

S. S. DALE PRESENTS MANY TEXTILE BOOKS

Mr. Samuel S. Dale has recently given to the library of Technology a collection of books, representing the result of his efforts for about twenty-five years, covering the textile industry, written in German and French.

Dr. Dale was many years the manager and active head of a woolen mill but for some twenty-five years has acted as editor for textile papers, and also as expert before Congressional committees and before Customs officials on tariff matters. Mr. Dale was engaged by the Arkwright Club of Boston as its expert advisor during the time of preparation of the last tariff bill. He has been one of the leading authorities against the metric system.

PROFESSOR GILL'S TESTIMONY DECIDES

The testimony of Professor A. H. Gill of Technology cleared up a \$15,000 suit for damages against the Prest-O-Lite company in Springfield last week. The executor of a victim of an explosion at the company's plant was the plaintiff, and after Professor Gill, who is with the chemistry department, talked for him the case was settled without court decision.

Plans Laid for Banquet

Plans for the annual Insignia Award Banquet, which will be held on May 9, have been proposed and arrangements made for attendance, speakers and prices.

CAHILL CONCLUDES SPEAKERS' COURSE

Mr. H. T. Cahill concluded the course in effective speaking which he has been giving the Speakers' Club at its meeting last Tuesday night. The last lecture of the course, which comprised 16 lessons, was devoted to a consideration of the audience. "Keep the audience compact," said Mr. Cahill, "in order to gain the full effect of mob psychology. When you rub elbows with the next man, you are more easily swayed by the emotions of the crowd." It is also important, Mr. Cahill suggests, that the speaker be a true leader. He should speak from a point of physical elevation, and remember the effect of music and food upon the audience.

After Mr. Cahill's closing address, a discussion on the merits of the proposed honor system was led by one of its enthusiastic proponents, David Lasser '24. A key was selected for the club insignia and plans were announced for a banquet in north hall, Walker Memorial, on May 15. Several distinguished speakers have been invited, including the mysterious Mr. Smith, who has given the club a great deal of financial backing.

Mr. Cahill will continue to coach the new-born debating team every week, although the regular course of instruction for the club as a whole has been completed. It will soon be possible to select the debaters who will confront the B. U. team.

Cattle Boats "The Thing"

Fifty Yale undergraduates will work their way to Europe and back at the close of the school year. Their work on the cattle boats will be of ten days' duration and will consist of feeding the cattle and catching any loose steers. Several Harvard and Princeton men intend to take the trip, but it will be the second year for a number of the New Haven students.

Faculty Work on Play

Members of the faculty at the Brigham Young University have begun rehearsals on their play to be presented during this month. "Cyrano de Bergerac," the play chosen, is in French, and will last three hours. The cast includes 90 persons, and the major roles are being taken by the faculty while undergraduates will take the lesser parts.

SHOW LEAVES FOR NORTHAMPTON TODAY
(Continued from Page 1)

As in all amateur theatricals, the show could not be complete without some funny accidents. In Thursday night's performance the audience was surprised and delighted by the novel way one of the actors lights a cigarette. As he struck a match, he carelessly allowed it to come in contact with the rest, and the whole box burst into flame. The accident in the matinee came during the "Bungalow Bride" song, when one of the men in the chorus tripped over the steps of the temple and fell flat on his face.

"The Sun Temple" has been reviewed for The Tech by Professor R. E. Rogers, the article appearing on page five of this issue.

action of business. The new boards combined will be only ten in number and they will be divided into two groups, Junior and Senior. Under the old regime the board men had few if any assistants and the actual routine work rested on their own shoulders, the new plan provides for a grading of work and responsibilities so that each man will have duties proportionate to his experience and ability. Technique 1925 will be the first volume to appear under the reorganization scheme.

SPRING CONCERT OF CLUBS GOOD
(Continued from Page 1.)

the applause. Several popular melodies by the Jazz band seemed to have a strong appeal for the audience. Drigo's "Serenade" by the mandolin club and a banjo duet by Raymond Mancha, Jr., and D. A. Shepard, two freshmen, were also quite enjoyable.

The Prom Girl was there in all her glory. Red dresses, green dresses, pink dresses, blue dresses combined with the furnishings of cardinal and gray to give the affair a very colorful appearance. The platform was decorated with a large Technology banner, which stretched clear across stage. The crowd was slow in arriving, when the concert began not half the chairs being filled. However, a sizable crowd had shown up before it was half over.

Dancing started soon after 10 o'clock and lasted until 2, with an intermission at midnight for supper. Music was furnished by the clubs themselves, with the help of a few outside pieces. There were six dances before the intermission, and six and three extras afterward. The hall was filled without being crowded, and the music of the clubs very good.

The first volume of Technique 1919 was issued to the winner of a tennis ball dropped from an airplane above the Great Court. The addition of a stream of water to the battle of 1922 was the most recent innovation in the history of Technique rushes.

TECHNIQUE RUSH IN COPLEY SQUARE, 1916
(Continued from Page 2)

ers misunderstood the cause of the rumpus. The next year the first rush in the Great Court took place, the paddies being passed through a hole in the roof of a pitch and grease smeared turret.

Each year the Board appeared in a new costume, varying from naval uniforms worn one year, to tall silk hats worn another year. Following the Board came the contestants dressed in all sorts of old clothes. In 1921 the Board led the parade carrying an eleven foot reproduction of Technique.

The center of disturbance has also had many changes. The first shanty was made of slats, the occupants fearing to be crushed at any minute. In recent years the booth has become much more substantial and also much harder to storm. Its coating and the jet of water mixing with the battlers make Technique rush the big fight of the season.

ers and noise makers of the sort so popular at such parties were in abundance lending a gala air to the occasion. The interval of rest in no way dimmed the enthusiasm of the party and all indications, as they returned for the second half of the scheduled dance order, pointed toward an ever increasing vim and interest until the cessation of the music at 4 o'clock would necessitate the closing of the Junior Prom for another year.

CORPORALS CHOSEN FOR FRESHMAN ARMY

List May Be Changed—Students of Ability Advanced to Sergeants

Freshman military activities are now rapidly beginning to acquire some of the more desired characteristics of an officers' training organization. Student officers from the advanced unit are on the field drilling the men every day, and the department has selected a list of freshmen who will soon assume the duties of corporals. The list will be slightly increased before final arrangement, and men showing ability will be advanced to positions of sergeants.

Following are the names of the prospective corporals:

- R. D. Earle, Karl French, Theodore Taylor, W. W. Peterson, T. E. Norton, A. B. Brand, B. P. Young, E. S. Pratt, W. P. Lowell, W. H. Taylor, K. G. Gove, D. K. Taylor, A. C. Fuller, B. Papakonstantinon, G. M. McNeil, L. W. Cummings, T. J. Eaton, L. B. C. Colt, G. W. Smith, E. M. Sinauer, A. N. Billings, R. A. Butler, R. W. Johnson, R. A. Freeman, A. R. Brugnani, Jos. Arzomanian, M. S. Hird, E. R. Huckmah, G. R. Peterson, Donald Dodge, F. A. Wilkinson, C. R. Greene, R. F. Dolen, L. Vexler, Wm. Kalker, Whitney Ashbridge, F. R. Tandler, A. L. Cobb, O. B. Robinson, W. F. McCornack, H. W. McCue, W. E. Halfacre, S. H. Gross.

BRIDGE BLAZES AGAIN

Harvard Bridge is again the cause for the generation of much hot air. Yesterday afternoon it caught fire near the Boston end, but was soon under the control of the fire fighters who rushed to the scene. Traffic was blocked for a while because of the fire whose origin was unknown.

The Egyptian Room

A wonderful place for a wonderful time with a wonderful girl. She will cherish the memory of an evening here, where the enjoyment of dining and dancing is enhanced by an atmosphere that suggests all to splendor, mystery and romance of Old Egypt. Music by Leo. F. Reisman and his famous orchestra.
