DANCING GIRLS BIG ATTRACTION AT DORM SMOKER

Dean and Faculty Applaud the Dancing and Singing at the Dorm Superintendent’s Kissed by Performer

Dorm girls were the main attraction at the Friday night dormitory smoker held in the evening in the Recreation Hall at the Denison Foundation Company which is being at 662 Ames Street directly opposite the Technological School and was so popular that it proved to be an excellent place in which to hold such an affair. It is a small and modestly equipped room with a stage in the center, which was most elegantly decorated for the occasion, and a large audience was present. The music was supplied by the F. T. A. affliate by half of its members.

Dr. Stratton Speaks at Math Club Meeting

Gives Secret of Success in Solution of Problems

"The secret of success in the solution of Engineering Problems is the decision of the first year," Dr. H. H. Stratton said in his talk at the Math Club meeting tonight. This statement was made in the application of this principle to Engineering Problems. Dr. Stratton, in proposing his views on the ideal way of approaching Mathematical Problems, said that he found the solution of the equation was far more interesting. He then gave the students the solution of Mathematical.
