ENGINEERS IN TOP FORM

Syracuse Has Strong Varsity Eight Jim Ten Eyck

After the great advance made against the strong Navy crew at Annapolis last week, nothing short of a clean and decisive victory will be expected from the young Orange Eight at the West Point races this Saturday. Should it come off, it will be another feather in the cap of Coach Bill Haines, who, by the way, is in his third year and has much more than a fighting chance to win. The whole of the Orange varsity, both men and women, are already turning in good work and some varsity eight, who is not too young, will win the first race, and if time permits will repeat the performance in the second.

Syracuse has a good chance to win the second race, and will march past the reviewing stand in the line of the foremost. Both of the most promising teams will be given the highest award an engineer or student can receive, and the Orange Eight will be given the honor of being the foremost in the country. To win the title at West Point is something that has never been done before. Our forecasters, however, believe that the Orange Eight has much more than a fighting chance to win the first, and if third, it will be a good indication of the season.

Introduction of Technology

In the introduction of technology, the new and the old methods are combined, and the result is a more efficient and effective method of doing the work. This year, Syracuse has been given a chance to try out some of the new methods in its knowledge of the metric system. The new system is a great improvement over the old system, and it is expected that it will be adopted by many of the leading colleges and universities.

FRIDAY LAST OF YEAR

MUSICAL CLUBS DANCE ORCHESTRA
Will Furnish Music

An informal Dance is to be held at 3656 College Avenue, this Friday. It will be the last informal Dance of the school, although there will be a Socially dance given later this term. The lecture will be informal, however, and it will be held in the full Hall of Engineering with the addition of the new orchestra. The music will be furnished by the entire Musical Clubs Dance Orchestra, consisting of the best players from the various clubs.

FRIDAY LAST OF YEAR

CALENDAR

May 29

8:00 AM: Graduation and the World of Science, Science Hall

8:00 AM - 10:00 PM: Graduation and the World of Science, Science Hall

8:00 AM - 10:00 PM: Graduation and the World of Science, Science Hall

8:00 AM - 10:00 PM: Graduation and the World of Science, Science Hall

8:00 AM - 10:00 PM: Graduation and the World of Science, Science Hall

5:00 PM - 7:00 PM: Graduation and the World of Science, Science Hall
