

# Harriers Romp at Ithaca—42 to 65

## HARRIERS WIN FROM CORNELL AT ITHACA

(Continued from Page 1)  
ning track in the football field and hence the relative distances between the men could be easily judged. It was on this home stretch that Fricker picked up a lot of distance he had been leading Bemis by about 100 yards throughout the race and he picked up another 100 yards in the home distance.

**Time Is Better Than Hendries**  
Fricker covered the course in a time better by 17 seconds than that of Bob Hendrie last year over the same distance. Fricker's time was 20:30 1-5 for the four miles. Bemis was clocked at 21:01 2-5, and Kirby came in 18 seconds behind him.

All of the times of the men coming in directly behind Fricker was close. After Kirby finished Rooney was right on the Cornell star's heels, only three seconds difference in their times. Rooney who showed up so well on last year's frosh team is developing into one of the varsity's strongest runners. Parkinson came in one second behind Rooney, his time being 21:23. The close order which the Engineers maintained throughout the race and kept at the finish is one of the best signs pointing to the strength of the harriers this year. Princeton was able to bunch their men last year and hence they defeated the Engineers solely on this fact.

After Parkinson finished fifth for Technology, Capt. Gubby Holt, and Glick one of Cornell's best runners, staged a battle for seventh and eighth place. Gubby won by 16 seconds, his time being 21:35. Coach Moakley's runners took the next three places, all three men were closely bunched at the finish, only one second separated their times. It appeared that it was then the Engineers turn to score in a bunch as Howe, Keplinger, and Duffy came in 11th, 12th and 13th.

The run raises the stock of Technology's cross country team 100 percent, as before the run, it was a question if Bob Hendrie's and Elmer Sanborn's shoes could be filled by the men running this season. In Fricker the Engineers have a great runner who, if he continues to do as he has been performing, will make a strong bid in the intercollegiate. Bemis, Rooney, Parkinson, Gubby Holt all have been showing improvement this year and the outlook for Technology looks very bright.

**Cornell Is Good Hostess**  
The treatment accorded the cross country men at Ithaca by the Cornell authorities could not have been better. Men met the train and took care to see everything was made as comfortable as possible for the Engineers. The course was one of the best that the harriers have run on, and everything was well handled.

### First Seven Scoring Men

- | M.I.T.  |                       |
|---------|-----------------------|
| 1       | Fricker, 20:30 1-5.   |
| 2       | Bemis, 21:01 2-5.     |
| 4       | Rooney, 21:22 3-5.    |
| 5       | Parkinson, 21:23.     |
| 7       | Holt, 21:23.          |

| 15      | Smith, 22:04.         |

## 70 PARTICIPATE IN ANNUAL FALL HANDICAP MEET

**Few Varsity Track Men on Hand—Candidates Green But Show Promise**

### F. E. GLANTZBERG '27 MAKES BEST SHOWING

About 70 men competed in the annual fall handicap track meet held at Tech Field Saturday afternoon. The number of athletes participating in the handicap was quite a little under the turnout of men for last season's meet, but the football game probably accounted for many of the absentees. Although some of the events suffered more than others by the lack of candidates, contests were held in all the branches of track, and it was clearly brought out that certain events are in special need of men.

Not many of the varsity track men competed and hence the majority of the athletes were new at the game. Some of the candidates made a showing that gives expectation of developing good material for future varsities and the results of the whole meet give Coach Connor a good basis on which to pass judgment on the candidates out for the various track events. The running off of the meet was in the hands of manager Bill Northrop as Coach Connor was away with the cross country team.

### Good Prospects Among Men

Many of the track men entered three or four events and most of them placed in at least two out of the events entered. Drew and Sanford of the varsity team came through in their contests, Drew winning first in the shot put and second in the hammer throw. Glantzberg, a freshman, gave the best all around exhibition in the handicap. He was first in the discus and the hammer throw besides being second in the shot put. In the hammer he was a scratch man, his winning throw going a distance of 163 ft. 3 in., while he tossed the discus 106 ft. 11 in.

Bailey showed himself able to place in the runs and in the broad jump, securing second in the 100, first in the half, and second in the broad jump. He is a Senior this year and was on the varsity squad last season. McHenry is fast developing as a broad jumper and will prove an asset to the Engineers if he continues to perform as he did Saturday. He covered 20 ft. 4 in. in his winning jump and came in second in the 220 yard dash. Knight gives good prospects of developing into a steady high jumper, his jump of 5 ft. 6 in. took the honors Saturday. He secured second in the 120 hurdles and third in the pole vault.

### Dashes Attract Most

Some of the events were overcrowded with competitors while others barely had the number of men to fill the placing positions. Three men ran in the mile run but the 220 dash brought out more candidates than could easily run in one race. 100 Yard Dash—Won by S. R. Weibel '27; second, Bailey '24; third, L. B. Copley '26. Not timed.  
120 Yard Hurdles—Won by H. M. Fitzpatrick '27; second, E. F. Knight '26; third, C. E. Tenry '26. Time 17 seconds.  
One Mile Run—Won by H. B. Smith '25; W. R. Cooper '27; third, A. S. Ford '26. Time 5 minutes 25 3-5 seconds.  
440 Yard Dash—Won by A. T. Mercer '27; second, M. W. Fort '26; third, J. A. Holland '25. Not timed.  
220 Yard Dash—Won by L. B. Copley '26; second, W. C. McHenry '25; third A. S. Heysler '26. Not timed.  
Half Mile Run—Won by Bailey '24, second Russell; third, Smith. Not timed.  
12 Pound Hammer—Won by F. E. Glantzberg '27; distance 163 feet 2 inches from scratch; second, Garvin Drew '25, distance 148 feet 2 inches. (Handicap 30 feet); third, A. F. Underwood '26, distance 112 feet 5 inches (handicap 20 feet).  
Javelin—Won by Gordon Joyce '24, distance 107 feet 9 inches (handicap 25 feet); second, Green, distance 104 feet 1 inch (handicap 20 feet); third, Miller, distance 115 feet (scratch).

## FRESHMAN SOCCER PRACTICE CALLED THIS AFTERNOON

**Both Members of the Team Are Expected to Report**

Both members of the freshman soccer team have announced that they are going to hold a practice this afternoon. With not enough men to fill the places on the frosh squad (substitutes are out of the question) the cub heroes of association football will have to be some snappy players to do justice to the schedule that has been mapped out for them. One consolation is that when a member of the team boots the pill he doesn't have to run down to the other end of the field to boot it back. The other half of the team or the coach is usually there to help him.

The varsity vindicated Technology soccer with two successive victories over Amherst and Clark. They are going to have their hands full next fall if they expect to fill the gaps in their ranks with erstwhile freshmen.

## FROSH FOOTBALL IMPROVING FAST

**Practice Scrimmage Saturday Showed Development in Line Holding**

### APPEAL TO 1925 MEN FOR FOOTBALL TOGS

In view of the approaching contest with the Sophomores, the freshman football team turned out in full force Saturday. There were enough men present to hold a practice scrimmage which lasted an hour. Coach Miller sent both lines against each other repeatedly in an effort to improve the tackling and blocking. At the beginning of the season the tackling was not what it should have been because so few of the men had had experience. The men are getting the knack of throwing the runner but they have still much to learn before they can stop the heavier Sophomores.

There is still some question as to who will do the punting. Cline and Cargile are the best kickers, each getting long distances and fairly good accuracy. Cargile, who shows especially good form, has been doing much of the kicking. Saturday's scrimmage showed improvement in the way of passing. Captain Haertl received the pass and threw the forwards and few were incomplete.

### Injured Men Back Again

Three of the best players were out all last week. Burke had a bad ankle which was thought broken at the time. An X-ray showed the contrary and careful examination showed that only a few tendons had been pulled. Although painful it was of short duration and Burke will appear at practice today. He was on the field Saturday but Coach Miller did not allow him to play. Burke will probably be in the line-up Friday and by tightly strapping his ankle hopes to show some of his old speed. Davier is back again after a week's lay-off on account of a sprained ankle. His snappy playing at center always boosts the pep of the team. Red Earl was suffering from water on the knee last week but is out again at his position at guard.  
With all the men out, it was possible to try out some new plays Saturday. The team was put through a stiff workout in signals on the field followed by some blackboard work away from the eyes of possible '26 scouts.

## JUNIORS RACE SENIOR CREW ON FIELD DAY

**Winner to Meet Sophomore Freshman Victor for Crew Banner**

### SOPHOMORES FAVORED FOR FIELD DAY RACE

The Senior and Junior class crew race is now scheduled to be held on Friday, preceding the Soph-frosh Field Day races, contrary to the original plans announced by the crew management to hold the contest on Wednesday. The final race to select the winner of the new class crew banner comes off Saturday as planned.

Suggestion from the oarsmen that the final contest would be fairer if both crews had the same rest from the previous races and the fact that there would be a larger number able to see the contests on Field Day caused the change to be made. This concentrating of the races into two days also should arouse greater interest than if they were spread over several.

### Senior Junior Race at 12:30

The start of the upper class contest will be made at 12:30 o'clock. The eights will cover the regular Field Day course of a mile, finishing in front of Walker float five minutes later. At 1:15 o'clock the second boats of the Sophs and the freshmen will show their speed. The frosh and Sophomore Field Day eights start at 1:30 o'clock.

All the outfits have now turned to early morning practice in order to get the fullest benefit out of their workouts. In the darkness of the evening it has not been possible for the coaches and coxswains to see the men well enough for much coaching but now the conditions are the best. With the rapid improvement the oarsmen had shown under the former conditions they ought to be in fine shape for the contest as the result of the morning coaching.

### Reserve Opinion

With the eights all improving steadily

**FROSH HARRIERS PICKED FOR RACE AGAINST CRIMSON**

Informal Meet With Second Varsity Held Last Saturday

The seven frosh runners who will meet the Harvard first year team this week were chosen Saturday in the race between the second varsity cross country team and the freshman harriers. In the absence of Coach Connor the run was held along the esplanade over a course of about three miles, starting from Massachusetts avenue and following the river to the turning point above Cottage Farm bridge.

Gaylord led the freshman to the finish line closely followed by Beattie and Smith. Then two second varsity men crossed the tape just ahead of the next four frosh harriers who finished and hence secured places on the team for the Harvard run, Gaylord was fourth among the entire list of runners, and made a mighty good showing in spite of the fact that he was suffering from a bad boil on his leg.

**Grossman Is Winner**  
Grossman was the winner by a good ten yards over Fife, and Preston closely followed Fife over the finish line. Only the first man across the line was timed; Grossman covering the course in 15 minutes flat. Beattie and Smith and the two varsity men Myrick and Robertson were very closely bunched at the finish and only a foot or separated each one.

The freshman have not had much chance to show what they can do so far this season although the men who were picked for the team Saturday ran in the practice race with the varsity last week. In that race Gaylord finished 13th out of the entire field of runners while Beattie was next in place for the frosh with 25th position. The other freshman harriers finished in Saturday's run much as they did in the practice races a week ago.

## Beavers Win Over Clark and Amherst in Soccer

Winning over Amherst, 2 to 0, and over Clark, 1 to 0, the varsity soccer team started its fall season with two victories. The first game, that with Amherst, was played last Friday afternoon on the opponents field. Rug Santos, Ruiz and Young shone for the Engineers.

The game had hardly started when Santos, receiving the ball from Ruiz, booted the ball past the Amherst goal for the first tally. Throughout the game the Beavers kept on the offensive, the ball rarely leaving Amherst territory. The game, however, was hotly contested by the locals, who fought hard every minute of play. The second Technology score came in the second period when Ruiz slipped the ball through the Amherst defense.

**Clark Falls by 1-0 Score**  
The next day, Saturday, the team

journeyed to Worcester to play Clark. Though tired out by their previous game, the Engineers never gave their opponents a chance to score. Again they played an offensive game, keeping the ball well into enemy territory. A number of goals were missed by the worn out Beaver team, but finally Young tallied on a free kick following a Clark penalty.

The game was hard fought, but the playing was not nearly as clean as in the previous contest. There were many fouls and consequent penalties, a few of them by the Engineers, but by far the greater number by Clark.

The Engineers had the same lineup in both games. It was as follows: Forwards, Lin, Marquis, Ruiz, Santos, and Lew; halfbacks, Knight, Jones and Sheppard; fullbacks, Sun and Young; goal, Captain Duvéal.
