Members should procure their tickets for the banquet some time today. They will be on sale in front of Dr. Keyes' office at \$1.75. Only 100 tickets will be sold.

EXECUTIVE COMMITTEE
TABLE ELECTIONS REPORT
(Continued from Page 1.)

ered until 8:30 Tuesday morning. He then read the results of the elections, which ended the report.

In view of the fact that the Executive Committee had not had time to act on the petitions for re-election. T. M. Taylor '23, moved that the report of the Elections Committee be tabled. C. C. Taylor spoke for the motion, pointing out that the Executive Committee, through its right to settle appeals from the decision of the Chairman of the Elections Committee, might take such action that would necessitate the changing of the report.

Since the motion was passed, the results of the elections last Tuesday will be uncertain until after the meeting of the Executive Committee of the

MECHANICAL ENGINEERING
Society banquet comes on next Friday, May 11, at 6:30 P. M. in Dreyfus French Restaurant, 14 Beach St., Boston.

AERONAUTICAL SOCIETY
Smoker which was announced for tonight is postponed until next Thursday or Friday.

Masons Dine in Walker

The Masonic Club of Technology held a banquet attended by 250 people in the north hall, Walker, Wednesday night. Amusement was provided by Frank Gage '22, and G. E. Barnes '23. C. C. Taylor '23, and P. P. Pratt '23, spoke. H. F. Simonds '24, presided.

Aeros Will Not Meet

A. L. Mead, chief engineer of the Wright Aeronautical Corporation was unable to be present tonight for the smoker of the Aeronautical Engineering Society, which was to have been held in 5-330. Consequently the meeting has been postponed until next Thursday or Friday, May 10 or 11.

DEBATERS DEBUT
MARR'D BY B. U.
(Continued from Page 1)

largely influenced, according to the judges, by the fact that although the burden of proof rested on the affirmative, the negative—that is, Technology—lacked the offensive defense which might have turned the tide. The judges were agreed that so far as oratory was concerned, B. U. excelled.

The question was: Resolved that the United States should own and operate the coal mines, constitutionality waived. G. A. McLaughlin, captain of the B. U. team and first speaker for the affirmative, described the evils of the present system of coal mining. Alfred Perlman '23, then showed how government ownership would aggravate these evils. After a rehash of McLaughlin's speech by H. S. Goldberg, Henry Shore '24, produced a large amount of evidence—concrete examples where government ownership had failed. A. L. Brown then played around for a while with a pet word of the affirmative's—"economic peonage," which is supposed to refer to the condition of labor under the present system. When he was through, A. M. Kallet '24, wound up the case for the Institute in a very forceful manner.

At this point the audience seemed

agreed that Technology had the debate on ice, but in the heated rebuttal which followed, the stilted and studied manner of the B. U. men fell from them like a cloak, with the result that the judges awarded them the decision. Each speaker of each team talked in rebuttal.

Critics Approve Debate
Professor H. G. Pearson, head of the English department, said, "It was a live and scrappy debate, as all good debates should be." Mr. M. R. Copithorne, also of the English department, remarked, "For me the feature of the debate was McLaughlin's masterly presentation of his material and beautiful phrasing of his ideas." McLaughlin himself, captain of the B. U. team, professed respect for the ability of Art Kallet, whom he said made a very effective speaker. He explained the B. U. victory thus: "The secret of our success is this: we talked to the audience." Mr. H. T. Cahill, coach of the defeated team, concluded that it was a "cracking good debate" and that "those Johnnies were on their toes every minute."

DUNLAEVY ELECTED NEW TECH SHOW HEAD
(Continued from Page 4)

avocation and he would do all in his power to make the activities a success as they proved very helpful in this respect.

Mr. Alexander Macomber who has acted as adviser for the show for several years stressed the point of making the show a melting pot for the students. He said that this was one of the most valuable of its effects on the fellows connected with it.

The other listed speaker, Professor Rogers, arrived too late to say anything of importance.

Coaches Praise Men
The coaches were called upon to speak and each praised the work of the men and their part of the production. Miss Tanner spoke of the much more business like dress rehearsals that was held this year and contrasted it with some of the first that she attended. She also spoke of the excellent work of the chorus and ballet in the way of technical perfection and in this regard spoke especially of the work of W. C. Gray '23, of the ballet.

Mr. Harlow asked the fellows to look at the show as a production and to work for it as such. He highly praised the work of Frank Gage in his part this year. Mr. Young said that he thought that the credit for the orchestra was due to the men and that they seldom get the proper credit for their work. After speaking Mr. Harlow was presented with a suitcase and Mr. Young with a baton.

SENIOR MAJORITY
ALREADY ASSURED
(Continued from Page 1)

VIII has at present the largest percentage of men subscribed to the plan; 91%. On account of their greater size, however, Courses VI and II are the real leaders, with 67% and 62% respectively.

Will Present Lump Sum
The annual premiums on the plan are only \$9.50 per man, but at the end of the 25 years more than \$100,000 will be presented to the Institute by the Class of 1923 which now has more than 400 of its members enrolled in the plan. If successive classes undertake a similar plan, it is obvious that eventually the gifts to the Institute will mount into millions.

500 Club to Banquet

The First Five Hundred club, to which the first 500 graduates of Course XV belong, will banquet at the Engineers Club tomorrow night.

Electricals Vote Monday

The nominees for officers of the Technology branch of the American Institute of Electrical Engineers for the coming year are: Chairman, R. P. Shaw '23, Vice-Chairman, A. D. Caruthers '24; Secretary, F. J. Necht, Jr. '24, W. T. Cook '24, Treasurer, L. D. Bain '24, F. G. Hamner '24.

The election of the above men will take place in the D. E. M. laboratory, building 10, Monday, May 7, from 10 until 4 o'clock. One candidate for each office will be chosen.

Sophomore's Hop Tomorrow

Scottie Holmes and his American House Orchestra have been secured to play for the Sophomore Hop that is being run in the main hall of Walker Memorial tomorrow evening from 8 until 12 o'clock. The dance is to be informal. The committee has arranged for refreshments, and there is a possibility of something unusual in the way of entertainment during the intermission. The decorations will consist of vari-colored balloons. The matrons are Mrs. Wallace Ross, Mrs. L. M. Passano, and Mrs. W. P. Harts-horn.
