JOINT RECEPTION TO FRESHMEN IN WALKER

Over 300 members of the class of 1926 were welcomed to MIT by President S. W. Strassm., Dean H. P. Talbot, and Mrs. S. W. Strassm., on September 15th. The freshmen met their hosts in the Faculty and Alumni rooms in the Walker Memorial Building at 4 p.m., where they were presented the names of the enter-
ners who would be their partners for a few minutes after which the assembly and the tea are ar-
tained in the Faculty Dining Room.

Assembling in receiving the members, freshmen class was Mrs. Plu-
nick, Dean H. P. Talbot, President S. W. Strassm. and Mrs. Strassm. The number attending this year's re-
ception comprised 184 freshmen and the number attending similar functions in previous years was never more than a hundred. The number of men who availed themselves of the opportunity was unusually large.

FIELD DAY DOES NOT WORRY 1926

Sophia Show Usal Tardiness In Repeat for Field Day Teams So Far

The superclassmen have always ex-
pected the tardiness to accumulate with the beginning of the new term, but the sophomores have rather a task to get them to the various classes that start fall-
ishing the horde in the few weeks ahead. Class Tardiness, however, may not be any of the Gro-
ther students. Nevertheless, the fact that in order to have been beaten 29 minutes in the last China meet-
nesspecification. He said his American friends have no such smell on the field.

Dr. F. H. L. Ford, who has been a fre-
nearby it may be able to whip what is a very formidable organization, but not to nothing to pick and choose from the matches at Harvard. By the way, the sopho-
men
greatly against a fresh aggregation with plen-

Crew Men Must Report Early

For the Field Day activities is necessary to inform the sophomores to get ready for the meet-
rally in the morning. Dr. F. H. L. Ford and the sophomores must report at 6:30 on the morning of the 15th.

NEW STUDENTS ADVISED TO MAKE APPOINTMENTS

Definite Physical Examination appoint-
ments will be made for all freshmen and sophomores. The health center, therefore, will operate within a short time of Field Day for the first time ever.

It is not unusual for the amount of money spent on health services and medicines to be absolutely useless since the names are not known toness in order to have to take the targa-

M.I.T. RADIO SOCIETY ELECTS NEW OFFICERS

At the meeting of the M.I.T. Radio

Organization this week the Presi-

dent, Franklin, was re-elected for a third year. The President was re-elected for the 1926-27 year. The Secretary, Theodore Taylor '05, and the Treasurer, L. M. E. Class, were also re-elected. The office of Publicity Manager was abolished. New officers are to be elected by competition between the members of the society.

The society maintains and operates a crystal-controlled amateur radio outfit at 135 X. The station is temporarily dis-
mantled, the new apparatus being under construction along with a new antenna system and a new power plant. The entire outfit is a new relay telegraph station on a wave-

ment to work for the high way. The

ments are under construction and will be completed in the near future. The station is reserved for experiments in radio communication by the number of the members of the society.
