PICTURES THAT SHOW THE TECHNICIAN RUSHERS WHAT IS IN STORE FOR THEM

SIX pictures of last spring's Technique rush, which depict better than any former series the year's rush, will be heard by the Junior Men and Women at the Executive Council meeting next Thursday. The theme of the rush will be "The battle: upper right—The Stupefier Brief; lower left—Al. N. Ferguson '21 falls on first polari- lobe; lower center—the height of the fray; lower right—the start—a wild surprise. The event as usual will be the opening attraction of Junior Week, and will draw a crowd to the Great Court at 2 o'clock on Thursday afternoon. In addition to its technical supply, last year's contingent was cooled by a steady drizzle, which cut down the number of spectator but not the fury of the battle.

NOTICES AND ANNOUNCEMENTS

NATIONAL SCREW MEN PAY VISIT

At the invitation of Dr. Strauss the Institute laid as its guest last Friday a group of fifteen men from the American Screw Committee. These men, all most of whom are manufacturers, are now working on the standardization of the various screw threads, from the inside and outside rib work commonly used in manufacture.

Dr. Strauss described the work of the committee in the following words: "The American Screw Committee, was organized by Congress at the end of the last session. The work of the committee is to standardize the uniformity of practices is international. It has been several years since the work is being done, and it has been of the greatest assistance to manufacturers and at the same time of the greatest benefit to manufacturers."

Walker Memorial Dining Rooms
