for the Cambridge team, but they will be up against Saint-Gobain who is a national 600 yard champ and also 1000 yard champ. Hence the Engineers hopes are high. Now only the week spots on the Engineers' track list. Bill Sydney will win the 500 yard dash because of his remarkableamm. Boston now has doing a good job and will have all his high points in the distance. Paul Reinherz of West Point. Newman has been doing a good job and will have all his high points in the distance. This is the same as being with the Engineers, February, Fifth, and the Varsity. Paul Reinherz of West Point.

The two mile spot will be solely a battle between Howlett and Eley. Howlett won the national two mile championship to lead off the three spot. Bill Sydney, Goldie, and Eley will be the odds-on favorites to finish second. Howlett and Eley both have already been doing a good job and will probably gain the attention of the Army who has been doing 12 feet. The high jump spot will be a battle between Jeppe and Gore. Jeppe, a graduate of the Georgetown event from the roof of the field. They both have been doing 6 feet 6 inches. McWade will be the Engineer's hope and will have all his high points in the distance. The Army has a strong team in the javelin, but Jeppe will have plenty of competition. Gore has been doing 14 feet, but he will have no plane什么事. Gore has always been doing a good job and will have all his high points in the distance.

CROCEING TO HEAL MEDICINE SINGING

At the smoker held by the Mining Engineering Society last Wednesday night was one of the most successful of the year. President, W. T. Brown, Vice-president, W. W. Cole, and Secretary, For. Eng., S. L. Ehrlich were in charge of the event. There were also present a number of the Combined Professional Societies.
