Fourteen for President

Polls to Be Held in Basement Of Building 2 Instead Of in Walker

Considerable interest has been shown by the students in the present election campaign, which is to be held Wednesday, judging from the large number of ballots cast so far. The polling place has been moved from room 207 of Building 2, near the freshman lunchroom, to the basement of Building 2 next to the athletic field. The votes will be counted by the student committee on a large bulletin board which is to be installed on the west wall of the basement. This will make it possible for the students to see the results of the voting as they are cast.

Frosh Nominate Sixty-Five Men For 5 Positions

In its first move in the election campaign, the Freshman Class has nominated sixty-five candidates for the five positions on the Executive Committee, which is to be elected by the Freshmen. The elections will be held next Wednesday in the basement of Building 2, near the athletic field.

Suggestion: Increase in Membership of the Student Body

The Student Body is urged to increase its membership by offering the Freshman Class a greater share in the governance of the University. This would be achieved by increasing the number of delegates elected from the Freshman Class to the Student Council, thereby giving the Freshmen a stronger voice in the decision-making process of the University.

Engineering Magazine on Sale This Morning

Tech Engineering News Appears With November Issue

Tech Engineering News went on sale this morning in the main lobby with its November issue. One of the important articles it contains is a description of a new graphical method for the computation of the critical path of a network. The method is based on the principle of the critical path method, which was developed by the author of the article. The method is particularly useful for the determination of the critical path of a network, which is the path of minimum duration between the start and finish of a network.

Charles Drive Closes Short of Goal

Although the Combined Drive raised more than $6,000, the quota for this year was $50,000, and it failed to come up to the minimum of $45,000, which was predetermined by the Combined Drive Committee. The drive was conducted on Wednesday, November 12, and the final count showed that it was short of the required amount.

Dormitory Smoker is Lively Affair

The entertainment furnished by the "smokeless" cigarettes, as called by the students, was a great success at the Aldred Lectures held Friday evening in the conference room of the dormitories. The audience was quite large, and the smoker was well attended.

Friday November 16

J. G. Barnisworth, F. W. Samroski, and R. H. Titherington were the only classes to fulfill the quota, which was set at $3000. The materials committee, which is responsible for the collection of materials, reported that the quota was far from being met, and that the materials committee will continue to work on the drive to make up the deficit.

Except for the drive, the combined program for the day was quite successful. The drive, which is the main event of the day, was attended by a large number of students, and the music for the program was furnished by the Student Band and the Dormitory Orchestra.

The next meeting of the drive will be held next Wednesday, and the committee on the drive is working hard to make up the deficit. The committee is working hard to make up the deficit.
