be two years in college.

Special Scholarships \$75 per year to college graduates.

No Lectures
But Daily Conferences

At Babson Institute they make a business of teaching business to college trained men who wish to fill positions of responsibility and trust without spending years at routine work.

Standard office equipment throughout. No classes or lectures, but a business schedule of work from 8:30 to 5:00 o'clock, including daily conferences directed by men with years of business experience, and discussions with active factory and office executives at their plants. This removes the instruction from the hypothetical stage and helps the student to look at things in the same light as a man actually engaged in business.

Babson Institute, an educational institution *endowed* for the purpose of fitting men for executive responsibilities, invites you to send for the booklet, "Training for Business Leadership." Write today.

Notices and Announcements

UNDERGRADUATE

WALKER MEMORIAL COMMITTEE
Will run a dance, next Saturday from 3 to 6, to benefit the Student Friendship Drive. Orchestra not yet chosen.

CATHOLIC CLUB
Will hold communion breakfast at the Cathedral of the Holy Cross Sunday, April 8, after 9 o'clock mass. All Catholic students are invited. Rev. J. I. Corrigan, S. J., will speak. Following breakfast there will be short meeting.

NAVAL ARCH. SOCIETY
Smoker at 7:30 today in Faculty and Alumni room, Walker.

MINING SOCIETY
Meeting in North Hall, Walker, at 7:45 today.

CIVIL ENGINEERING SOCIETY
Will hear X. H. Goodnough, director and chief engineer of the Massachusetts State Department of Health, speak on "The Proposed New Water Supply System of Boston," north hall, tomorrow evening at 7:45. Major W. E. R. Covell '23, Corps of Engineers, will speak of the work of the Engineer Corps in France.

OUTING CLUB
Students who wish to take a cross-country walk, meet at the west-bound platform of Massachusetts Station next Sunday at 9 o'clock. Those who wish to take the horseback riding trip planned by the Club meet at North Station Information Bureau next Saturday at 2:00 o'clock. Signup lists for both trips are posted in the main lobby.

CHEMICAL SOCIETY
Will visit the Revere Sugar Refinery, tomorrow. Men going, sign up in lobby of building 4. Meet in lobby of Walker at 1.
Members invited to attend the dinner and meeting of the Northeastern Section, American Chemical Society, in Walker, Monday, April 9.

"GYM SHIFT FOOLISH"
(Continued from Page 1.)

statistics. The students are driven out of the lounging rooms by the various activities on an average of 15 times a week, and 11 of these times are around 5 o'clock. As shown by the accompanying chart, each man engaged in activity work, has only three square feet of office space.

Mr. H. E. Lobdell '17, chairman of the Advisory Council on Publications, said yesterday that the combined trust funds of the publications amounted to only about \$12,000, of which about \$3000 was tied up in furniture. He added that he could not say how much of the remaining \$9000 would be available, because the unanimous consent of the Advisory Council on Publications was necessary before money could be withdrawn from the funds.

BELL REPRESENTATIVES
HERE WITH JOBS OPEN

Employment representatives of the Bell System will visit Technology from today until Saturday to confer with seniors and graduate students concerning the various fields of work connected with the telephone industry.

W. E. Wickenden of the American Telephone and Telegraph Company, formerly Associate Professor of Electrical Engineering at Technology will act as chairman of the delegation.

The group will make its headquarters in room 4-431. The thirty organizations represented in the Bell System cover all sections of the country and a wide variety of activities. The opportunities presented are appropriate for men in Courses I, II, VI, VI-a, VII, X, XIV, and XV.

Mr. Wickenden, who spoke in room 10-250 yesterday afternoon, states that while practically every American university, college and technical school is represented in the Bell System roster, the Technology group is probably larger than that from any other institution. He says, "The contribution of this group to the engineering and business development of the telephone industry have been very conspicuous."

Ticket Sales

TECHNIQUE RUSH
Candidates must redeem sign-ups by 2 o'clock next Saturday to enter rush on April 19. A man will be stationed in the main lobby from 12 to 2 every day this week to redeem the sign-ups for \$2.50 each. Any purchaser so desiring may have his name printed in gold letters on the front cover by paying an additional fifty cents. The man in the lobby will have with him a sample of this volume's cover with a name on it.

TECH SHOW TICKETS
Applications will be received in the main lobby tomorrow at 12 o'clock.

DORM DANCE
Tickets for the dance next Friday can be obtained from E. H. Miller '23, Ernest Hosback '24, M. L. Ilfeld '24, and R. Y. Lassiter '24, for \$2. The dance will begin exactly at 8 o'clock instead of 8:30 as formerly.

Competitions

TECH ENGINEERING NEWS
Competition is open for Editorials Editor for Sophomores and Juniors. Also for Business and Editorial departments, all classes. Candidates see M. P. O'Brien '24, Personnel Manager.

CORPORATION XV
Nominations for 1924 officers are due on or before Monday, April 9.

DEBATING
All students interested are requested to communicate with F. R. Shaw '24, or A. M. Kallet '24, of the Speakers' Club at once.

ATHLETICS

TRACK MEN
Who have not signed up for the spring season are to do so before next Saturday, in order that the make-up of the team for the spring may be determined by that date.

BOATHOUSE COMMITTEE
Announces that tickets granting rowing privileges at the boathouse are available in the main lobby until April 10 and in the Bursar's office or from members of the committee. The price of the tickets is \$2.50 and lockers may be had from the Superintendent of Building and Power.

EUROPEAN STUDENTS
IN DIREST NEED

(Continued from page 1)

or woman student, while \$5 will give a substantial meal to 250 students.

To quote a letter from O. J. Fredrikson, a Dartmouth student who is at present in Russia doing Student Friendship Work: "Yesterday I went over to see a student who is laid up in the hospital. Lying on a dirty straw-stuffed bedding sack, covered with a single dingy blanket, he had every right to complain. Clothes he had sold for food and medicine, his whole property was right there, and the day before, so his pal told me, he had received a letter from his folks saying that they were unable to send him help."

The need for textbooks in the Universities is fully as bad. There is one case on record where an economics class of refugees had only one textbook for the 250 members. In many cases, hand transcribed extracts are put in notebooks and passed around the students, who use them in turn.

Because of the cost of transportation, gifts of money are preferred to those of books or clothing, although the committee states that nothing will be refused. The drive is to continue tomorrow, Friday, and Saturday. At the end of this time, the committee hopes to have raised a substantial amount of money.

Gifts of books or clothing may be left in the T. C. A. office.

SWIMMING TEAM SAVED
BY ADVISORY COUNCIL
(Continued from page 1)

Harvey Benson '17, said that he "thought it was a sport attracting the interest of a comparatively few students and evoking no great enthusiasm from any." The final decision was to investigate conditions, so that this year's faults should be eliminated before the 1924 season, stressing in particular the questions of coaching and training facilities.

After considerable discussion, Bill

Gurney was voted eligible for competition again this year under the Sanborn ruling. Bill started competition with Elmer in 1918, previous to the adoption of the three year rule for competition in athletics. He did not graduate from the Institute last year and is now back after leave of absence to get his degree, the question of his eligibility, now settled, immediately arising.

The council decided to award a cup to the winning class baseball team after the end of the season and have Professor Richards present the Richards Cup to the winning crew at the annual award dinner, May 9. Dr. Stratton is expected to be there.

The javelin mark of 154 feet set by H. R. Tonon '22, at the Harvard meet last year, was accepted as a record and the freshman track records compiled by Hank Pierce '20, are to be the basis on which medals will be given to future record breakers.

Because of the cost of transportation, gifts of money are preferred to those of books or clothing, although the committee states that nothing will be refused. The drive is to continue tomorrow, Friday, and Saturday. At the end of this time, the committee hopes to have raised a substantial amount of money.

Gifts of books or clothing may be left in the T. C. A. office.

Damon--
"What are you doing, Pyth-- writing Her another letter?"

Pythias--
"No--not this time. Something more to the point, as one would say. I'm writing the Pater to send me a dozen Eldorado pencils. They are all sold out down at the store."

SPECIAL ATTENTION GIVEN TO TECH STUDENTS

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY
Cambridge, Mass.

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY offers Courses, each of four years' duration, in Civil, Mechanical and Electrical Engineering; Naval Architecture and Marine Engineering; Mining Engineering and Metallurgy and Geology and Geological Engineering; Architecture and Architectural Engineering; Chemistry, Chemical Engineering and Electrochemical Engineering; Biology and Public Health and Sanitary Engineering; Physics, General Science and General Engineering; and in Engineering Administration. These Courses lead to the Degree of Bachelor of Science.

To be admitted to the first year class, applicants must have attained the age of seventeen years, and must satisfactorily fulfill entrance requirements in Algebra, Plane and Solid Geometry, Trigonometry, Physics, Chemistry, English, History, and French or German and one elective subject. Examinations are required in all subjects except Chemistry, History and the elective, the requirements for which are fulfilled by the presentation of satisfactory certificates. A division of those entrance subjects between different examination periods is permitted.

Entrance examinations are held at the Institute in September. In June, applicants will be examined by the College Entrance Examination Board in Boston, New York, Philadelphia, Chicago, and many other cities in America and Europe. A circular stating times and places is issued in advance by the College Board.

Graduates of colleges and scientific schools of collegiate grade, and in general all applicants presenting satisfactory certificates showing work done at another college corresponding to at least one year's work at the Institute, are admitted, without examination, to such advanced standing as is warranted by their previous training.

Graduate courses leading to the Degrees of Master of Science, Master in Architecture, Doctor of Philosophy and Doctor of Science are also offered. Special Research Laboratories of Physical Chemistry, Applied Chemistry and Science have been established.

PUBLICATIONS

Bulletins of General Information, Courses of Study, Summer Session, Advanced Study and Research; and the Report of the President and the Treasurer.

Any of the above named publications will be mailed free on application.

Correspondence should be addressed to

Massachusetts Institute of Technology
Cambridge 39, Mass.
