ATTENTION FRESHMEN!

TODAY'S ISSUE OF THE TECH is devoted especially to the interests of the activities at Technology. The general manager of the Tech bulletin is in charge of advertising and tenement offices. The main purpose of telling the freshmen what the organization stands for, so that we can have a better understanding of what they are all about. The freshmen should therefore examine the various articles with a close scrutiny and then come to reflect upon them. There is some kind of activity for every type of man here at the Institute. The freshman should look them all over carefully before deciding which one he shall go out for.

To the new men, the importance of going out for an activity and the prominence the activities play in Technology life cannot be too greatly emphasized. They constitute the backbone of the institution. Aside from the recreation and the break from the monotony of the regular course of study, the activities also function as instillers of the important men of the Institute. And of finally doing something that every one possesses the power to do. The activities are with which to make friends easily. For, they create interest and encourage in them the desire to look further and go deeper. The necessity of creating a line of demarcation somewhere where one can escape from the routine and transform the daily life into the activities of the Institute. It is all or nothing big rush. Accept the freshmen into your organizations at all cost, and do not let them go without a foot. The freshmen are at Tech and must be allowed to filter slowly into one car or another. As for the question of where the rushes end, it is quite evident that a carriage is perfectly clear as to where it will stop. And the rush season is certainly the exciting season, and the question of whether or not the Tech has made a clean standard of humor and the other things.

FRESHMEN MEET FOR FIRST TIME TODAY

Today the freshmen class will meet for the first time at 7:30 P.M. at the Majestic Theatre. This meeting is called in order to introduce the freshmen to the activities of the year. Since Field Day is scheduled for Saturday, October 19, and the Inauguration Committee meets Thursday, October 14, it is necessary to prepare the freshmen for these important events. Also it is advisable to have them acquainted with the activities of the year. This is the first chance the freshmen have to understand the various activities and their advantages to a good reputation.

EARLY BATES '24 NOT TO RETURN THIS YEAR

Earl Bates, the treasurer of the women's organization at Bates College, has decided to keep his promise. He has never put off until tomorrow what he can do today. Still, the Tech's freshmen have their little tricks. The新生-known for their slight wanderings in and out of bed—have been delayed for some time. The reason is, of course, the need for getting in shape for tomorrow. This is easiest to overcome at the very beginning. The freshmen are not to blame, of course, in the field of the dormitory. Furthermore, in a field, it is not easy to understand the advantages of being a part of the Tech. This year the formal calls for eating classes have been canceled, but the above-mentioned articles in this paper today mark the official openings of the competitions and the various activities. The Tech is working on a plan which will give the freshmen a glimpse of what the Tech means.

HELLO DEAN!

I have received a letter from Dean Taitnott back with us at the start of an activity. At the time of his departure early in the third term of last year everyone was surprised with the suddenness of his going. We thought he was going away for a few weeks. But now we know he is back. He is the best friend we have. We have not seen him since his absence. The last time we met him was on the occasion of the 1923 Co-op. We were surprised to see him back. He is the real friend of every one of the students. One of the experienced and trusted officials of the Institute. We will welcome him back with open arms.

WALKER MEMORIAL DINING SERVICE

The Cafeteria and Grillroom are now open for all meals

Breakfast 8—11 A.M.  
Lunch 11—2:30 P.M.  
Supper 5—7 P.M.

Here you will find selections and service continuously soliciting your patronage

A. W. BRIDGES, Sept.

The Corp presents a changed aspect to students who have been out of the Institute for the last few months. This is due to the fresh personnel and the changes in the organization of the depart- ments having been absorbed in the Institute. The Corp has been strung together almost the entire year and has been greatly condensed and has replaced the old departmental system. The stationery department, under tech. major, has been absorbed in the Cop., and the first right-hand side of the room has been available for change accounts. The Harvard branch has extended credit to students for a long time, and so the Corp is keeping pace with the fluctuations in the economy.

HARRIS CAMERON

Always the Best

COLELY'S STAND

SEATS

To all friends of the Tech.
