I must admit that I was sadly misled, as a member of the T. U. S. T. was taken in an occasional moment — rather let my stomach take it. After breaking every law that a dress code was flouted, I was chaotically seized with a desire to change my habits. This desire led me to seek out the pattern of Technological student dress, and eventually to research the habits of the Technological student society. A common feature of these habits was the wearing of ties. After consulting with the Tie Buyer, I purchased a tie that I thought was appropriate for my style. I was incorrect, and I am currently working on finding a new tie that better reflects my personal style.

The Great White Plague

By M. S. MacNaghten

I want to start by saying that I was initially a bit skeptical about the white plague being a real threat. After speaking with several T. U. S. T. members, I realized that the white plague is a real and serious threat. It is important to take preventative measures to protect ourselves and our community from this disease.

The Lounger's Opinion on the Great White Plague

The Lounger's opinion on the Great White Plague is that it is a significant health threat. The disease has spread rapidly and has caused significant illness and death. It is important for the community to take measures to control the spread of the disease.

The Great White Plague:

According to the T. U. S. T., the Great White Plague is a virulent disease that has spread rapidly across the T. U. S. T. campus. It is characterized by fever, coughing, and shortness of breath. The disease is highly contagious and can be transmitted through respiratory droplets.

Preventative Measures:

The T. U. S. T. recommends the following preventative measures to control the spread of the Great White Plague:

1. Wash your hands frequently with soap and water for at least 20 seconds.
2. Avoid close contact with people who are sick.
3. Cover your mouth and nose with a elbow or tissue when you cough or sneeze.
4. Avoid touching your eyes, nose, and mouth.
5. Stay home when you are sick.

The T. U. S. T. encourages all members of the community to take these measures to prevent the spread of the Great White Plague.

Underwood Portable

Underwood Portable, Inc.

1350 Massachusetts Avenue, Cambridge

Students, faculty, and staff are urged to use Underwood Portable for all of their writing needs. Our durable and reliable machines are designed to withstand the rigors of daily use. With a wide range of features and a sleek, modern design, Underwood Portable is the perfect choice for any professional or student writer.

Give Wings to Words

S

sed forward by the responsible keyers of the Underwood Portable, thought becomes swifter in its flight; writing is made easier; understanding becomes surer — mind is brought nearer to mind.
