Shako and Taylor Of Former Technology To Help In Sabers

Fencing is well under way for another fighting year. With Prof. Danguay as coach and several other assistants, the team has bright prospects for the future. It has been shown that the team is well on the way to becoming one of the strongest in the country, and that this year's Freshman squad is a very capable group.

The Freshman team is still an uncertain factor, but several of these promising young men are expected to do well in the coming season.

In Brown and Holy Cross they will meet two opponents as both schools have been practicing diligently for quite a while and have won several meets. As Brown is still the champion of the country, it is quite strong as they are up against it in every way.
