THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY
Cambridge, Mass.

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY offers courses, each of four years duration, in Civil, Mechanical, and Electrical Engineering; Chemical Engineering; Paper Manufacturing; Chemical Engineering; Mining Engineering and Metallurgy; and Chemical Engineering; and Architectural Engineering; Chemical Engineering; and Public Health and Sanitary Engineering; Physics, General Science, and General Engineering, and in Engineering Administration. These courses lead to the Degree of Bachelor of Science.

To be admitted to the first-year class, applicants must have attained the age of seventeen years, and must satisfactorily fulfill entrance requirements in Algebra, Plane and Solid Geometry, Trigonometry, Physics, Chemistry, English, History, and French or German and one elective subject. Examinations are required in all subjects except Chemistry, History, and the elective, the requirements for which are fulfilled by the entrance examinations. A division of these entrance subjects between different examination periods is permitted.

Entrance examinations are held at the Institute in September. In June, applicants may be examined by the College Entrance Examination Board in Boston, New York, Philadelphia, Chicago, and other similar cities in America and Europe. A circular stating times and places is issued by the College Board.

Entrance examinations are held at the Institute in September. In June, applicants will be examined by the College Entrance Examination Board in Boston, New York, Philadelphia, Chicago, and other similar cities in America and Europe. A circular stating times and places is issued by the College Board.

Graduates of colleges and scientific schools of collegiate grade, and in general, all applicants presenting satisfactory certificates showing work done at another college corresponding to at least one year's work at the Institute, are admitted without examination, on such advanced standing as is warranted by their previous training.

Graduate courses leading to the Degree of Master of Science, Master of Arts in Architecture, Doctor of Philosophy, and Doctor of Science are also offered. Special Research Laboratories of Physical Chemistry, Applied Chemistry, and Science have been established.

PUBLICATIONS
Bulletin of General Information, Courses of Study, Summer Sessions, Advanced Study and Research; and the Report of the President and the Treasurer. Any of the above named publications will be mailed free on application. Correspondence should be addressed to

Massachusetts Institute of Technology

THE EXCELLENCE OF

is, to a large degree, the result of thorough training in applied sciences, which du Pont Chemical Engineers have received in the universities of America.

The future has still greater problems to be met and the chemical engineer of tomorrow will be called upon to solve them.
