THERE will be but one charity drive at Technological this year.

As far as the average student is concerned, relief is too many small dollars. You are asked to put into the box as much as you can afford. The box will be open during the first week of classes, so that you may start to contribute to it at once.

The Drive is to be used for the following purposes:

1. To supply funds for the special appropriation of the Student Body, the income of which is derived from the subscription of The Tench.

2. To furnish the student body with a suitable place to meet regularly.

3. To meet any other needs that may arise.

The Drive is to be conducted by the Student Body and supervised by the Student Council.

In closing, we wish to express our thanks to all who have contributed to this Drive and to assure them that their contributions will be used in accordance with the purposes stated above.

Yours sincerely,

[Signature]

Editor, The Tench.
