How many of us know exactly what love means? It is such a vast and wondrous thing... 1

and for just a mouth. 1

are invited to the following faculty dinner held last Saturday evening. You are hereby invited to join the Lounger and enjoy an

A wonderful plan for a wonderful week with a wonderful idea... the world's first, and only, automobile which can be steered by the use of the driver's own foot. It has been designed by Mr. John Doe, and is now ready for public exhibition at the annual meeting of the American Automobile Association, to be held next month in Chicago. The car is driven by a small motor which is operated by the driver's foot. It is believed that this invention will revolutionize the automobile industry and open up new possibilities for the future.
