VARSTY TO RACE SYRACUSE FRIDAY ON SENeca RIVER

Gazette To Entertain tonight As to Have Thursday for Practice

VALENTINE IS AT STROKE
Crews Put Through Staik Work-Infatuated for Syracuse Race

After a number of only three days here the Varsity crew will leave for Syracuse tomorrow where they will race in a number of one quarter mile race at Syracuse river course on Friday the 4th. During these three days the crew has been going through the eight hour work of practice which was characteristic of Coach Bill Halsey's preparations for the November. The live of the crews has been unchanged since the first week of the season. The training has also differed in this respect between the varsity and other crews. The training for the varsity crew was not taken in hand by the shell crew in any way, but the varsity crew has been at practice from day one in the previous weeks.

Professor Hofman Sick Ever Since
In Charge of Department of Mining and Metallurgy
For Seven Years

Dr. H. O. Hofman, Professor Emeritus of Metallurgy and Mining of the head of the department, died at his home in Jamaica Plain Monday morning of a heart attack. The cause of death was not published, and the family has declined to disclose it.

Mr. Noyes, Assistant Professor of Mining in 1889 and in 1894, due to the death of Professor R. H. Richards and as a special lecturer to the students. He was appointed Assistant Professor of Mining in 1899 and in 1901 joined the faculty of the Massachusetts Institute of Technology in that subject.

In his later years he devoted himself to the teaching of Metallurgy in the V.C.A., teaching two courses in the subject. The latter of these two courses will also contain an additional section in the spring.

Wrote Many Books
For 35 years after his graduation from the School of Mines, Professor Hofman was associated with the Mining Department, first as a student and later as a member of the faculty. He has written numerous books and articles on the subject of mining, and his work has been widely read.

Senior Submits Check to Fulfill
Moral Obligations to Technology

At the request of the author of the letter printed below, Horace B. Ford made a voluntary contribution of the cost of the Corporation of a year's work for a group against the assault on the grounds of the factory. The case was heard on Thursday, and the ruling was announced at 1.30 on Friday.

It is not possible to say how much money the Corporation of Technology will receive from the sale of the book, but it is believed that it will amount to several hundred dollars.

EX-PRESIDENT NICHOLS DIES WHILE DELIVERING LECTURE—PROFESSOR HOFMAN STRICKEN BY PARALYSIS

EXPERIENCED BREAK SOON AFTER BEING CHosen PRESIDENT

End Come Unexpectedly During Lecture at Academy of Science Meeting

DEATH SURPRISE TO ALL
Inauguration as President of Technology Took Place

June 8, 1921

Officials at the Institute were greatly shocked yesterday when they received the following telegram from President-elect:

Washington, D.C.

President-elect Nichols died suddenly this morning while delivering an address before the National Academy of Sciences. His body lay at half mast.

The telegram said: "President Nichols has died. The death of this great man has shocked the nation. The nation has lost a leader."

The death of President Nichols was a great shock to the nation. He was a leader and a man of great ability.
