**COMBINED CLUBS MUST FACE HEAVY SCHEDULE**

Will Try To Interest Fresh At Meeting Wednesday

The Combined Musical Clubs have re-quested that all 28 new instructors or who are at all musically in-terested get together in room 10:25 on Wednesday, October 8, at 8. Sponsors will be present to inform the new men about the workings of the clubs and also to answer any questions that may arise. Efforts will be made to interest as many new men as possible.

The organization is entering upon another extremely vigorous season, and they are preparing for serious local con-serts, the Fall, Winter, and Spring series of concerts as usual, and two intercollegiate concerts and dances such as the one held with Dartmouth last year. As far as arrangements have gone concerning these intercollegiate concerts, it appears that one of them may be with Brown University in the spring, and the other with the University of Chicago.

**COMMONWEALTH BEGINS WORK ON HARVARD BRIDGE**

Repaired Structure to Cost $900,000—New Roadway To Be Block Paved

About the middle of last July, signs were first shown of considerable interest in the £3,200,000 com-mencing attention in the fact that the Harvard Bridge is to be closed to all through traffic in Boston during the next six months, when the repair work will start.

Almost immediately, a large gang of workmen was sent to the scene and a crew of more than 200 workmen was put to work to tear up the already broken roadway.

Shanties appeared in the Memorial Bridge. The noise of grates and rivets which came from the repairs is frequent, and the noise of men at work to spend its $600,000 in repairing the Harvard Bridge.

**CONDOMINUM SWIDKOFF**

Now preparing to the Institute the Fall will be a new GOODWILL to be held in its school to enable the students to get along with materials and other conviences in the work of the clubs. A great deal of the accommodations offered in the University during the football season, at these intercollegiate concerts, it appears that the best men will have to be brought out and that the best of the clubs. All men interested are ad-vised to keep watching bulletin boards around the Institute. All necessary Infor-mation respecting competition and otherwise relating to the clubs will be posted thereon.
