

ENGINEER TENNIS MEN FACE UNDEFEATED BROWN RACKET WIELDERS

THIRD TENNIS MATCH OF THE SEASON TO BE HELD THIS AFTERNOON

TEAM HAS BROKEN EVEN IN MATCHES THUS FAR PLAYED

All of Capt. Tremaine's Men Have Shown Improved Playing Form

The varsity tennis players undergo their second test of the season when they clash with the Brown team this afternoon on the courts of the Longwood Club, Chestnut Hill, in the third match on their schedule. The sets promise to be some of the hardest contested matches that the Engineers have yet had to play, and they are bound to be interesting.

With a win and a defeat credited to the racketers, Captain Tremaine and his men will be right on their toes to make this third match a victory for Technology. The match will start as near 2 o'clock as possible.

Brown Team Strong

The combination that the Bruins bring to face the Engineers appears to be the best team yet turned out by the Providence school. It is practically a veteran aggregation and all of the men have made a good record for themselves. They have played in four matches so far this year and have come away victors in all of them. The first match for the Bruins was with Holy Cross and Brown had no trouble in taking the sets. Clark, the second victim of the Providence outfit, was able to obtain even less games. Amherst and Wesleyan had no better luck in the last two matches.

Since the Engineers' opponents, today have not lost a match this year, they can be counted upon to put up a stiff struggle, and Captain Tremaine's team will have to fight to secure a win.

Veterans Back

Three veterans of last year will represent Brown on the court today. Each of these men played well on the clay in their former years and the record so far indicates that they have improved in the meantime. Jones was the only man of the Bruin team to win in the contest with the Engineers last year, he defeated Carver, by the score of 6-2, 1-6, 4-6. He was captain of the Brown racketers last season and was their leading point getter.

Bennett, who is captain of the team this year, was matched with Tremaine in last season's contest, but Tremaine managed to secure a win after the first set went 10-8. Bennett is first man on the team. The third veteran of the squad is Thorndike. He played Scott in the Technology-Brown match last year and Scott had very little trouble in defeating him, 6-1, 6-1.

Improvement Shown by Men

In the last match with Boston University Saturday the Engineers played a mighty good consistent game of tennis. They have had the experience of playing a very strong team and a weaker team so they can now judge how far along their form has developed. The team is well balanced as each player has a different style of play. This is always a great help in going against another team.

Both the last two matches for the Engineers have had to be played on indoor courts on account of the weather, but the sets today will be out of doors. The line-up will probably be just the same as it was for the B. U. contest, the ranking of the men being as follows: Captain Tremaine, Tressell, Russell and McWane.

Engineers Win Last Year

Last season Technology took the Brown match by the count of 5-1, allowing the Bruins one of the single matches. In the doubles the cardinal and gray players took both of the matches. Carver and Scott defeated Jones and Bennett 6-4, 4-6, 6-3, and Tremaine and Hobbs took over Thorndike and Dana by the count of 10-8, 6-1.

Friday the team travels to New Haven to play Yale. This will be one of the big matches for the Engineers and will set them right on their toes to the last game.

Clubs Play to Bankers

A concert for the Federal Reserve Bank will be given by the Musical Clubs in the main ball room of the Copley Plaza on Saturday evening, May 12, at 8:15 o'clock. The concert will be broadcasted by WNAC, the radio station of the Shepard Stores.

AWARD STRAIGHT "T" TO THREE MEN

Announce Advisory Council Elections at Meeting Last Night

Awards of athletic insignia to the members of various teams and elections to the advisory council were announced last night at the meeting of the Advisory Council on Athletics held at the Engineers Club.

B. J. Fletcher '24, W. H. Manning '24, and George Swartz '24, were elected undergraduate members of the Advisory Council. Fletcher was manager of hockey during the past season. Manning is the new secretary of the M. I. T. A. A. He was manager of boxing this year, and is a member of the Calumet Club. Swartz is president-elect of the M. I. T. A. A. He is manager of track and cross country.

Their respective insignia were awarded to the basketball, gym, boxing, fencing, wrestling, and swimming teams. J. T. McCoy '24, the gym team's new captain, was awarded a straight T. McCoy has had a brilliant record on the team; he took second place in the Intercollegiate on the rings.

A straight T was also awarded to Rockwell Hereford '24, who was captain of the wrestling team during the past year. He won every match he was in during the season by falls. He has been champion of New England for two years. A straight T with one star is awarded to H. J. Bruner '23, who has been New England champion in the 115 pound class for two years.

The problem of providing a place for the tennis team to practice was brought up at the meeting by Manager P. H. Littlefield '24. At present matches are played on the courts at Longwood, but the team cannot practice there on account of the overcrowded conditions. There are six courts at the Institute for the use of the team, but because of lack of proper drainage these are for much of the season unsatisfactory.

Dr. A. W. Rowe '01, secretary-treasurer of the Advisory Council, and Dr. J. A. Rockwell '96, said at the meeting that they would make arrangements with their country clubs to secure courts for the members of the team to practice on.

CONSTANT RAINS DELAY OPENING OF COURTS

The rain last week-end upset Major Smith's plans in regard to the tennis courts. He was all ready to begin work and expected to have them ready by Saturday noon. Now, it is only a probability that they will be made ready within a week, provided the good weather of yesterday holds out.

The generous rain fall made the surface very soft and as drying out is principally dependent upon evaporation it will be some time before it again becomes practicable to use the rollers. Every day the courts are inspected so that work may be begun at the earliest possible moment.

Debaters Talk Tonight

Technology's embryo debating team will beard the Boston University lion in its den tonight, when it will try to persuade the B. U. debaters in Jacob Sleeper Hall, 688 Boylston Street, that the Government should not own and operate the coal mines. The Institute will be represented by Alfred Perlman '23, Henry Shore '24, and A. M. Kallet '24. George McLaughlin, William Kelly, and Carl Brown are the B. U. debaters.

The decision will be made by Professor Whipple of Harvard, Judge Lummus of Boston, and Mr. Sheldon Hickox. The managers expect a large audience. Tickets may be obtained for 25 cents today in the main lobby.

The Technology team will go to Brooklyn May 11 to argue the same question with Brooklyn Polytechnic Institute at the Brooklyn Polytech Chapel.

Frosh Make Good Soldiers

That Technology engineers make good soldiers is the verdict rendered by Major R. A. Hill, Inf., after watching the freshmen drill last Monday. Major Hill, a member of General Brewster's staff, is R. O. T. C. inspector for the First Corps Area, and is now making his annual tour of inspections. He spent the entire day at Technology, and though he did not formally review any of the units, he watched all the freshmen on the field.

Track Team Clashes With Harvard Squad in Stadium Saturday

Engineers Will Enter Every Available Man in Meet

Saturday afternoon finds the Institute track team up against its Crimson opponent of long standing when the athletes meet Harvard in the Stadium. Frank Kanaly is planning to enter every available man on the squad for the big time, and while Harvard is a worthy opponent for the cardinal and gray racers, no odds are being given the Crimson; it will be a battle all the way through, with Technology spirit and fight compensating for whatever we lack in numbers or finish.

In some of the events, Harvard is undisputedly the master, while in others, notably the two-mile event in which Bob Hendrie is entered, Technology will not take anybody's dust. The light engineer flyer is nearing the end of his collegiate career in top form, and Harvard does not expect to turn up anything to touch him.

Captain Art Smith will run in the quarter and half and if his old opponent, Billie Burke, is entered for these distances, he will have a battle on his hands with more than an even chance of coming in ahead at the tape. It is not certain that Burke will run these two distances, for his usual event is the mile. However, if Burke goes into the mile contest, he will find the stiffest kind of competition from Elmer Sanborn, and in either case, Technology is looking for a victory. While Burke's record entitles him to a good deal of consideration at any distance, Elmer Sanborn can be beaten only by a top-notch runner, if at all, and he can be counted on to push Burke hard enough in the mile to keep the Crimson runner from being dangerous in any other event.

In the field events, Technology's long-standing weakness is still apparent, although decided improvement has been made this year. Bill Greenough and McArdle will top the field of Technology's entrants in the high jump, although it is conceded that Harvard has better performers. Carl Dipple and Bill Gurney will also find stiff competition in the broad jump, as will the other field-event athletes, although while the Crimson is conceded a number of first places, seconds and thirds for the home team are expected to be numerous due to the large entry list.

The Harvard dual meet is the best opening Frank Kanaly has every year in which to enter a large number of men, due to the proximity of the Crimson, and for this reason, it is looked on as an important engagement. Aside from this fact, however, Harvard has the concession of being out of the class of the local track team, but Harvard has never met an Institute team, track or otherwise, without having a hard fought, closely contested battle on its hands, and this year will be no exception.

FRESHMAN TENNIS TEAM MEETS HARVARD TODAY

The freshmen tennis team opens the season this afternoon when they take on the Harvard first year men. The strength of the Engineer freshman team is practically unknown as there has been little opportunity as yet to form any judgment of the players.

The men for the team have not yet been selected permanently, as the tournament is still in progress. The men who will play this afternoon are to be picked from the candidates who have gone through the first round of the tournament. The following men have won the first round of their matches either by default or by play: French, Doolittle, Lambert, Bates Halfacre, Eddy, Brooks, and Head.

Batting Averages to Date

	ab	h	av
Jacobsen	9	6	.666
Walterskichen	8	4	.500
Canfield	7	3	.429
Manning	12	5	.416
Bates	10	4	.400
Robertson	8	3	.375
Kenney	6	2	.333
Barker	6	2	.333
Bianchi	9	3	.333
Michelena	10	3	.300
Terrell	7	2	.286
Lawrence	10	2	.200

Note: Only those players credited with 6 or more at-bats have been included in the above list, for obvious reasons, in order to keep positions on the list confined to men who have played for the greater part of the series.

ANNUAL ELECTIONS TO COUNCIL HELD

Alumni Body Announces Names of Men Who Will Act on Committees

On Monday night the alumni council held their ninety-seventh meeting in Walker Memorial. The results of the annual elections were announced and are as follows: President, G. L. Gilmore '90; Vice-President, Alexander Macomber '07; Secretary-Treasurer, A. T. Hopkins '97; Executive Committee, William Green '05, Walter Humphreys '97, and J. H. Knight '96; Representatives-at-Large, R. S. Allyn '98, E. D. Barry '95, F. D. Chase '00, F. W. Fabyan '93, and H. P. Maxim '36.

The following class representatives were elected to the council for five year periods: '74, G. H. Barrus; '79, C. H. Gooding; '84, H. W. Tyler; '89, E. F. French; '94, S. C. Prescott; '99, H. J. Skinner; '04, M. L. Emerson; '09, C. W. Gram; '14, H. B. Richmond; '19, G. H. Wiswall, Jr.

Dr. W. R. Whitney '90, and Messrs. Walter Humphreys '97, and C. R. Main '09, were nominated as Alumni Term Members on the Corporation.

The following men were elected to the Advisory Councils on Undergraduate Activities: Athletics, H. E. Worcester '97, and A. W. Rowe '01; Tech Show, O. R. Freeman '15; Budget Committee, S. G. H. Fitch '00; Walker Memorial, W. C. Brackett '95; Musical Clubs, D. G. Robbins '05, and W. T. Hall '95.

The president of the council was authorized to appoint a committee to further alumni attendance at the inauguration of Dr. Stratton on June 11. The question of dues was discussed and several ways were suggested of increasing them.

Dr. A. W. Rowe '01, gave a report on the activities of the Choral Society and told of their last concert of the season in Walker on May 14. He also told of the receipt of the report of the students on the proposed changes in Walker but said that he had not been able to go over the question carefully and would report at the next monthly meeting.

Shepard Will Head Men of 1926 During Their Second Year

Dorothy Quiggle Elected to Take Care of Class's Financial Side

D. A. Shepard, assistant leader of the Banjo Club and also a member of the Mandolin Club was elected President of the freshman class in yesterday's elections. Besides being active in the Musical Clubs Shepard is Manager of the freshman baseball team.

K. S. Lord, known to the freshmen as "Ken" Lord was elected to the Vice-Presidency over his nearest competitor, K. G. Gove, by one vote, the count being 52 to 51. Lord has been active in freshmen athletic circles, playing on the freshmen basketball team, and field day teams.

C. A. Bianchi was re-elected to the Institute Committee along with R. H. Head. Bianchi is well known as the freshman's football leader of last field day.

John Drum was elected Secretary by the margin of 12 votes while Miss Dorothy Quiggle was elected Treasurer, showing that 1926 is not entirely partial to the fellows.

M. M. Greer, last year's president, was elected to the Executive Committee along with W. O. Locke who is well known to the freshmen. Greer had the distinction of polling the largest number of votes, 40 more than the president did in his competition.

Tech Show Banquets Tomorrow

Tech Show culminates its season tomorrow night at Hotel Lenox, where the Annual Banquet will be held at 8:30 o'clock. All the members of this year's show have been invited, besides many other guests, and a gathering of between 125 and 150 is expected.

Dr. S. W. Stratton has been invited to the banquet and will speak during the evening. Alexander Macomber '07, who was formerly alumni adviser to the show, and Professor R. E. Rogers of the English department will also speak. The three coaches of the show will be present.

The entire cast, chorus, ballet, orchestra and management have been invited to the banquet. Invitations have also been extended to the members of Masque and to former Tech Show men.

Choral Soc. Leaves Musical Clubs

The Technology Choral Society is planning to make its final appearance under the auspices of the Combined Musical Clubs the evening of May 14. This event will mark the beginning of a new career of the society as an entirely independent organization, as it has for the past two years, since its inception, been intimately associated with the Musical Clubs. The society will be assisted in its concert, which will be delivered in the main hall of Walker, by the Musical Arts Club of Boston. It has also obtained backing by prominent men and women at Technology. Announcement will be made later in reference to obtaining tickets.

VI-A Starts Newspaper

At a banquet in north hall of Walker last night it was announced that the members of Course VI-A would publish a paper every two weeks. The sheet is to be known as the "VI-A NEWS." The speakers at the meeting were Professor W. H. Timbie of the Electrical Department, and Professor W. S. Franklin of the Physics Department.

BOSTON MASS.

HOUGHTON MIFFLIN
 UNDER THE PARK ST. CHURCH

FLOWERS FOR ALL OCCASIONS

LAW STUDENTS
 THE BOSTON UNIVERSITY LAW SCHOOL
 Trains students in principles of the law and the technique of the profession and prepares them for active practice wherever the English system of law prevails. Course for LL.B. requires three school years.
 Beginning in the Autumn of 1923, one year in college will be required for admission. In 1925, the requirement will probably be two years in college.
 Special Scholarships \$75 per year to college graduates.
