SOUTHWESTERN UNIVERSITY OF TECHNOLOGY

VARSITY BASEBALL

RECENT discussion has pointed out that many things are happening in the present era. The arguments advanced for and against the idea are about equal in number, and whether or not the argument goes over to the general public is up to us. In spite of the difficulties in the way, these difficulties, which culminate against Varsity baseball, include, first, the fact that a coach would have to be secured and, secondly, that there would be insufficient financial support. It has been determined for us to go through with it and to carry on. In an effort to improve the condition of the team, the following difficulties have arisen: the small enrollment, the shortage of players, the lack of field conditions, the lack of coaching, and the lack of financial support. These difficulties, which militate against Varsity baseball, in connection with this movement, will be determined upon. The outcome of this movement will be determined by the number of people who will support it and by the decision of the team. The outcome of this movement will be determined by the number of people who will support it and by the decision of the team.

To the Editor-

Many students have asked what is the basis of the Progressive Party. The basis of the Progressive Party is the belief that the people are the rulers of their country, and that the government should be in the hands of the people. The party is founded on the principle that the government should be representative of the people, and that the people should have the power to elect their own leaders. The Progressive Party is a party of the people, and it is a party of the future. The party is founded on the principle that the government should be representative of the people, and that the people should have the power to elect their own leaders. The Progressive Party is a party of the people, and it is a party of the future.
