NOMINATIONS DUE BY NEXT FRIDAY
(Continued from Page 1)

This document also states that "all persons shall vote only with the class to which they are assigned by the Registrar.

Electioneering Prohibited
The Institute Committee constitution also contains the following provisions. "The annual spring class elections shall be held during the second week following Junior Week. The ballots of each class shall be a separate color. Any criticisms must be made in writing to the Chairman of the Elections Committee at least one day before the election. All forms of electioneering at the polls shall be prohibited."

One remarkable feature of the class elections is the large percentage of athletes which receive office, and in particular is this true of the lower classes. Five of the eight officers of both the Junior and Sophomore Classes were out for some form of athletics, while in the freshman class, seven of its eight officers have been members of various frosh teams.

Wave Tests Continue

After the standard wave tests Friday evening the night for the weekly tests by the M. I. T. Radio Society station will be changed to Monday. Friday evening the waves will be transmitted as usual between 6 and 7 o'clock, and will cover from 150 to 260 meters at 10 meter intervals. Next Monday the tests will be from 7 to 8 o'clock, and will go from 360 meters down to 260. The following Monday at the same time the range covered will be from 360 to 540 meters, and the next week from 150 to 260. After that the schedule will be repeated.

FRATERNITIES DISCUSS RULES FOR RUSHING

Houses Will Have Two Chances to Change Draft of Regulations

Last night the Inter-Fraternity Conference held a two hour meeting at which Rushing Rules was the subject under discussion. As a result, three ideals for Rushing Rules were set up, viz.: one, that freshmen shall have visited all the other houses before joining a fraternity; two, that the scholarship of both the fraternity and the freshman be maintained, in other words, that the long drawn out initiations be done away with; three, that the Rushing Rules be fair to both parties concerned.

The procedure will be as follows: the Conference will draw up a tentative set of rules which will be sent to all the fraternities. The fraternities are to go over these rules and make any recommendations. From these recommendations the Conference will draw up the final set of rules, which will be sent back to the fraternities for ratification. Those fraternities ratifying will continue to be included in the Conference.

Rushing Rules are being worked on now because it is felt that they are the most important of the problems confronting the Conference at the present time. Some sort of Rushing Rules therefore are certain to evolve.

ELMER BRUGMANN '24 TO HEAD CHORALS

Society Adopts Constitution and Will Separate from Musical Clubs

The choral society has reorganized and adopted a new constitution and will start as an organization separate from the Musical Club with a new set of officers. The elections were made at the last rehearsal.

The new officers consist of Elmer Brugmann '24, President; Prof. H. G. Pearson, 1st Vice-president; F. K. Anderson '24, 2nd Vice-president; R. H. Brown '26, Secretary.

The society is going to give a concert in the main hall of Walker on May 14, at 8 o'clock. This will be the first that they have undertaken under the new scheme and they will be assisted by a chorus of 20 ladies from a choral society in Boston. This will be the most important concert of this season.

Formerly the choral society was affiliated with the M. I. T. Musical Clubs but the interest shown in the organization during the past year has warranted the attempt to run the organization as a separate interest. Several concerts have been given by the men during the past two seasons and this May concert will complete the schedule for this season.

Fear'd Sophomore Hop Would Be Called Off

For a time it was thought that the Sophomore Hop would have to be called off, but now it is certain that it will go through as planned. The reason for the proposed cancellation was a question concerning the jurisdictional limits of the present class officers.

The election of next year's class officers is being held next Tuesday; their ratification would take place the following Thursday, and the dance would occur the succeeding Saturday. However, the present class officers have no authority to plan an affair which is to take place after their term of office has expired.

The obstacle has been surmounted by the appointment of a committee which has complete charge of running the dance. As was originally planned, the dance will be held the evening of May 5 in Walker Memorial.

Tech Men Boosting S. I. E.

Four members of the Corporation XV are to have luncheon at the Boston City Club today where a meeting is to be held to attempt the formation of a chapter of the "Society of Industrial Engineers" in Boston. C. T. Jackson '23, is to speak for Technology in the endeavor to arouse interest in this venture. The other Technology men are: P. P. Pratt '23, J. M. Naughton '24, and F. L. Gemmer '24.

FACULTY WON'T PENALIZE ATHLETIC ABSENCES
(Continued from Page 1)

Professor R. G. Hudson, speaking of the need of missing Saturday morning problem section in E. E. E. for the men who go to Maine Saturday, made this statement, "Students are excused from exercises when they are absent for reasons beyond their control, if the number of such absences is not excessive." He thinks he can get about as good a line on a man's ability in nine tests as in ten, and if the man has to miss one chance at a bull's-eye, an explanation in writing of the cause of absence will be accepted.

Spofford Says "Miss Is Miss"
The "reasons beyond their control" rule leads to amusing complications sometimes. One basful student asked to be excused from his E. E. E. problem section because he had been married, and his folks didn't like it very well. As proof he produced a telegram from his father demanding that he meet him in South Station Saturday morning. Another fellow had promised his girl last summer to be at a house party the Saturday an E. E. E. test came around. A third wanted to be excused to be married, and another begged off while his baby was being born.

Professor W. J. Drisko explained that if a man could afford to miss the work, there was no objection if he cut some exercises while on an athletic trip. If the man has a record of continuous absences, the instructor takes that into consideration also. So long as a man doesn't let his activities get control over him and ruin his work, absences on their account will be overlooked.

Professor C. M. Spofford '23, of the Civil Engineering Department, remarked that "if a man misses a train, he misses it." It is the man himself who suffers from missing the exercises. Professor Spofford said that as an instructor he does not concern himself greatly over an occasional absence, which he assumes to be unavoidable. It is whether the man is able to do the work that matters, not how many cuts he has.
