(Continued from Page 1)

THE TECH

NOTICES AND ANNOUNCEMENTS

UNDERGRADUATE

SCARAB AND BLADE

There will be a meeting of the Scarab and Blade in the Faculty and Alumni Rooms on Monday, January 26, at 7:30. UCs must be worn.

LOWELL INSTITUTE

A lecture on "A Publishing Enterprise" will be given by the Lowell Institute in Janu-ary. The lecture will cover the evolution of the world's cultures. Tickets will be sold at the door. For more information, contact the Lowell Institute.

SKATING RINK READY NOW FOR HOCKEY TEAM

Foundation Of Ice Is Already Over A Foot In Depth

During the two weeks of Christmas vacation there will be no ice for skating. However, in previous years the world's largest rink has been ready for skating by January 1.

T.C.A. CARRIES ON DURING HOLIDAYS

Waverly Workers and Old Book Exchange Are Active

Christmas holidays found the T. C. A. still functioning at full strength. However, in previous years the world's largest rink has been ready for skating by January 1.

CIVIL SERVICE HOLDS EXAMINATIONS SOON

An examination for junior engineers will be held by the United States Civil Service Commission throughout the United States in various branches of the Government service.

The desire of these positions is to attract and develop young men of superior ability in the inspection of engineering materials, surveying and mapping services, and the supervision of the construction and maintenance of roads and highways.

ASTONOMER MAKES WORLD IS FLAT PLAN SOON

(Continued from Page 2)

A series of eight public lectures will be given in Hunting Hall; the lecture will cover the evolution of the world's cultures. Tickets will be sold at the door. For more information, contact the Lowell Institute.

PHYSICAL CHEMISTRY LECTURE

The first of a series of five public lectures on "Physical Chemistry" will be given on January 26, at 8:00 p.m. in the Central Lecture Hall. Tickets will be sold at the door.

TECH SHOW

Tech's annual show will be held from 6:30 to 9:30 p.m. on January 26, in the North Building. All students are invited to attend.

Litchfield Will Give Next AlumDe Lecture

(Continued from Page 1)

California, as well as the purchase of the area's water supply and real estate, in order to meet the ever-increasing demand for water, has been one of the most significant contributions to the city's development. Although Los Angeles was founded only six years later, large-scale plans to distribute water were already in place.

Today, Litchfield products are known throughout the world for their excellence in the production of high-quality water treatment equipment. The company's commitment to innovation and excellence has made it a leader in the industry.

The company continues to grow and expand, ensuring a bright future for Litchfield and its contributions to the water treatment industry.
