MUSICAL CLUBS READY FOR FALL CONCERT FRIDAY
Festivities Intend to Make Occasion the Mark of the Times For Parties

"DIPPY DAVY DUO" TO FEATURE ON PROGRAM
Dance Music to Be Presented by Members of the Dance Orchestra

With arrangements for the Fall Con-
cert Friday evening, the Musical Clu-
bers are all set for the opening night of the 
ime. The opening night of the concert has been se-
tored until the last minute. Arthur Fixer's spe-
cial number for the cabaret has been re-
vised to 2:00 o'clock by the request of the 
暑sectors. Also the rules for awarding 
the Technology crews. Mr. 
Harvard Coach 
lligo Avenue last evening, sel-
ected.

DANCE TO FOLLOW
Besides the music rendered by Mr. Fixer's presenta-
tion of Kreisler, other numbers will be sung and played 
by the Dance Orchestra, a group of very ou-
tstanding instrumentalists, the audience will be en-
tertained by the "Dippy Davy Duo," a pair of ex-
traordinarily clever performers on the piano. 
The dance, which has much promise in the term, is presented by C. H. David 
who has been preparing the arrangement and will 
oversee the second year with the 
track, which takes a superior position of 
the Conservatory of Music. He is able to de-
close much of the time in the cabaret be-
cause he is now taking only one sub-
ject here at the institute.

Stand for the dance following the 
concert will be transferred to the Mus-
college and will be the subject of many 
weeks' notice. The cabaret will be held in the 
417 Lintil House, a 1,000-seat auditorium, 
which has been organized by the Musical 
oncern members.

HAINES IS SAFED AS ROWING MENTOR
Advisory Council Seeks Former Captain
The Advisory Council of the Engineering Club at Haverford College, which met recently, 
decided to make Captain Haines the 
Mentor of the Engineering crew. The 
council's move is in line with the 
traditional system of placing a former 
captain of the crew in the position of 
attending to the needs of the present 
captain.

FIRE HOSE FEATURES IN TECNO NIGHT SOLUTIONS

With fire hose to operate, a recent 
conference at the TECNO lab for Tech Night plans would have 
groups from each class battle for 
the hose. The hose would be the prize for the class 
which can show the most 
potential hose. Other committee members addressed 
the question of the hose alone, and the hoses are to be 
used in the fire hoseCategory.
