beats and seemed to have all his endurance with him at the end. He mounted the parallel bars and made a great showing.

Fencing

Fielding, Murphy, and Holmes Take Gold in the N.R.A.

Nine members of the rifle team will receive medals awarded by the War Department. The team is making a trip to Colorado obtaining an average of 90 percent or more in the international meetings. Ten points over 90 percent. Murphy was a close second to Fielding who came in third with 95.2 percent. The competition over the past week when Technology took third place behind Cornell and Stanford. It was not certain they were out of it, and taking the third last shots. The medal is of bronze and it has been unusually awarded only once in the season. The victors in this scoring will receive a bronze medal, 30 by 6 by 1 inches. de the scene.

Captain D. A. B. and his team are as follows: Technology: C. A. and

D. A. B. and the others were as follows: After winning the match and match by a fall in 6 minutes and 5 seconds.

Burke in Finals

In the final of the team match of the Engineers defeated their team-mate Dick Throckmorton. The match was played as a tied match, 1 in 1 and 1 in 2, and Burke was defeated in the final round of 1 in 1 states. In the original match Burke was defeated by the Cambridge winner by a fall in 10 minutes and 28 seconds.

SWIMMING SQUADS

The institution of spring and fall swimming at Technology is a new precedent which is probably the reason for its being so

COACH DEAN TO CONTINUE

In previous years when at the end of the season the swimming season terminated both the varsity team and the novice team were disbanded, and the overachievers hook up a new sport or in the case of the freshmen submitted to experienced hands. This year, however, though the co-store is the same as before, the novice team has been adopted. The novices will practice all through the spring term, and in this way the freshmen will be having a strong spring, a preliminary to the first year winter meet. The novice team will be prepared to a greater extent. The spring term will not be cut down before the current team begins to train. The novice team should be capable of doing well with proper training and if they are trained properly they may be capable of coming in third place or even better. The novice team is a new idea and it is an experiment. The regular team will not be affected by this move. The novice team will be prepared by the regular team to a certain extent. The novice team should realize that the novice team is the same as before, the novice team has been adopted.
