**PROFESSOR NORRIS TO HEAD AMERICAN CHEMICAL SOCIETY**

Institute Professor Chosen As President by Recent Elections

Professor J. F. Norris of the Department of Chemistry at the University of Pennsylvania has been chosen by the members of the American Chemical Society as their new president, it was announced yesterday by the headquarters of the organization in Washington, D.C.

Professor Norris, who has been associated with the American Chemical Society for many years, has been at the University of Pennsylvania since 1889. He has been a member of the Institute of Chemistry for over thirty years and has held numerous offices in the society.

The American Chemical Society is the largest scientific organization of its kind in the world. Norris will have the honor of being the first American chemist to hold the presidency of the society.

Norris was elected president for the term of one year, beginning January 1, 1925. The elections were held at the meeting of the society at Washington, where the members assembled from all parts of the country.

**STUDENTS DESERT INSTITUTE DURING CHRISTMAS PERIOD**

Examinations on Monday Delayed of Numerous Employees

Cafeteria to Stay Open

Some Students to Continue Research During Holidays

Practically every college of the state will be deserted during the Christmas period. Students in many of the colleges have been warned that the period of examinations will last from December 23rd until January 9th. Most of the men will leave the campus for the holidays and will return for the session at the end of January.

Several of the students who are not taking examinations will continue their research during the holidays. They will continue their work in the laboratories and are expected to make the most of their time.

**Fleet of Labrador Fishermen Being Repaired in Pratt Building**

Eight Labrador ships are at present winter quarters in the second floor of building 55. The ships, which have been advertised for sale, are being repaired by the School of Engineering.

The vessels are owned by Mr. J. H. Pratt, who has been engaged in the fishing business for many years. The ships are being repaired by the School of Engineering to make them suitable for fishing purposes.

**Numerous Features Will Entertain Graduates at Get-Together January 3**

Tabular View Is Best Of All Cross Puzzles

THE TECH yesterday was the recipient of a special message from a student who was interested in the puzzle that appeared in the paper yesterday. The student had been able to solve the puzzle, and wanted to know if there were any more puzzles that could be solved in a similar manner.

The puzzle, which is called the "tabular view," is a type of cross puzzle that is popular with students. It consists of a table divided into sections, each containing a word or phrase. The student must fill in the blanks with the correct words to complete the table.

**DR. S. M. VAUCLAINE SECURED TO SPEAK AT ANNUAL AFFAIR**

Will Be Held in Walker

More than five hundred alumni are expected to attend the annual alumni meeting of Harvard Alumni, which will be held in the Walker building on January 3.

Dr. S. M. Vauclain, who is a prominent member of the alumni, will deliver the address at the meeting. The meeting will be held at 2 p.m., and will be followed by a banquet in the main dining hall of the university.

There will be singing of 1924 songs and other alumni business will be taken care of.

**GENERAL BULLETIN FOR SECOND TERM APPEARS**

Students Are Responsible For Entire Contents

Students may now obtain the General Bulletin for the second term at the Institute. The bulletin contains all of the announcement material that appears in the Bulletin of Technology. It is the responsibility of each student to obtain a copy of the bulletin and to read it carefully.

The bulletin is a valuable source of information for students, and it is the only source of information that is available in the bulletin. It is the responsibility of each student to obtain a copy of the bulletin and to read it carefully.
