THE COMMITTEE REVIEWED

The outgoing Institute Committee has performed some notable achievements during its tenure.

SUMMER READING A POND MEMORY

The abolishing of summer reading caused a surprise to us.

The University of Nemo

By Golest Barnes '25

WANTED: a good, well-equipped boarding University, near large city, with a large endowment, one where the students are not over-worked, one where there is no red tape, one where the faculty is not over-worked, and one where there is plenty of recreation.

The Trustees of the Nemo University, in order to meet all these requirements, have decided to form a new University, more suitable for the needs of the students. The University of Nemo will be located near a large city, and will be under the direction of the Board of Trustees.

The University of Nemo will be a selective institution, and will admit only the best students. The institution will be under the control of the Board of Trustees, and will be governed by the principles of the Boston University.

The University of Nemo will be a co-educational institution, and will offer courses of study in all branches of learning. The institution will be under the control of the Board of Trustees, and will be governed by the principles of the Boston University.
