THE OLYMPIC TRIALS

AFTER completing the most successful crew season ever since the institution of the sport, the Institute is now planning to be represented by its own varsity teams at Philadelphia. The fact that eight in the country will compete, and the crew will be indeed fortunate to secure first. There is still three weeks to go, however, and the victorious team is working its hardest in practice.

A year ago we finished a most satisfactory season of racing. We won the May-Meet with the use of the present of the “Old” mats now rowing. Now, while not the leaders, we stand well to the top. We were more than a match to the experienced crews by Amherst and Syracuse. Could we defeat them? Improved in such a short space of time can only be attributed to one man. When Coach "Bill" Haines came to the Institute, racing was at an ebb. In an instant, he built up the crews until we stood close to the leaders of the country. He has had loyal alumni and student support, it is true, but without his personality and ability back of the scenes, the institution could not have had the standard it now has at Technology.

Philadelphia offers still another chance to Coach Haines’ charges. The winner of the race there will be accredited as the best crew in the United States. An honor indeed, and a difficult one to attain. The men at the boat house are putting forth their best, to bring this prestige to them and to the Institute. We, the rest of the student body, are luck of them. The next few weeks will mean hard work for them. But we are proud of them and visit them frequently.

THE ADVERTISING COMMITTEE

A NEW committee has been recently organized whose duty it will be to decide on the methods of obtaining advertising from the various student publications of the Institute. The chairman of the committee is appointed by the President. Each activity that puts out any sort of publicity in which advertising matter occurs is represented by one man. The Technology Christian Association, Tech-Row, Tech-Row, the Athletic Association, the Cambridge Society, and The Tech will each send one member, so that all sides of every question can be intelligently discussed.

The advertising committee, Alaham, have been prevailed upon to insert advertisements in one of the undergraduate papers. In a very short time a candidate for one of the other papers will see it and try to get a similar one from him. Frequently, one man will be approached by several men from the same publication. He soon begins disgusted with the way things are run at Technology and refuses to give any support in the future. It is to prevent such unhappy events that the new committee has been instituted. Its main object is to get all advertising subject to certain rules that will do away with the chances of antagonizing those who are kind enough to help us put across our publications.

LOUGHER進步

LOUGHER has been awarded the reputation of being the finest of the young players, and last Saturday the Lougner (bunks Room 305) will have his day. There is no doubt that his performance will be as underestimation as its recent. If they haven’t, then he may well say, "I think I'll give the sign to try again," for it is no other than the equal of the crest of the boys. The boys will be the ones that comes varying any option on the subject. The Lougner will have a definite contest in front of them.

Cheer us Boys, the season at Roun is once more with us. The Lougner has on his person a free ticket to a football party to be given by Tech to the best student body. The party will be at the Hotel for the night. The Lougner will have a definite contest in front of them.
