I tend to forget his resignation as  
AJH at the same time. John A. Hoxie '25, Director of the Colleges Social Committee, just before the beginning of the spring term announced his resignation as the editor of the "Technique Board." He remained as the editor of the Technique, and goes through to his last year at Harvard as the editor of the Technique 1925. He has been an active member of the Technique Board, but the decision was made after much discussion. He has been the editor of the Technique for three years, and has done a good job in keeping the Board up to date. His resignation was accepted by the Technique Board, and the new editor will be announced soon.

**COURSE VIA WILL TAKE 56 NEW MEN**

By arrangements completed yesterday, an additional 56 students will be added to the present class. The number of students in the Technical Department has increased to 56, and the students will be admitted to the class as of September 15th. This is the first year in which the Technical Department has admitted students for the fall term. The students will be admitted to the Technical Department on a competitive basis, and the examinations will be held on September 15th.

**FRESHMAN GRAY BOOK**

Appearance Delayed Until the First of Next Term

The freshmen Gray Book which was planned to appear shortly after Field Day has been delayed until the first of next term. This is the first time in the history of the Institute that a freshmen Gray Book has been delayed. The delay is due to the fact that the freshmen Gray Book is not yet ready for publication.

**INSTITUTE INDUSTRIAL DIVISION RECOMMENDED**

In his annual recommendation to the General Council, J. C. Holmes, Chairman of the Institute Industrial Division, recommended the establishment of a new division to be known as the Institute Industrial Division. The new division will be responsible for the development of new industries and the promotion of existing industries. The recommendation was adopted by the General Council, and the new division will be established as soon as possible.

**ALUMNI COUNCIL CANCELS HOCKEY NORTHERN TRIP**

Team Standing Not Good Enough To Warrant Trip Says Council

More machines to be obtained for bowlers

Crew will have new equipment for the winter season

More equipment for crew the award was also gone over at the meeting. It was decided to purchase two new position rowing machines, and the new equipment will be used for the winter season. It is probable that another boat will be purchased, and it will be used in conjunction with the new equipment.

**CALCULATION**

I think it is a little more difficult to calculate the number of possible combinations. If we assume that each event can take place in two ways, then the total number of possible combinations is the sum of the number of ways each event can take place.

**DR. SHIMER TO SPEAK OF THE NORTHERN TRIP**

First Popular Science Lecture Given by Society of Arts

The first Popular Science Lecture was given by the Society of Arts. The lecture was given by Dr. Shimer, and was on the subject of the northern lights. The lecture was well attended, and the Society of Arts expressed its appreciation of Dr. Shimer's lecture.
