BIZARRE COSTUMES FEATURE ARCHITECTURAL POVERTY PARTY

The Rogers Building was temporarily turned into a pane house last Friday night as the Architectural Society staged its first dance of the year. As advertised, the music began at 9:00 and the few couples that were there began the进展情况 through the festivities. The Faculty Ballroom was decorated as some tenement block yard might be, the suburbs of the city, and from there were suspended above the dance floor, as they appeared to be hanging from the ceiling, and from them were suspended above the dance floor, as they appeared to be hanging from the ceiling, and from there the dancers moved about as if they were in a dream world. The dance was not only a success, but it was enjoyed by all who attended.

WATER POWER IS THE SUBJECT OF A LECTURE

Financing and Designing of Water Power Project

Described

"WATER HAS BIG FUTURE AS A SOURCE OF POWER"

Apprenticeship Very Essential to Men Starting Out in Engineering

By Charles Rich '24

"The development of water power is a part of the great progress of civilization," said one of the great builders of our water power industry, W. J. A. Walker, in a lecture given in the lecture room of the Electrical Engineering building on Monday afternoon as part of the scientific program of the Vol. XLI No. 59 CAMBRIDGE, MASS., MONDAY, NOVEMBER 26, 1923 Five Cents
