ANIMAL SEEN IN DORM MANS AUTO FRIDAY EVENING

Technique Receives Anonymous Mission — Photograph

"Don't cry little boy—here's your god- damned beauty" specification on a small piece of paper that was left under the windshield wiper of a car parked in the east lot.

I have never seen anything like the note, and even the name of the person who wrote it is a mystery. Although it is a small piece of paper, it is a caution to all drivers who want to park in the east lot, and is a reminder that the parking area is not just a place to leave your car, but also a place to leave your manners.

The note was left under the windshield wiper of a car that was parked in the east lot on Friday evening, and is an example of the kind of behavior that is unacceptable in our community. It is a reminder to all drivers to be respectful and courteous to others, and to follow the rules of the road.

DEADLINE EXTENDED TO JUNE 10

The deadline for the submission of papers to the International Conference on Artificial Intelligence (ICAI) has been extended to June 10.

The conference, which is being held in Tokyo, Japan, will cover a wide range of topics in artificial intelligence, including machine learning, computer vision, natural language processing, and robotics.

The extension of the deadline is intended to give researchers more time to prepare their papers, and to allow for a more comprehensive review process.

PAPERS NEEDED FOR ICML 2024

The International Conference on Machine Learning (ICML) is calling for papers for its 2024 conference.

ICML is one of the premier conferences in machine learning, and attracts papers on a wide range of topics, including deep learning, reinforcement learning, and probabilistic graphical models.

Researchers are encouraged to submit papers that contribute new insights and advances to the field of machine learning.

SUBMISSION DEADLINE EXTENDED TO JUNE 20

The deadline for submission of papers to the 2024 conference of the Association for the Advancement of Artificial Intelligence (AAAI) has been extended to June 20.

The conference, which will be held in San Francisco, California, will cover a wide range of topics in artificial intelligence, including machine learning, natural language processing, and cognitive science.

The extension of the deadline is intended to give researchers more time to prepare their papers, and to allow for a more comprehensive review process.

CALL FOR PAPERS

The 2024 conference of the Association for the Advancement of Artificial Intelligence (AAAI) is now accepting papers.

AAAI is a leading organization in the field of artificial intelligence, and the conference is one of the largest and most respected in the field.

Researchers are encouraged to submit papers that contribute new insights and advances to the field of artificial intelligence.
