

PICTURES THAT SHOW THE TECHNIQUE RUSHERS WHAT IS IN STORE FOR THEM

SIX pictures of last spring's Technique rush, which depict better than any former series the year book's annual brawl for paddles. Upper left—The Successful heroes; upper center—All set for the battle; upper right—The Snique Itself; lower left—H. S. Ferguson '23 falls on first paddle; lower center—The height of the fray; lower right—The start—a wet surprise. The event as usual will be the opening attraction of Junior Week, and will draw a crowd to the Great Court at 2 o'clock on Thursday afternoon. In addition to oil and artificially supplied water last year's contestants were cooled by a steady drizzle, which cut down the number of spectators but not the fury of the battle.

**ALL CLUES FAIL TO LOCATE MONTGOMERY**

(Continued from Page 1)  
 were missing, so it is certain that Montgomery did not board it at Providence. This was the latest clue found, and now that it has proved useless, there are at present no definite facts that the searchers to work on.  
 However, the agency is still working on the case, and also is keeping in touch with the police and hospitals of all cities where he might have gone. Radio broadcasting has been enlisted in the case, and two stations, WGI at Medford Hillside, and WBZ, the Westinghouse station in Springfield, are broadcasting Montgomery's description, in the hope that some one may report seeing him.

**CLASSICS NEGLECTED BY INSTITUTE MEN**

(Continued from Page 1)  
 Walker library show a little more profound interest than the desire to read up on the show so as to appear well informed to the young lady. In Walker a whole section has been devoted to the drama.

**Spring Causes Slump**  
 In the spring the circulation of the library takes a decided drop; the diamond and the baseball supplant the desk and the book for the normal student. Applications are now beginning to fall off for even the old favorites, Well's "Outline of History," Judd's "Psychology," Robinson's "The Mind in the Making," and Slosson's "Creative Chemistry."

Over at Walker the tendency runs largely toward the same type of reading, with the introduction of one new element—a distinct taste for the lighter and more spectacular in fiction. A glance at the "Reserved" section will assure one that most of the reading is along the lines of Scott Elliot's "Prehistoric Man," Luedendorf's "The General Staff," Chesterton's "Heretics," and "The Americanization of Edward Bok," beside the favorites of the main library.

**JUNIOR WEEK CROWDED WITH MANY ACTIVITIES**

(Continued from Page 1)  
 flying overhead, or shot from a gun to land on top of one of the buildings. How the first paddle will be given out this year remains to be seen.

**Dance Follows Battle**  
 Following the rush, Techniques will be distributed from the information office at 3 o'clock. From there the onlookers are expected to come over to Walker for the first real social event of the week, a tea dance, which is given free by the Corporation and Faculty.

That night comes the first Boston performance of Tech Show 1923 at the Opera House. This is intended primarily for the general public. Undergraduates are expected to attend one of the performances the next day, and the majority will probably go in the afternoon as the night show is also for the alumni. Saturday the Show travels down to Northampton, where it will give two performances at Smith.

**Musicians Do Their Share**  
 Thursday night the Musical Clubs plan to be at their best in the annual spring concert and dance. The concert begins at 8:15 o'clock, lasting till shortly before the dance, which is scheduled to start at 10 and end at 3 o'clock. The dance will be given at the Hotel Somerset, and consists of 12 regular numbers and four extras. Music will be furnished by the clubs themselves.

**Climax Comes at Prom**  
 Closing the gayety will be the Junior prom, which will be held at the Copley Plaza. Attendance has been limited to 500 people to prevent the crowding which has been a disagreeable feature at previous proms. Wittstein and his famous orchestra have been engaged to furnish the music for the 20 dances. Dancing will last till 3 o'clock, shortly before which time will appear the Sunrise Special edition of The Tech, with a picture of the Prom in it.

**Notices and Announcements**

**OFFICIAL FISH CULTURE 7.17**

The first of a series of lectures on "The Propagation of Pollock, Haddock, and Winter Flounder" will be given by Mr. C. G. Corliss, superintendent of the Hatching Station of the U. S. Bureau of Fisheries at Gloucester, Mass., in room 10-411 tomorrow at 10 o'clock.

**SCHOLARSHIP COMPETITION**  
 Two scholarships of \$300 each are offered for special students in Course IV. Competition open to Americans between 21 and 23 who have had two years of office experience. Will be held June 30 to July 10. Applications should be made to Professor William Emerson, 491 Boylston Street, before May 15.

**THE JURA MOUNTAINS**  
 Are the subject of a lecture to be given in 4-370 today from 10-12 by Professor Emmanuel de Margerie of Paris. Wednesday he will speak from 11-12 on the Provence, the Pyrenees, and the work of French geologists in Spain and North Africa. All interested invited.

**UNDERGRADUATE TECH SHOW REHEARSALS**

Tuesday: Ballet and orchestra, North Hall at 5 o'clock.  
 Thursday: Entire cast, chorus, ballet and orchestra at the Boston Opera House at 9 A. M.

**SPEAKERS CLUB**  
 Debate on May 1 with B. U. in Jacob Sleeper Hall at 8 o'clock. Subject: Resolved, that the United States shall own and operate the coal mines.

**TALK ON "THE YOUTH OF CHINA"**  
 Will be given by Pres. Mary E. Woolley of Mt. Holyoke College at the Old South Church, Copley Square, Sunday, April 22, at 3:30 o'clock.

**MATH CLUB**  
 Will meet tomorrow in Faculty and Alumni room. Prof. W. S. Franklin will talk on "The Quantum Theory of Interference."

**OUTING CLUB**  
 Meets tomorrow in the West Lounge of Walker at 5 o'clock. Elections will be held for secretary, treasurer, and three council members. Future activities are to be discussed. Everybody is invited to attend.  
 Will take a canoe trip on Sunday, April 22. All interested sign up on bulletin board in main lobby, expense \$1.70. Meets at Massachusetts Avenue Station at 9 o'clock.

**TECHNIQUE OUT THURSDAY**  
 Those who have redeemed their signups for Technique 1924, may obtain their books on the day of the rush, next Thursday, and the days immediately following. Books may be obtained by students who have not as yet redeemed their signups during the week following.

**TECHNIQUE RUSH**  
 The Technique Rush will be held in the Great Court at 2 o'clock Thurs-

day afternoon instead of the morning as was previously announced.

**PUBLICITY COMPETITION**  
 T. E. N. announces a competition for Assistant Publicity Manager. Those interested report to W. H. MacCallum, Jr., 24, or M. P. O'Brien '25, in the T. E. N. office, room 27, Walker, from today until Tuesday at 4 or 5 o'clock. Is not a job to draw posters.

**CHEMICAL SOCIETY**  
 Election of officers for the year 1923-1924 will be held Wednesday, April 25. Nominations may be handed to officers or mailed to the Society room 3-312. Nominations close Wednesday, April 18.

**SIMMONS COSTUME BALL**  
 Given at the Boston Arena, Friday, April 27. Single tickets at \$1.50 each are obtainable at the Coop.

**TECH SHOW TICKETS**  
 Seats for Tech Show will be obtainable at open sale in main lobby from 12 to 2, today and tomorrow. Previous applications will be good today only, after which they will be void.

**TRACK MEET TICKETS**  
 Tickets for the Interclass Meet will be on sale in the main lobby Monday, Tuesday and Wednesday from 12-2. Tickets will be \$1 for reserved seats, with half price for holders of student tax cards, who will also be admitted free to the unreserved section.

**GOLF**  
 Candidates for the team should be present at the initial meeting tomorrow at 5 o'clock in 10-275.

**FRATERNITY RELAYS**  
 Entries for the interfraternity relay races for April 20 may be made with Manager George Swartz '24, at the M. I. T. A. office. A cup will be presented to the winner.

**G. E. PRESIDENT TALKS ON INDUSTRIAL RELATIONS**

(Continued from Page 1.)  
 The General Electric chief spoke in favor of the shop committee form of labor organization. He argued that workers in a particular industry are better able to judge conditions in the industry than a governing control outside. This is the most important reason, he said, for opposing outside interference by a labor union board.  
 He offered as the ideal conditions in industry those of employee representation plus employee stockholding. There are three groups who are interested in any industrial undertaking, he said. First of these is the community, and the profit that a community will allow the industry is measured by the actual service that it can render to the community.  
 Stockholders, who put their money into the thing, are looking for the continuity of the business, and a fair and regular return. The third group are employees.

**NATIONAL SCREW MEN PAY VISIT**

At the invitation of Dr. Stratton the Institute had as its guests last Friday a group of fifteen men comprising the National Screw Thread Commission. These men, most all of whom are manufacturers, are now working on the standardization of the various screw threads, taps, dyes, and work generally concerned with gauge work.

Dr. Stratton described the work of the commission in the following manner: "The Commission was established by Congress at the end of the War for the purpose of bringing about uniformity of practice in connection with screw threads including definitions, forms, tolerances, methods of gauging-matters of the utmost importance in the interchangeable system of manufacturing. The Commission is composed of representatives from the Army, the Navy, the Bureau of Standards and the leading engineering societies. It has issued several tentative reports which have been of the greatest assistance to manufacturers in standardizing one of the most important factors in manufacturing."
